

# Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes **sour and acid**. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

## The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to reform in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

### PERTINENT PRESS COMMENT.

All the Filipinos want, if they surrender, is everything in sight and employment at nothing to do and good salaries.

If the Chinese should refer to the little American fleet as "a tub navy" Admiral Kempff will show them their mistake by doing a little laundry work for the Empress Dowager.—West Side.

Did Hanna do it? is the caption of a Philadelphia dispatch regarding Roosevelt's nomination. It may be safely said Hanna did not do it. The people did it, and it was good work.—Tacoma Ledger.

Ignatius Donnelly says the chief function of the government is to supply the people with money. Of course; and it does that, too—if they want to work for it. But there is where he, and his populist followers draw the line.—Astorian.

Mr. Bryan does not approve of the republican platform. But Mr. Bryan did not have to express himself on that point, and the Associated Press did not have to telegraph his utterances across the continent, to acquaint the voters of that fact.—Spokane-Review.

The avidity with which democratic newspapers inveigh against Senator Hanna is one of the most unmistakable evidences of his worth to the country. The abuse they have heaped upon him falls like so much chaff. There is nothing in it, and it amounts to less.—Eugene Register.

The silliest story that is going around in politics is the one that has it fixed so that John H. Mitchell will be elected United States senator next winter. It is merely a bogie intended to scare people with. But there is no one in all Oregon, outside the asylum for the insane, silly enough to be scared, or who would believe the story.—Salem Statesman.

The ants are in another pickle. They don't know whether to condemn the president for sending troops to China, or to denounce him for not taking more vigorous measures to protect the lives and property of Americans in the Chinese Empire. So they do a little, or rather a good deal, of both. It may be necessary for Bryan to break that silence soon.—Oregonian.

While "Cyclone" Davis, of Texas, is devastating the prairies of South Dakota with his scorching eloquence, the farmers of his own state are accumulating wealth at a most disgusting rate from a populist standpoint. When he gets back to his native heath he will find that his occupation as a calamity howler is gone, and he may have to go to work

### A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. ### Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes swollen, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised 'Electric Bitters'; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Blakeley & Houghton's drug store.

### Belgian Hare as a Meat Producer.

There is no animal, either wild or domestic, which equals the hare in producing pounds of meat, and no known meat of so fine a quality. It is fine-grained, tender, juicy and as white as the breast of a chicken. It has a delicate flavor which the stomach of a convalescent will not repel. It costs but fifteen cents to raise one to maturity, while it costs seventy-five to raise a chicken. You can keep ten Belgian hares in the same space necessary to keep one hen. One hen will raise about 100 pounds of meat in a year, while a hare will produce more than 500 pounds. As compared with a chicken the hare excels from all standpoints.
