#### Drunken Indiana Arrested,

Marshal Driver and Lonie Fritz made a raid last night on the Indian camp near the nead of the old brewery grade, and gathered in five bu ke just as they had imbibed alcohol enough to fit them to hold their usua, night v origies. They were arraigned before the recorder this morning. Three of them were fined \$5. each, one \$3 and the others discharged. They belong to the Warm Spring reservation and claimed to be on their way home from the Yakima hop fields. As the \$18 worth of fines considerably depleted their exchequer, the chances are that their drinking bouts will soon come to an end. The question still remains unanswered, who furnishes these Siwashes the liquor?

Tendy's Speeches Today

Almon, N. Y., Oct. 31.-The sun came out just after the Rhosevelt special left Rochester, giving promise of a pleasant day. The first stop was made at Brockport. Here the governor said :

"Mr. Bryan invokes the declaration of independence as applying to the Philppines. Nebraska was acquired by Thomas Jefferson without the consent of the Indians in it, and he ought to have known how to apply the declaration of independence because he wrote We cannot afford to let Mr. Bryan's principles and the present Bryanized Democracy continue a formidable danger to American political life. I appeal to you not merely to beat it, but to stamp it under foot, so that no similar appeal will ever be made in our time. While we can afford to differ on questions of policy we cannot afford as good Americans to differ on the underlying principles the lack of which makes any party whatever it is a standing danger to the country."

At Holly it was raining. Nevertheless the governor spoke to a great crowd. He said :

"We do not want to cut into the national honor by cutting in two the na- more notable events of the great sovtional debt. If Mr. Bryan's policies ereign's life have been framed and ever should be enacted into law they would bear with an especial weight of whom he affects to be most interested.

"Mr. Bryan speaks of polygamy in the Suln Islands and says it ought to be stopped. Why, his proposal is to establish a protectorate over those islands. and therefore guarantees both slavery and polygamy in Sain."

Then, again, she is a great believer in the efficient of cold water, and she has a horror of ductors and of sorcerers-indeed, she sends for one only when she requires the loan of a peculiarly deadly and potent drug.
