FENIAN SCARE AT VICTORIA, B. C.

Reports That Attempts Were to Be Made to Blow Up Buildings Caused Excitement.

VICTORIA, B. C., June 1.—(Special to the Telegram.)—During the celebration of last week a number of reports were going the rounds to the effect that an attempt was to be made in this city by Boer sympathizers or Fenians, to do damage to the forts and public buildings—the theater on the night of the big patriotic concert of Wednesday last being particularly spoken of. As a rule not much credit is given to these reports, but this time there was good foundation for them.

On Monday of last week word was received here from the British consul at San Francisco that men had left there with the object of doing damage to the forts and theater. Previous information from the same source had proven so correct that some alarm was felt among the naval and military officials, and those civilians to whom it was necessary to convey the news. Strong guards were placed on all the naval and military works, the old ones being changed without a moment's notice; the theater was searched from the basement to the dome before the concert commenced and three Pinkerton detectives who had descriptions of the men reported to have come North, stood at the entrance and closely scrutinized each person who passed in.

It is not known that the men were seen here, but it will be admitted the authorities had reason to feel alarmed when it is stated that just before the blowing up of the Welland canal, a report was received from the same source in San Francisco that attempts were to be made to blow up public buildings and public works throughout Canada. A few days after the canal explosion occurred an attempt to get into Fort Macaulay was frustrated by the guard. Military authorities here state their belief that Fenians have headquarters in San Francisco.

He Fooled the Surgeons.
All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by Blakeley & Houghton Druggists.

Impending Strike.
DENVER, Col., June 1.—A strike is dependent upon the result of a conference being held today between the master and journeyman plumbers in this city. The men are receiving \$4 per day. Recently they struck for an advance, but were induced to return to work until today to permit the contractors to complete work contracted for under the old conditions.

Machinists' Strike.
PHILADELPHIA, June 1.—Machinists of this city have for some time been preparing for a strike in the event of the failure of their employers to grant their demands. There are 18,000 of them in this city, and today they presented a demand for an eight-hour instead of nine-hour day, at the same rate of wages.

Relief and Pension Bill.
CHICAGO, June 1.—An elaborate relief and pension plan was submitted to the employees of the Chicago, Milwaukee & St. Paul Railroad company today. The plan embraces all the best features of the relief department of the Baltimore & Ohio, and the pension fund of the Pennsylvania company.

A FOUL MURDER AT PORTLAND

Mrs. Naomi Moss Murdered in a Lonely Park—Husband Suspected of the Crime.

PORTLAND, Or., Telegram, June 1.—Mrs. Naomi Moss, better known as Miss Naomi Clute, wife of Riley M. Moss, was shot through the heart and killed near Willamette Heights park between 10 and 11 o'clock last night. Suspicion rests upon the woman's husband, and jealousy is believed to have been the motive. Officers are seeking Moss, but the search thus far has been in vain. Mrs. Moss was the daughter of Charles Clute, well known in Portland, where he has lived several years.

The conductor of a Washington-street car recalls having taken Mrs. Moss and a man who answers the description of her husband to the entrance of the park at about 10 o'clock last evening. The couple left the car and sat down on a bench near at hand. The car then started back down town. A few moments later a woman's screams for help, followed by two pistol shots in quick succession were heard. The police were notified and a thorough search of the park made, but without avail. This morning the woman's dead body was found.

A Life And Death Fight.
Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Blakeley & Houghton's Drug Store.

British Hold Back.
LONDON, June 2, 3:15 a. m.—Lord Roberts continues silent regarding Pretoria, probably because he cannot wire of events from his own personal knowledge. Lourenco Marques, where all the news from the Boer side is re-handled, cables that communication with Pretoria is now suspended.

Some messages by courier have reached Lourenco Marques, but none of later date than Wednesday. These assert that the burghers are in a state of panic, and that Pretoria is being controlled by a vigilance committee. Lourenco Marques again sends the report that President Kroger has been captured. A dispatch from Vryburg, dated May 30, says: "During the occupation of this place by the Boers, they flogged the natives for slight offenses. A whip and several cords knotted and salted were found at the police station. A boy who brought a letter to a woman received twenty-five lashes, and another who sympathized with him received fifteen."

The Best Remedy for Rheumatism.
QUICK RELIEF FROM PAIN.
All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies, but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by Blakeley & Houghton.

Rev. W. E. Sitzer, W. Canton, N. Y., writes, "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat.

Lost in the House.
WASHINGTON, June 1.—The house of representatives today after a lively debate extending over two days, defeated the joint resolution proposing a constitutional amendment empowering congress to regulate trusts. It requires a two-thirds vote under the constitution to adopt an amendment to the constitution. The vote stood ayes 154, noes 131. The affirmative vote, therefore, was 38 short of the requisite two-thirds—192. Five democrats, Campbell (Mont.), Naphe (Mass.), Scudder (N. Y.), Sibley (Penn.), and Thayer (Mass.), and one silverite, Newlands (Nev.), voted with the republicans for the resolution, and two republicans, Lund (Cal.) and McCall (Mass.) with the democrats. These were the only breaks from party lines. The populists voted solidly against the resolution.

Catarrh Cannot be Cured

Glorious News.

Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion and builds up the strength. Only 50 cents. Sold by Blakeley & Houghton, Druggists. Guaranteed.

No New Plague Cases.
SAN FRANCISCO, June 1.—Health officers report that no new cases of plague, either alive or dead, have been reported this morning. The work of cleansing the town is proceeding, and it is the opinion of leading physicians that the plague, if it really exists, cannot possibly spread under the regime now being followed by the Health Board and its employees.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." Sold by Blakeley & Houghton.

HOW LUCK RUNS IN ALASKA.

The Irony of Fate Is Nowhere Better Shown Than in That Country.

At first sight it would seem that the like good luck might fall to any man, but the reality runs much the other way, says Ainslee's Magazine. The man of quick intelligence, of judgment and decision is not the man who ordinarily achieves this sudden wealth. It is the man who is too stupid to know the risks he is taking, and it is the reckless man who plunges wildly and misses no desperate chance, who seem favorites of the god of chance. Nor do all good luck stories have pleasant endings. Often after the "pile" is made, accident, disease or death steps in to prevent its legitimate enjoyment. One man dropped dead when at the weighing of the first clean-up he found himself a rich man. There was something wrong with his heart. He had the physical strength to make the fight against bad food and water, to endure the back-breaking toil of developing and working out, and all the strain of the uncertainty that went before. The supreme moment of success was more than he could stand, and the use of the gold passed from him with its acquirement. A certain James Meade lay down with typhoid fever in an outlying camp just as he was starting for home with the accumulations of the year, and he and his bag of dust entered Dawson together on a litter. It took six men to bring him in—alternating four to carry and two to rest—and he paid each man \$15 a day. Once in Dawson Meade seemed to grow better, and when his sailing day came he walked to the boat. He reached the wharf and fell dead as he was about to go aboard.

LINCOLN WOULD LET 'EM DO IT

Little Chicago Girl Who Was Sorely Shocked at a Revelation of Slavery.

The epidemic of "coon songs" which now rages where once the milder "negro melodies" were prevalent is doubtless responsible for the befogged condition of the mind of a seven-year-old pupil in a Highland Park school. The birthday of Abraham Lincoln had been made much of in the primary department and the teacher had dwelt with special emphasis upon the emancipation proclamation and the consequent striking of the chains from the negroes, says the Chicago Chronicle.

Not long after the Lincoln celebration half an hour was given over one day in accordance with school custom to nature study. The teacher selected the subject of "coons," told the children how they prowled about at night and stole the farmers' corn, and how in return the farmers set traps for them, and, catching them, put collars on their necks and chained them up to trees, where they kept them captive. The teacher became aware that a little girl in the front seat was looking at her with a more serious expression than the story seemed to call for. In a moment a hand went up and the little one was on her feet.

"Teacher," she said, "I shouldn't think Mr. Lincoln would let 'em do it, and, anyway, I know my papa wouldn't dare try to put a chain and collar on our cook."
