

**A Minister's Good Work.**

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale at Blakeley's drug store.

**PEOPLE COMING AND GOING.**

Hugh Jackson, of Wapinitia, is in the city.

Mr. G. F. Purdy, of Oitz, Gilliam county, called at this office today.

John Leland Henderson, the Hood River attorney, was in town today.

Mr. Sig. Young, of Astoria, is visiting with the family of Mr. C. J. Stubbing.

J. W. Hopkins, a Prineville attorney, was in town today on his way home from Portland.

Chris Dethman, a prosperous fruitman of the Hood River valley, was in town today.

Miss Harriet Stevens, who acted as maid of honor at the Luedemann-French wedding, returned to her home in Portland on this morning's boat.

**PEOPLE EAT TOO MUCH.**

Starvation is Successfully Used as a Cure for Many Diseases by a Philadelphia Physician.

A Philadelphia physician of note, Dr. Edward H. Dewey, claims to cure all sorts of diseases by starving his patients. The brain, says this practitioner, never loses weight in either sickness or starvation. Usually the mind remains clear when the body has wasted away. The head is the powerhouse of the body. The stomach is run by brain power. When the stomach does too much work it makes too great a demand upon the brain.

"For more than 20 years," writes this doctor, "I have permitted my sick to do without food so long as there was no desire for it. Not a mouthful was enforced in any case, not one mouthful denied on the first hint of hunger.

"In this I have had all the medical textbooks and the entire medical profession as authority unquestioned against me. That food is needed to sustain the strength of the sick has never been a matter of question with the medical profession.

"Many of my sick have gone for more than a month without food. One very sick, in bed for more than a month with acute rheumatism, was able to walk about the room on the forty-sixth day before the first food was taken. Another patient, a woman of 57, went until the forty-third day before she broke her fast, and without any omission of her ordinary duties. A diseased stomach was cured as the result, and now, after five years, there has been no return of the trouble."

Physicians are pretty generally agreed that Americans eat too much—especially too much meat. The no-breakfast habit may not be so very silly after all.

**Only Two Methodist Papers Profitable.**

It came out in the reports of the recent Methodist conference that only two of the 15 official journals of the church, published in different sections of the country under the common name of the Christian Advocate, had been conducted at a profit. The net loss on the others—\$108,000 in four years—had been borne out of the profits of the publishing business known as the Book Concern.

**Red Hot From the Gun.**

Was the ball that hit G. B. Steadman at Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for twenty years. Then Bucklen's Arnica Salve cured him. It cures cuts, bruises, burns, boils, frowns, corns, skin eruptions. Best pile cure on earth. Twenty-five cents a box. Cure guaranteed. Sold by Blakeley's druggist.

**BUSINESS LOCALS.**

Paint your house with paints that are fully guaranteed to last. Clarke & Falk have them.

**Drying preparations** simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size, Ely Brothers, 50 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

**A NEW MOTOR.**

**Invention of a German-Heat Energy Turned Directly into Motion by Electricity.**

From Germany comes the design of a remarkable motor that turns heat energy directly into motion through the intermediary action of electricity. The machine is called a thermo-electric motor, and works on the familiar principle of the electric motor somewhat modified to meet the peculiar exigencies of the case. In action it is essentially an electric motor, but one driving its electrical energy from heat applied to it through thermo-electric couples. A thermo-electric couple is composed of two dissimilar metals, such as iron and copper. Any complete circuit made of two metals must necessarily have two junctions of the two in it.

If one of these junctions is heated more than the other an electric current will flow in the circuit, its amount and direction depending on the nature of the two metals, the difference in temperature between the two junctions and the resistance it encounters in its path. On the motor machine the couples are made of iron and nickel, firmly brazed together. They are arranged like the windings of the ordinary electric motor, with one set of junctions brought conveniently to the surface, where gas jets play upon them. The other set are cooled by a rapid circulation of air about them, engendered by the rotation of the machine. While the motor is of no practical value, it is an exceedingly interesting exemplification of the ease with which energy may be transformed and retransformed through the various forms of heat, electricity and motion.

**THE DOCTOR'S PRESCRIPTION.**

**He Wasn't Needed But Once, and Was Too Busy to Bother Then.**

"When I went abroad this spring," said the young man who was being dined because he had just come home from the exposition, says the New York Sun, "I was so ill that my mother said I could not go without our doctor.

"On the way across, somehow, all my illness got blown overboard and I felt as if I had left myself in New York and was a new man I'd have to get acquainted with. But all the time there was the doctor in our party. He was having a good time and taking his own medicine; every once in awhile he would take a pill from one waistcoat pocket and take it, then after a meal he would draw a powder from another pocket and wash that down.

"The day we reached Amsterdam, however, like a flash I found my old self I had left in New York. I felt ill and couldn't breathe. I went to the doctor in haste.

"'Doctor,' I said, 'I feel queerly; I can't get a long breath, all I can do.'

"'Then take two short ones,' said he, and I laughed and got better right there.

"And that was the only time my physician prescribed for me from duck to duck, over and back."

**PEACOCK FEATHER BOOM.**

**Sale of the "Tiddler" Means Much to London Trade—Many Made Rich.**

The peacock's feather has become a conspicuous feature in our national rejoicings, says the London Mail. Its introduction has brought about a revival of trade in the commodity which has filled Mincing Lane with gladness and proved a windfall to thousands of London's poor.

For purposes of jubilation the "eye" feather of the peacock has been rechristened "tiddler" and sold in millions to a joyous public. Before the war the trade in peacock's feathers was in a comatose condition. Huge stocks were on hand, and the promise of a clearance seemed distinctly remote.

Then some brilliant opportunist saw in the feather the very article for which an exuberant public might be taught to yearn. In the early days of our successes in South Africa the "tiddler" in the hands of the boisterous youth, instantly jumped into popularity, and while it added to the harmless gaiety of a nation, its ready sale enriched all who had foreseen the boom.

**The Thousands and Millions.**

Bishop Brindle, in his lecture at Sheffield on his experiences in warfare, told some interesting stories, among them that of a young soldier on the wondrous march to the Atabaca.

"I say, Bill," he remarked to an old comrade, "just fancy how many thousands there are who don't know where we are!"

To which the more seasoned warrior replied: "Ah! Just fancy how many millions there are what don't care a damn!"—London Chronicle.

**Floral lotion** will cure wind chapping and sunburn. Manufactured by Clarke & Falk.

Clarke & Falk have received a carload of the celebrated James E. Patton strictly pure liquid paints

Buy a meal ticket at the Umatilla House restaurant; \$5.50 for \$5. 51-1f

**THE CELEBRATED .. COLUMBIA BREWERY ...**

AUGUST BUCHLER, Prop.

Of the product of this well-known brewery the United States Health Reports for June 28, 1900, says: "A more superior brew never entered the laboratory of the United States Health reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand is composed of the best of malt and choicest of hops. Its tonic qualities are of the highest and it can be used with the greatest benefit and satisfaction by old and young. Its use can conscientiously be prescribed by the physicians with the certainty that a better, purer or more wholesome beverage could not possibly be found."
