CONTROL OF CANADIAN

Purchase by Americans is Entirely Possible—Nothing to Prevent Anybody From Buying Stock.

MONTREAL, Feb. 14.—T. G. Shaughnessy, president of the Canadian Pacific Railroad, was asked last night what he thought of the possibility of the Canadian Pacific being acquired by a powerful combination of United States capital as was stated in the course of the debate on the government ownership of railways in the house of commons.

"Oh, it is quite possible," observed Mr. Shaughnessy. "There is nothing whatever to prevent American capitalists, if they have got the money, from buying the stock of the Canadian Pacific, which is for sale in London and Montreal and Berlin and other continental bourses. Having acquired the stock, there is nothing to prevent them from controlling the policy of the company and exercising their control for the advancement of United States interests."

"What do you think, Mr. Shaughnessy, of the suggestion that in order to prevent this the government should itself acquire possession of the Canadian Pacific and other railways material to the prosperity of Canada, which are now owned by companies?"

"Well," observed Mr. Shaughnessy, "speaking frankly, I think it would be infinitely better, if the government intends to take up seriously the business of railroading, that the public money of this country should be invested in the acquisition of such railways as the Canadian Pacific and the Grand Trunk, than that it should be wasted in the subsidizing and construction of useless lines. We have had too much wasting of public money in the past for the building of railways, which are not only the most useless, but are positively injurious, inasmuch as they cripple the lines which are already built. This is very preposterous, and, as I have said, it would be far preferable that the government should take over the existing lines than that they should build new lines to compete with them."

"Do you think there is likely to be any combination of American capitalists

which would purchase the Canadian Pacific railroad stock in such quantities as would give the control of its policy to foreigners?"

"That is hard to say," said the president, with a laugh. "I have not heard of any who are anxious to do so as yet."

Says War Was Caused by a Book.

CLEVELAND, O., Feb. 14.—F. Hopkinson Smith, the well-known author and lecturer, recently declared that Mrs. Stowe's famous book, "Uncle Tom's Cabin," is vicious and harmful in its effect upon its readers. In an interview yesterday in this city, Mr. Smith repeated the statement, and gives the following as his reasons:

"Because it paints an absurd, false picture of the conditions of the South before the war. The book would have us believe that the southern people were brutes, who tracked slaves with bloodhounds and flayed their negroes with the lash. It is a book which divides our country into halves and paints the people of the north side of the dividing line as angels and those on the south side as brutes and miscreants. A book like that is harmful."

"I not only believe that the book did much to bring on the Civil war, but I believe it is doing much to keep open the breach between the North and the South. I think it is wrong that our young people should read and venerate that book as a true picture of American life south of the Mason and Dixon line. The performance of the play as adopted from the book is just as harmful."

"The book 'Uncle Tom's Cabin' precipitated the war of the rebellion. John Brown's raid made it inevitable."

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. One application gives relief. For sale by Blakeley, the druggist.

NOW READY. McCall's Magazine for March.

Mr. Nation is Sensible.

WICHITA, Kan., Feb. 13.—When Mrs. Carrie Nation, the saloon smasher, returns to her home at Medicine Lodge she will not meet with a pleasant reception from her husband if he remains in his present state of mind. He gave out in an interview in which he severely criticized his wife for touring the East.

"She should remain in Kansas, where she can do some good," he said "I don't approve of her going all over the East and making a show of herself, as people there only want to make fun of her."

"I think she is showing to the world that she is losing her nerve, instead of telling them how she did things out here. People have read in the papers how she smashed saloons. If she starts to raise any row in Chicago and other towns I hope they will put her in jail and make her suffer for it. I took her part and spent several hundred hard-earned dollars while she was fighting saloons in Wichita, but when she goes out of her sphere I will have nothing more to do with her should she get into trouble."

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at Blakeley's Drug Store. 6

Views of Brewer.

NEW HAVEN, Conn., Feb. 14.—Justice David J. Brewer, of the United States

supreme court, touched upon the Philippines problem in his address in the Dodge lecture course in Yale. He said:

"I have been over 36 years on the bench, and no one, indirectly or directly, ever has hinted that any decision I might make might be for my own benefit, either socially, pecuniarily, politically or otherwise. If I had wanted to do wrong I should have been obliged to go out and hunt for the tempter."

"We enter the new century under changed conditions; we have been isolated, but now commerce is carrying us; whether we will or no, to the ends of the earth. China that great mass of effete civilization, turns with abundant faith to this nation in its time of distress."

"Many people are today wondering what the outcome of the Philippine war will be. The press and the halls of legislation resound with the momentous questions involved in the settlement of the status of the islands. A solemn sense of the responsibility fills congress. It is, however, a secondary matter what will be the conclusion of congress, the policy of the administration, of the decision of the supreme court, provided the people of this country measure their intercourse with the residents of these insular possessions by the Golden Rule."

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and la grippe during the past few years, to our knowledge, not a single case has resulted in pneumonia. Thos. Whitfield & Co., 240 Wabash avenue, Chicago, one of the most prominent retail druggists in that city, in speaking of this, says: "We recommend Chamberlain's Cough Remedy for la grippe in many cases, as it not only gives prompt and complete recovery, but also counteracts any tendency of la grippe to result in pneumonia." For sale by Blakeley, the druggist.

For the weakness and prostration following gripe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly. Clarke & Falk's P. O. Pharmacy.

Dewet in Cape Colony.

LONDON, Feb. 14.—The Evening News prints a dispatch from Cape Town, dated Thursday, February 14, which says:

"The government here is advised that General Christian Dewet and former President Steyn entered Cape Colony and occupied Phillipstown. The British attacked them yesterday and drove them out of the town with loss."

CAPE COLONY, Feb. 14.—A Boer commando crossed the Orange river yesterday, in the Phillipstown district. It is reported that Dewet was in command. Van Wyksvel was occupied Monday by 2000 Boers, who were retreating from Calvinia.

The Boers are reported in force 24 miles west of Carnarvon. A Boer convoy of sixty-five wagons and forty-five prisoners has been captured north of Amsterdam.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by Blakeley, the Druggist.

A powerful engine cannot be run with a weak boiler, and we can't keep up the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and it simply can't help but do you good. Clarke & Falk's P. O. Pharmacy.

A full line of Eastman films and supplies just received by Clarke & Falk.

Recent experiments show that all classes of foods may be completely digested by a preparation called Kodol Dyspepsia Cure, which absolutely digests what you eat. As it is the only combination of all the natural digestants ever devised the demand for it has become enormous. It has never failed to cure the very worst cases of indigestion and it always gives instant relief. Clarke & Falk's P. O. Pharmacy.
