

For President—WILLIAM MCKINLEY, OF OHIO.

For Vice-President—THEODORE ROOSEVELT, OF NEW YORK.

WHY MCKINLEY WILL WIN.

The following from the Colorado Springs Gazette, is worthy of a careful reading:

President McKinley will win in the coming presidential election because his candidacy is in accordance with the spirit of American institutions and of American progress, and also because he represents the material interests of the American people.

The democracy is on the wrong side, and it is on the unprofitable side and it is on the untruthful side.

There is not one of the main issues presented by the democracy upon which it ought to win, and there is no better proof of this than the fact that it does not state any one of these issues fairly, clearly and honestly.

What a tissue of fraud and misrepresentation is the cry of "imperialism". There is no imperialist in this republic. The republican administration is working out the problems which have been brought before it with skill and success. The difficulties are great, and dangers many, but the failures are few. In the great majority of cases it is doing not only the right thing, but the only thing possible under the circumstances.

In the attitude of the democratic party toward the trusts the same insincerity is apparent. They are fertile in wholesale denunciation and threats, but they propose nothing that is practicable and that would stand the test of court decisions. The careless citizen who would take their invectives at face value might suppose that the democratic success would be followed by the banishment of "trusts" from the land, if he did not stop to think that such a whole sale revolution of economic conditions and methods is impossible, and if it were possible it would be destructive and calamitous beyond measure. But democratic speeches and platforms are not intended for the voters who stop to think.

The attitude of the democratic party on financial matters is absolutely insincere. The members of the party are greatly at variance upon this important matter, and it is impossible for them to present a coherent and honest policy. To the West they must present a silver shield with a steady disregard of facts and possibilities; to the East the silver side must be carefully concealed or treated as of small importance; while at the same time the populists must be conciliated with a tolerance of their fantastic theories of an irredeemable paper currency and the uselessness of metallic money of any kind.

To a far greater extent than usual, this year's election is going to be a test of the good sense, the intelligence and shrewdness of the American people.

There is not a fair minded, honest and intelligent jury in the world but would decide, upon truthful presentation of the facts, that the interests of the American people require the continuance of the republican party in power.

The vast body of voters who will cast their ballots next November is such a jury, and there is no danger that it will be misled by the efforts of democratic conventions, speakers or newspapers to befog its mind and to misstate the facts as they exist.

And that is why President McKinley will be elected.

A writer in the New York Herald says the coming campaign will be the most important in the country's history since the days of the civil war. The campaign of 1896 was a very important one. But we are inclined to agree with the Herald writer. A victory for the Bryanites would be a greater misfortune than would have been their success four years ago. It would be breaking off in the middle of the great things that are under way. If such a misfortune is to happen, it were better that the great things had never been undertaken. But we feel every confidence that the people of this country will not think of turning their faces back and leaving unfinished the great undertakings they have in hand. It would not be like this great country in any part of its glorious history.
