

Why are we thronged? What is the attraction?

In hot and sultry times like these, it is only the UNUSUAL BARGAINS that don't go a-begging. Values, and big ones at that, alone possess the power to interest.

In response to a telegram received this morning, informing Mrs. E. J. Collins of the dangerous illness of her father, Mr. and Mrs. Collins left on the noon train for his home in Southern Oregon.

A clip of 21,664 pounds of Crook county wool was sold yesterday at the Wasco warehouse to Whitman, Farnsworth &

Thayer, of Boston. The price was not given out, but it is known to have been in the neighborhood of 13 cents. This is the first break of a deadlock that has lasted for weeks.

The Shaniko Leader says the Columbia Southern has now men on every train whose sole business is to watch for fires along the track. In several instances the watchmen discovered grass and grain burning and gave the alarm, upon which the train was stopped and the destroying element quenched.

The steamer Reliance has been making evening excursions several times a week recently. The custom-house officials at Portland have chartered her for some evening the first part of next week to go to Kalama. The steamer Dalles City took an excursion of about 300 children to Multnomah falls yesterday.

M. T. Nolan returned home last night from accompanying Civil Engineer Huber and Judge Bennett as far as fifteen miles above the Harris place on the Deschutes, on a reconnaissance of that route in the interest of the contemplated line of railroad between The Dalles and Klamath county. The judge and Mr. Huber proceeded on south and nothing will be known of the result till their return.

Few people realize that Wind Cave, near Hot Springs, S. D., is the largest and most beautiful cave in the United States. No one knows how large it really is. Over 100 miles of passages and 3000 chambers have been explored. And that is only the beginning. There are fourteen different "routes," only three of which have been opened to the public. They are known as the Garden of Eden, Fair Grounds and Pearly Gates.

J. L. Kelly, who, with his family, is sojourning in Newport, writes us that he expects to remain there for six weeks more; that the fishing in Yaquina bay affords fine sport, and that the rock oysters are this year plentiful and excellent. Most of the sojourners at the bay are from Albany, Corvallis and Salem, and only twelve persons, all told, from The Dalles. Among the excitement there is the government tug boat, George W. Wright, which is engaged in removing a large rock from the channel near the bar.

A heavy forest fire to the north of Mount Jefferson was in progress Monday evening, and also, several hundred acres of hay were burning at the same time on the Warm Springs reservation. These two fires were miles apart, though probably sparks from the timber fire touched off the hay, which seems to be unusually dry everywhere this year. The two fires were readily distinguishable by their smoke, the timber smoke being dark, while a huge cloud of dense white smoke hung over the reservation.—Shaniko Leader.

An enterprising brewer up at Baker City has copied bodily, verbatim et literatim, the article written by Dr. Amos Gray in the June number of the United States Health Reports on the quality of August Buchler's beer, and, inserting

his own name instead of Mr. Buchler's, is running it as an advertisement for his own beer in the Baker City papers. August ought to send that fellow a chromo as a compliment to his gall. The article in question was set up in this paper from the magazine itself. The Baker City man copied it from THE CHRONICLE.

A rarely beautiful monument has just been erected in the Odd Fellows' cemetery over the remains of little Reta Mays; daughter of Polk Mays of this city, who died a year ago last May. The monument is of Carava marble, about four feet in height, and stands upon a base of Italian marble, surmounting a base of Mill Creek granite. The design is that of an ideally beautiful angel, and was copied from a picture that was a favorite of the child that lies underneath. The picture was sent to Carava, Italy, by Louie Comini, with instructions that it be copied to the life, and the work on the monument was done there. The die and base are the work of Mr. Comini. On the die is the inscription: "Reta Dean, daughter of Mr. and Mrs. Polk Mays; born September 6, 1894; died May 26, 1899. Rest in peace." Hundreds of people in the long future years will visit this lovely monument and gaze on it with admiration.

Story of Three Faithful Dogs.

A Heppner dispatch says: The Hynd Bros. have just returned from looking up their lost sheep among the Greenhorn mountains, 100 miles southwest from Heppner. Their herder, George Parmater, was found dead on the range, and had been dead for a week when found. He had three Scotch collie dogs, and one of them was found almost famished, standing guard over the body. Another was guarding the camp, a mile away, while the third was sticking right to the sheep and keeping them fairly well rounded up, though apparently not being able to get them back to the camp corral.

There were 3100 sheep in the band, and on their owners making a new count it was found that only seven head were missing. This was in the widest part of the Blue mountains, where wolves, cougars and bears are fairly plentiful. The herder had been in bad health for years, and was near to death's door while in Heppner a few days ago. On account of decomposition the remains had to be buried where they were found.

Obituary.

Florence Odell Scott, wife of L. H. Scott, of Wapinitia, died at the Good Samaritan hospital in Portland yesterday. The remains were brought to The Dalles on the noon train and are at the Crandall & Burgett undertaking rooms, from which the funeral will take place tomorrow morning at 10 o'clock, and the interment in Odd Fellows' cemetery. The deceased died in labor of her first child, which was never born.

Mrs. Scott was the daughter of S. G. and Margaret A. Blackerby, of Wapinitia, and was born February 4, 1871, near Silverton. She leaves to mourn her sad

and untimely death, a husband, father, mother, three sisters and two brothers, all of whom, save the father, are here to attend the funeral. Her father is on a prospecting tour in Harney county, and dispatches sent from here have been unable to reach him. The mother and husband, in anticipation of the worst, had accompanied her to the hospital and remained with her to the end.

She was married to L. H. Scott February 12, 1896, and as daughter, sister, wife and neighbor was a pattern of all the gentle, womanly virtues that are the glory of a true woman.

D. P. & A. N. CO. OWNS "IRALDA."

She Will Be Put on the Run Between The Dalles and the Locks.

The D. P. & A. N. Company has purchased from her owner, Captain Newcome, the steamer Iralda that has been running between The Dalles and Portland for a short time as an opposition boat. The sale was made last week after the boat had been taken off the run and tied up. The object of the D. P. & A. N. Company in the purchase of the boat is to accommodate the people living on both sides of the river between Lyle and the locks, who do the most of their trading with the Dalles merchants.

The Iralda is expected here today, and after she has been overhauled and painted she will leave the locks every morning except Sunday, and returning leave here some time in the early afternoon. Settlers along the river will be able to come here, do their trading and return home the same day. This will make four boats the D. P. & A. N. Co. will have in operation on The Dalles run, and it will enable the schedule to be materially improved. The rates on the line will not be affected by the change.

The Iralda is chartered to carry 100 passengers. It is expected she will be ready for business early next week.

Portland Wheat Market.

The local market remains dull and weak, and continues in a most unsatisfactory condition. There are not many buyers actively in the market, and sellers find conditions against them. The relatively strong position of tonnage has had considerable effect upon wheat values, and it is undoubtedly due to the firmness of freights that grain has given way. A number of sales of small parcels were made during the week, almost entirely of Eastern Oregon and Washington. We hear that 57 cents per bushel was paid for Walla Walla wheat, which figure is rather above its current value, based upon existing rates for tonnage, but is accounted for by exporters who made favorable early charters being willing to part with a portion of their freight profit and give quick dispatch to such vessels as may arrive next month. Nominally Walla Walla wheat is not worth more than 55 cents per bushel on dock; Bluestem, 57 cents; and Valley 54@55 cents. Usually at this time of the year exporters are heavy purchasers of grain, and in former years there has been more or less competition among buyers to secure desirable parcels, and this active buying movement has as a rule been decidedly favorable to the selling interests but now there is little or no disposition shown by exporters to compete on offerings, and present conditions compel sellers to seek buyers, rather than buyers to hunt up sellers.—Commercial Review, July 26.

FIRST YOU HAD DANDRUFF

Was Careless About It.
Now You Look Like This.

That spot will grow unless you attend to it. Dandruff is the disagreeable scurf that forms on the head as a natural excretion; it dries, and comes off in small scales. It causes irritation, which is, sometimes unobtrusively, followed by constant scratching of the head in public and private. It is annoying to people who wear dark clothes, and it gradually affects the hair, causing it to fall out.

Keep the air inside the hat from getting foul by wearing Eldrad's Anti-septic Hat Pad, and nature will do the rest. The heat of the head volatilizes the antiseptics and disinfectants in the pad, making the impure air pure.

A Good Cough Remedy.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by Blakeley & Houghton.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently, and have never known it to fail.—Mrs. Curtis Baker, Brookwater, Ohio. Sold by Blakeley & Houghton.

The change from the American to the European plan made a few days ago in the Umattilla House dining room is meeting with the decided approval of the many patrons of that popular caravansary, and, as a matter of course, has resulted in people going there for their meals that hardly ever went before. The great attraction of the system is that you can at all times get what you desire or order and can have a meal at any price that suits your appetite or purse.
