OFFENSIVE OPERATIONS

Elaborate Plans for Crushing the Tagalos—Navy Will Participate—Orders for Return to Volunteers Rescinded for a Time.

New York, Nov. 9.—According to a special dispatch from Washington to the Tribune, the operations to crush the Tagal rebellion, which are about to be begun and prosecuted with extreme energy, are to be a thoroughly comprehensive character, the plan of campaign having been prepared by General MacArthur last month, after a council of officers. The plan has received the unqualified approval of the war department without material modification.

It involves extensive naval co-operation, including all the regular warships on the station, as well as the numerous gunboats purchased from the Spaniards, which are to be distributed in flotillas, each with a large flagship. Admiral Remy, on the flagship Brooklyn, has just returned from China to Manila to assume personal charge of the operations afloat which Admiral Kempff, in the Newark, already at Cavite, has been mapping out in conjunction with General MacArthur for several weeks.

The details of the campaign are closely withheld at the war department, because everything published in this country is sent by cable to the various Philippine juntas, especially to that at Hong Kong, and in some mysterious manner Aguinaldo is placed in possession of the information in time to take counter moves for his own security.

But the departure for Manila yesterday of two animal transports each with several hundred cavalry horses and pack mules for Vigan, in Northern Luzon, and for the southern islands, indicates that the period of garrisons remaining on the defensive is about to give way to rapid offensive movements in the strongholds of the enemy.

Coupled with the beginning of rebellion crushing campaign, the preliminary orders issued some time ago for bringing home the volunteers have been rescinded for the present. It was intended to start the first of these men

home about December 1, in order that they could all be discharged in compliance with existing law before June 30, 1901. It was estimated that the 32,000 volunteers now in the Philippines could not be returned on the regular army transports and chartered vessels in less than five months.

It is now expected that fully one-half of the volunteers now in the Philippines will be anxious to re-enlist and remain in the islands. In that case the transports can easily bring home the remainder in the three months. The military force under General MacArthur, including the troops coming back from China this week, aggregate 71,000 officers and men, in addition to 3000 marines and 5000 naval officers and enlisted men. The total strength ashore and afloat exceeds that of last winter by nearly 12,000 men.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised 'Electric Bitters'; and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed, at Blakeley's drug store.

Sentiment Imprudently Expressed.

MONTGOMERY, Ala., Nov. 9.—General Joseph Wheeler has given out the following on the result of the election:

"I did not go to Decatur to hear the returns Tuesday night. I do not like to go to funerals, and I felt it and knew that Mr. McKinley would be overwhelmingly re-elected.

"There are two things the American people reverence—first, their gold, and second their flag. A word against either will bring down their condemnation. There never was a president defeated for election who had conducted a successful war. Wars are popular in this country and are growing more popular with the masses, and any party that opposes a successful war will meet with defeat.

On Its Last Legs.

WASHINGTON, Nov. 9.—All the members of the cabinet except Secretaries Long and Wilson attended the meeting today. They remained in session until nearly 2 o'clock, and discussed the Chinese situation, as well as matters pertaining to Cuba, the Philippines and Porto Rico.

Two of the three hours that the session lasted were occupied in a discussion of foreign affairs, necessitated in part by the fact that the president intends to treat this subject exhaustively in his forthcoming message to congress. Reference was made to the expressions in portions of the European press that the United States policy regarding China would undergo marked change after the election. It is authoritatively announced that, after an exhaustive review of every step of the Chinese difficulty, from its inception up to the present moment, by Secretary Hay, the cabinet ratified every detail, and, moreover, unanimously expressed its judgment that the policy so far pursued should be continued without change to its logical conclusion. Accordingly, the present guard at Peking will be maintained, and such troops as yet remain to be withdrawn, according to the original programme, will be shipped to Manila. With this addition of his force, General MacArthur is expected to renew the campaign against the rebellious Filipinos with the greatest energy. Administration officials here think that as soon as the result of the election becomes known throughout the Philippines, the resistance to the authority of the United States will be overcome.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c and \$1. Trial bottle free at Blakeley's drug store; every bottle guaranteed. 5

Boers Have Lost Heavily This Week.

BOTHAVILLE, Nov. 8.—There has been heavy fighting since November 6, resulting in the defeat of the Boers, who lost 23 killed, 30 wounded and 100 taken prisoners. Seven of their guns also were captured. The British lost three officers and four men killed.

LONDON, Nov. 9.—Lord Roberts, telegraphing from Johannesburg, under date of November 8, gives details of the Boers near Bothaville, and adds to the facts already known, the following:

"Colonel Legalkis was heavily engaged for five hours with 1000 Boers. Knox reinforced Legalkis and completely defeated the Boers. Dewet and Steyn, with the Boers left in great haste and were pursued some miles to the southeast. The enemy broke up into small parties. Legalkis was among the killed. Steyn's secretary, Devilliers, was wounded and captured."

Lord Roberts also reports a number of small affairs, the most important of which was an engagement fought November 6 by Smith-Dorrien, south of Dalmanutha, which resulted in the Boers being driven to the east of the Komati river.

Catarrh Cannot Be Cured.

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

Deep Waterway to the Mississippi.

CHICAGO, Nov. 9.—The board of trustees of the sanitary district has decided to begin an active campaign for the purpose of securing a deep waterway to the Mississippi. Colonel J. W. Barlow and Major C. McD. Townsend, members of the board of engineers whose duty it is to report to congress regarding the advisability of deepening the Illinois river, will reach Chicago today and will take a trip down the canal. Major J. H. Willard is also a member of the board. The trustees ordered that a memorial prepared by Engineer Randolph be presented to the board of engineers next week. In this report the engineers are asked to recommend to congress that the Illinois river be dredged to a depth of fourteen feet. The memorial says:

"The law makes Chicago turn over to the United States government its entire investment, aggregating \$34,269,244, upon one condition, namely, that it shall improve the Desplaines and Illinois rivers for navigation to connect with this canal."

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." It is for sale by G. C. Blakeley, the druggist.

Severe Storm in New York.

NEW YORK, Nov. 9.—A severe storm began last night all over New York state and continues with the wind rising to a gale. It is also much colder than yesterday, and the Northern New York snow storms are reported. On the coast the wind became so high that the marine observer in the Sandy Hook tower was forced to leave his post because the building swayed so much that he feared it would collapse. A sloop lying inside Sandy Hook dropped her anchor and was driven inside the beach. All telegraph wires out of New York were crippled by the storm.
