CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Only Blood Diseases can be Transmitted from One Generation to Another

Further proof that Cancer is a disease of the blood. To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S. S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health. A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keesling, 941 Windsor Ave., Bristol, Tenn., writes: "I am 41 years old, and for three years had suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable, and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

TO BE IN HANNA'S PLACE

Payne of Wisconsin May Direct Republican Campaign.

WASHINGTON, May 30.—The statement made with renewed emphasis that Hanna will not be chairman of the republican national committee during the coming campaign. This statement comes from no one except a newspaper man supposed to be close to Hanna, but it is probably the present intention of the republican campaign managers. There are plenty of men competent to take up the work of management of the campaign, and it is probable that Henry C. Payne, Wisconsin, will be chosen.

As the time for the Oregon election draws near, it attracts more attention here because both parties are looking for some sign of encouragement. It is known that the democrats are getting ready to make the campaign material in favor of the expansion, should the returns from Oregon give them any encouragement. General regret is expressed by republicans here that the great speech of Senator Spooner, on the Philippine question, had not been circulated in Oregon before the election takes place. This speech would leave nothing for the anti-expansionists to stand upon, and is a complete historical review, showing clearly that the insurrection against the United States was planned by Aguinaldo before the cession of the Philippines was demanded by the United States commissioners at Paris. Upon the showing made by Senator Spooner, which cannot be refuted, it is said that no citizen is not blinded by partisanship can see that the United States has been right in everything that it has done in the Philippines, and that no excuse remains for the support of Bryanism and encouragement of the war upon the authority of the United States government.

Rails for Logging Road.

REVENSON, Wash., May 30.—The first lot of steel rails for J. G. & I. N. Day's logging railroad was unloaded near mouth of Wind river yesterday from steamer Regulator. Work on the road will now be pushed from now and when completed will tap a forest unsurpassed pine and yellow and red. The projectors of this road are now building a large saw mill at the Cascade falls. They have already distributed logging engines among the primeval forest of Skamania county, and are preparing to do an extensive lumbering business on the Middle Columbia river. They have two steamers on the river now, for active service. They are no strangers in this country, for they were the contractors who completed the locks at the falls, making it possible for boats to travel between Portland and The Dalles.

What Will Gold Democrats Do?

WASHINGTON, D. C., May 29.—The managers of both parties here are watching with keen interest the coming election in Oregon, and especially with

reference to the position which the gold democrats will take. It is believed that there is a general understanding among the democrats throughout the United States as to what they intend to do in this presidential election, and it is thought that it will be indicated by the general election in Oregon. The silverites are hoping that the gold democrats will return to the party, but they are not offering any inducements in the way of concessions as to the platform that will be adopted at Kansas City. The platform is almost sure to be as drastic as the platform of Chicago. If the gold democrats support the fusion ticket, and the reaffirmation of the Chicago platform in Oregon, it will be generally taken to mean that there is a movement on the part of the gold democrats to return to the party, regardless of the silver issue and Bryanism, which drove them out of the democratic party four years ago.

THE BRITON AND THE BOER

The Town of Utrecht Has Surrendered to General Hildyard.

LONDON, May 30.—The following dispatch was received from General Buller: "Newcastle, May 27.—I directed the force under General Lyttleton to advance by Schangadrift on Dornberg. These movements caused the enemy at Dornberg to retire to the north. General Hildyard is at Utrecht and the town has surrendered to him. General Clery is bombarding Laing's Nek."

PRETORIA, May 30.—An official Boers bulletin says: On Sunday a fight occurred at Van Vicks roost in Gatsrand. The federals fought well but were forced to retire on account of the overwhelming force of British. The British attacked Witwatersrand yesterday, and were in contact with federals at Gatsrand, but were beaten back.

BLOKPOINTEIN, May 30.—Amid salutes and cheers and singing God Save the Queen, military governor, Major General George Pretyman, at noon today formally proclaimed the annexation of the "Free State" to Great Britain, under the designation of the Orange River Colony.

Rust in Wheat Fields.

PENDLETON, May 29.—The first injury which has been reported to the wheat crop this year is now said to be the presence of some rust in the places where the moisture is greatest. Some farmers are claiming that the rust so far is seen only on the leaves, and that if it is not communicated to the stalk it will be more of a benefit than an injury, because it will tend to stop too rank growth that has been attained and cause the strength to be sent into the stalk, thus insuring better filling. The very abundant rains that have prevailed all through the season have induced a remarkable heavy stand of grain, which, if properly filled, will give an enormous yield. Harvesting is expected to begin

in about two weeks in the country to the north and west of Pendleton, and two weeks or a little more in other parts. Everyone is getting out his machinery, and preparation are being made to gather the biggest crop ever harvested in this county. Warehouse room may be somewhat scarce, on account of the large amount of grain yet held from former crops.

Caught a Dreadful Cold.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by Blakeley & Houghton.

The German Meat Bill.

CHICAGO, May 30.—Chicago packers saw a chance for relief from the restrictions of the German meat bill in the information cabled last night that the bill was not going into effect until October 5th. By that time, it is supposed, German opponents of the meat bill will be able, perhaps, to modify some of its workings.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion and builds up the strength. Only 50 cents. Sold by Blakeley & Houghton, Druggists. Guaranteed.

Andrew Carnegie's Wealth.

NEW YORK, May 30.—Henry W. Lucy, M. P., writing to the Tribune from London, quotes a friend of Andrew Carnegie as saying that the ironmaster has lately decided that his possessions can be readily converted into hard cash and will amount to \$200,000,000.

The Best Remedy for Rheumatism.

QUICK RELIEF FROM PAIN. All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies, but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by Blakeley & Houghton.

It Was Plague.

SAN FRANCISCO, May 30.—Dr. Kellogg, who has been investigating the corpse of a Chinaman found in a Chinese undertaking establishment, expressed an opinion late last night that the Chinaman had died of the plague. "I am satisfied it is the plague," he said, "and I am confident that an autopsy and animal inoculation will confirm it. One not conversant with the situation in Chinatown cannot imagine the difficulties that confront the inspectors, but they can be imagined when I say we have only discovered the cases after the victims were dead."

Columbia Southern Warehouse.

At Shaniko the Columbia Southern Railway Co. controls 80x100 feet of the Shaniko warehouse building, to be used as a freight warehouse, through which they will receive and forward freight in the usual manner. The impression that all business must be done through forwarding houses is an erroneous one and we take this means of dispelling it. Freight received and held twenty-four hours will be turned over to a forwarding house subject to the order of the consignee. The rate on wool in sacks or in bales from Shaniko to The Dalles is 25 cents per 100 pounds.
