

SCROFULA The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores, the eyes are inflamed and weak; there is an almost continual discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or your child has inherited any blood taint, don't wait for it to develop, but begin at once the use of S. S. S. It is a fine tonic and the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is pre-eminently a remedy for children.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and was almost despaired of her life. A few bottles of Swift's specific cured her completely, as it seemed to go directly to the cause of the trouble. I do not believe it has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies. S. I. Brooks, Monticello, Ga.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.
