BLOODSHED IS FEARED

Fewer Men Working Today Than Any Time Since The Strike Began.

SHENANDOAH, Pa., Sept. 25.—Sixteen thousand more mine operatives are idle in what is known as the Mahanoy valley, which extends fourteen miles along Broad Mountain. The action of the men is a surprise to the military and the mine owners. It was entirely unlooked for and has given renewed courage to the strike leaders. They declare that the mine workers around Shenandoah have gone out on a sympathetic strike.

The presence of the militia is believed to have caused the present condition of affairs. The rioting foreigners have struck and will not work. The American, English, Welsh and Irish employes are not thoroughly organized and were at work last week until intimidated by the foreigners, composed of Hungarians, Poles, Lithuanians and a half a dozen other nationalities. A chance to work guarded by the troops was given them, but they would not accept it. They fear bloodshed and do not want to be drawn into any affray. Remaining away as they do they have added to the strength of the strikers.

The situation is extremely critical. One overt act may precipitate a crisis. The strike leaders are taking every opportunity to add to their numbers. Apparently the men who had determined to continue work are now thoroughly frightened, and it is doubtful whether the Reading or any other company in this valley will succeed in starting up its mines with anything like a complement of men for many days.

The authorities have received warning of impending trouble around Hazleton and desire to move some of the troops in that direction. It is now admitted that the number of soldiers called out was not too many and the Ninth and Thirteenth regiments have been ordered to be ready to march at a moment's notice.

In Shenandoah, Mahanoy City and other places the foreign element are out in the streets in full force, most of them wearing their Sunday clothes. They are said to be better off than any other class, because most of them have money and can live. They do not care how long the strike lasts and many will quit the regions entirely.

GENERAL JOHN M. PALMER IS DEAD

Passed Away at His Home in Illinois Early This Morning—Served His Country as Soldier and Statesman, and Ran for President in 1896 on Gold Democratic Ticket.

SPRINGFIELD, Ills., Sept. 25.—General John M. Palmer, former governor of Illinois, ex-United States senator and one of the great generals of the Union army in the civil war, died at his home here at 7 o'clock this morning.

General Palmer was about yesterday as usual. Last night he went down town and upon returning complained of a pain in the chest about the heart. A physician was called several times during the night. At four this morning he said he was all right and felt much better. Soon after he fell asleep and at 7 o'clock, while his wife was away for a doctor again, he passed away calmly.

John McCauley Palmer, soldier, was born in Eagle creek, Scott county, Kentucky, September 3, 1817. He removed to Illinois in 1832 and in 1839 settled in Carlinville. He was admitted to the bar in 1840, was a delegate in the state constitutional convention in 1847, a member of the state senate in 1852-4, a delegate to the national republican convention at Philadelphia in 1856, a presidential elector on the republican ticket in 1860, and a delegate to "the peace convention" at Washington, February 4, 1861. He was elected colonel of the Fourteenth Illinois volunteers in April, 1861, accompanied Gen. John C. Fremont in his expedition to Springfield, Mo., and was commissioned brigadier-general of volunteers on December 20, 1861. He was with General John Pope at the capture of New Madrid and Island No. 10, and afterward commanded the first brigade, first division of the army of the Mississippi. In November, 1862 he was with General Grant's army in temporary command of a division. Subsequently he led a division at the battle of Stone river, and for his gallantry there he was promoted to major-general of volunteers, November 29, 1862. He participated in the battle of Chickamauga, and led the

Fourteenth corps in the Atlanta campaign, from May till September, 1864. He was governor of Illinois from 1869 to 1873. Afterwards United States senator and 1896 candidate for president on the gold democratic ticket.

A Minister's Good Work. "I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale at Blakeley's drug store.

The First Task. PERIN, Sept. 20, via Taku, Sept. 24.—The diplomatic and military authorities here are anxiously awaiting the arrival of Li Hung Chang. There is a general desire for the establishment of some semblance of Chinese authority, which when done, it is believed, will tend to a clearing of the situation. The military is deemed unable to secure a return of peace to the country. The authority of Li Hung Chang to treat for peace is still doubted. Referring to this matter, United States Minister Conger said: "Our first task is to examine and pass upon the credentials of Li Hung Chang. Beyond that we have no policy or plan of action."

William R. Rockhill, special commissioner of the United States in China, will probably not await the arrival of Earl Li. He is busy conferring with the ministers and investigating the situation. The Russians are inaugurating a Red Cross hospital under the patronage of the Czarina. The institution will be opened to soldiers of all nationalities. Thirty British soldiers who were wounded in the Tun Choo explosion are dead.
