ALTOGETHER TOO OPTIMISTIC

We have it on good authority that Judge Bennett told the people of majority. The judge is more opti- with all that it implies. mistic than his history will justify. A man who has been defeated at the polls three times in succession cannot afford to be very optomistic over the result of his fourth race. he is not defeated in his home county by more than 400 majority. Years ago when the judge was study- ley & Houghton. ing law and this county was democratic he was elected as school superto the bar, the county still being democratic, he was elected to the legislature; before the legislature met he repudiated the honor conjudgeship for the petty, unexpired valids and family use. Sold by Charles Stubling. Sold by Charles term of one year, and involved the county in the expense of a special election of a member of the legisnumbers of his best friends never forgave him and never will. There digests what you eat. has hardly been a biennial election since when he was not up for something, and every time he has been knocked out. It will be the same this time. Our informant says the judge has been preaching "free trade, free silver, anti-expansion, antiprosperity and anti-everything," but that he does not believe the judge has changed one single vote; for no man with a single ounce of political horse sense would expect to carry a single county in this senatorial district on a platform like that.

There is no better man on the republican ticket, nor on any other ticket, than T. H. McGreer, of Anteloge, republican nominee for joint representative. He is a man whom those who know him best will delight to honor. He has a record, state as soon as possible, all debts due too, as a legislator and it is that of the firm must be paid immediately. All a clean, upright, honorable and having claims against the firm will independent man whom the tongue of calumny has never attempted to m4-tf besmirch. When the lamented J. N. Dolph was defeated for selection, T. H. McGreer had the manliness to to June 3, 1896, will be paid at my stand by the caucus nominee of his office. Interest ceases after February. 2, party till the last vote was counted and the ablest senator Oregon ever had went down in defeat. Mr. Me-

stock interests of Wasco county for nearly a score of years. He is enhis district, and, what is more, he will get it.

Colorado, Idaho, Montana and Wyoming considered the free coinage of silver so necessary to their interests that they gave Bryan more than four votes to McKinley's one, says the Inter Ocean. Most people in these four states were sincerely in bales from Shaniko to The Dalles is convinced that without free silver 25 cents per 100 pounds. they would be utterly ruined. Yet For rates or other information call on these states were never more solidly or address prosperous than now. Not only has the denial of free silver failed to ruin them, but under the gold standard they have grown enormously in wealth.

Klickitat county democrats went through the form of holding a county convention last week. As about Terrible sores would break out on her ouly half the precincts were repre. head and face, and the best doctors sented a motion was made and carried that every man in the meeting who was friendly to Bryan should consider himself a delegate. Then purifier known. It's the supreme the convention solemnly resolved, "That we as democrats do hereby indorse and ratify the time-honored principles of the old democratic builds up the strength. Only 50 cents. party," but very significantly said never a word about the Bryanite fetich of 16 to 1.

On the day that the news reached the Pacific coast that the Spanish fleet had been sunk in the harbor of Manila, there was not an American from the k eky mountains to the ocean who are not ready to cry: "Perdition crash the hand that would strike the American flag from any flag staff where American arms and American valor has placed it." That Klamath and Lake counties that he is the American sentiment still, and would carry Wasco county by 400 the republican party stands for it
