## **BROKE THROUGH** WHILE SKATING

Drowning of Forty-nine School Children Near Foster, lowa - Two Escaped.

DAVENPORT, Ia., Dec. 28 -A startling rumor is current here that forty-nine school children were drowned while ekating on the river near Foster, Ia.

## Say the Report Is True.

DES MOINES, Is., Dec. 28 - Telephone messages by way of Oscaloosa and Ottumwa say the report of the drowning of forty nine school children at What Cheer is true. The children were skating on a pond near the fair grounds, and the accident occurred about 9 o'clock in the evening. Wire communication with What Cheer cannot be obtained at

## Two of the Children Escaped.

CHICAGO, Dec. 28 .- A special to the Times - Herald from Burlington, It., eays: A telephone message from Washington, Ia., last night announced that fifty-one children were skating on the river near Foster, Monroe county, when the ice broke through, forty nine of them being drowned. The message announced that two of the youngsters, badly bruised and utterly exhausted, managed to reach the land and give the alarm.

Telephone and telegraph messages to every point near Foster has failed to bring confirmation or denial of the story, and there is no means of tracing the origin of the first message, Foster is a small town near What Cheer, and is located on the Milwaukee & St. Paul railroad. Every available point having connection with Foster, either by wire or railroad, was roused, but could get no information. It is thought here that the report is probably not true. The telephone exchange at What Cheer closed at midnight without either confirming or denying the rumor.

## Throat Troubles

"Bardwell, Ky., where I live, is in the extreme western part of the State and only a few miles from Cairo, Ill., where the Ohic empties into the Mississippi River. It may be that the out troubles are common here be-

cause of location, but. whatever the reason, I find it wise to constantly keep a supply of Acker's English Remedy for Consump tion on hand. It is the best thing I ever

came across for coughs, colds and throat troubles, and I have used it in my family for years. No druggist here can be depended upon to have it always, so I am writing this letter to W. H. Hooker & Co., 220 Broadway, N. Y., to order a dozen bottles at a time. My wife is bothered lately with sore throat and difficult breathing, but just as soon as the dozen bottles get here. I will give her a few doses, and she will certainly be well again. I expect to write another letter in a short time saying my wife is cured, for I feel absolutely sure it

is what she needs." (Signed) T. A. WHITE. Sold at 25c., 50c. and \$1 a bottle, throughout the United States and Canada; and in Eng-land, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

MU.... IDLAND DISAPPEARS

Either It Never Existed or It Has Sunk Beneath the Waters of the Pacific.

The United States bydrographic office is about to wipe Morrell island off the face of the map. Morrell island. does not at present rear its head above. the waters of the Pacific.

As a matter of fact, remarks the New York Sun, there may be hundreds of just such islets as Morrell island was first described as being whose existonce is not indicated on the best of mariners' charts. In some portions of the Pacific, the officials of the hydrographic office state, vessels never go. Of course it is impossible to make the definite statement that there is any spot in the ocean which has never been passed by some vessel at some time, but the chances are vastly against either salling vessel or steamer having explored a great portion of the waters of the mightiest of oceans.

Again, there are undoubtedly a number of islands charted on the maps which exist only on paper. The sailing vessels which first explored the Pacific were manned by small crews and carried abord them most imperfect chronometers. On many oceasions they did not stop when they came in the vicinity of land, but simply 'recorded in a more or less careless fashion the fact that the vessel had sighted an island of such and such size at the latitude and longitude in which the captain thought he was sailing.

Capt. Davenport, of the hydrographic N. H., who says, "For years I suffered office, states that mirages which aphave often been recorded as actual land. He says that many of the Pacific slands now chartered will turn out to 2w e nothing more than mistakes in the vision of eareless navigators.

The whaler's captain describes the Island as being about four miles in circumference, flat, and so low as to be nearly level with the water. Extending around it were reefs for about 15 miles in the west and :30 miles in the southerly direction. Another very small island was reported as being close to the greater one.
