

Very Unusual

It is very unusual for a regular physician of good reputation to publicly endorse a proprietary remedy. We have often heard of cases where doctors have secretly prescribed Acker's English Remedy, but it is most gratifying to receive the following voluntary letter from C. F. Smith, M. D., the most successful physician of Olan, N. Y.:

"Messrs. W. H. Hooker & Co., New York City: I wish to add my professional testimony to the value of your English preparation known as Acker's English Remedy for Asthma, etc. In several instances, after I have tried my utmost to give even relief, I have prescribed your remedy, and it has acted almost like a miracle, not only relieving, but permanently curing every one of the patients. I endorse the preparation as one of the most valuable additions to the practice of medicine."

Such a frank endorsement as the above is phenomenal. Coming from so distinguished a member of the medical profession, it carries with it an assurance which the public will be sure to avail themselves of. It is recommendations like this which make it possible to give the broad guarantee that is a part of every sale of Acker's English Remedy for Coughs, Colds, Asthma, Bronchitis and Consumption. It must either do all that is claimed for it, or your money will be refunded. Do you know of any other medicine sold on those terms? Do you know of any other medicines which prominent doctors regularly prescribe in their own practice as being better than prescriptions they write themselves? These facts are well worth considering. They are of especial interest to those with sore throats and weak lungs.

Sold at 50c. per bottle, throughout the United States and Canada; and in England, at 1s. 2d., 3d., 4d., 5d., 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

"Plutot mort qu'aveugle"

Means, "Rather dead than blind" blindness in most cases is the result of a neglected trivial illness of the eye. Many a person now blind could enjoy good eyesight had it not been that the eyes were neglected when the first sign of disease appeared. Cataract and Glaucoma, two of the most dangerous diseases, are in most cases due to negligence in the care of the eyes. Theo. H. Liebe, of the firm of J. E. Adcox & Co., is a graduate of the Peoria Optical College, and the Bradley Polytechnic Institute. He will correct and diagnose all errors of refraction. Eyes examined free.
