### SPECIAL COUNCIL MEETING.

A Franchise Given to a New Electric Light and Power Plant.

A special meeting of the council was held last night, with Councilman Gunnling in the chair.

Councilman Shackelford was appointed a committee of one to correspond with the authorities of the O. R. & N. Co. with reference to obtaining possession of the company's pest house for the use of the city.

Councilman Liebe, chairman of the committee on health and police, reported that the smallpox patient had been removed to the pest house, and that the house from which he was removed was being fumigated under the direction of the marshal.

Mr. J. P. McInerney appeared before the council and demanded that the ordinance be enforced that requires the fumigation of houses that have been occupied by smallpox patients. The recorder was requested to read the ordinance bearing on this subject, and on complying with the request the marshal was instructed to enforce the ordinance without any unnecessary delay.

The matter of the petition of property owners for a sewer on Court street came up for discussion, and Councilmen Kelly, Wakefield and Liebe were appointed a special committee to confer with the property-owners and report the result to the next regular meeting.

The chairman of the committee on streets and public property reported that the improvement on Ninth street had been completed according to contract, and on motion a warrant was ordered drawn on the treasurer for the contract price of \$36.

A special ordinance was passed granting to E. Kurtz and associates and their successors in interest and assigns "the right and privilege of erecting and maintaining, operating and using in, along and over the streets, alleys and public places of Dalles City electric light, telephone and power wires and all necessary supports for the convenient and practicable use and operation thereof."

Kurtz and his associates are granted this right on the express provision, and not otherwise, that so long as they operate the proposed electric plant they shall furnish Dalles City, free of cost, two incandescent lights in the engine house, one in the Mt. Hood hose house, one on the south side of the hose company's hose house, one at the East End hose house, two in the council chambers, two in the city jail, and one in the recorder's office—all of 22-candle-power.

The franchise is given on the express condition that the plant shall be in operation within two months of the date of the approval of the ordinance.

A special ordinance was read authorizing the mayor and recorder to enter into a contract on behalf of Dalles City with E. Kurtz and associates, or their successors in interest or assigns, to furnish the city with twenty 1200-candle-power arc lights and twelve 32-candle-power incandescent lights, to be burned all night for the lighting of the

It may not be generally known that the party who propose to furnish the city with electric lights, and to whom a franchise was granted by the council last night, intend to get their power from the Deschutes river. It is said they contemplate erecting a large flour-

ing mill to be driven by the same power, and the site is spoken of as the vacant lot on the southeast corner of Main and Washington streets.

Some of the long distance telephone hands this morning cut down a telephone pole that stood on the northeast corner of Second and Washington, and as it fell to the ground it scattered the soft mud in all directions, frescoing the front of French's bank, Williams' shoe store, Wheelton's real estate office, and paying special and marked attention to Van Norden's show windows.

### School Entertainment.

The people of The Dalles have always seemed so kindly disposed toward school entertainments, and have always responded so promptly and liberally to any request for assistance, that those entrusted with the management of the public school feel under deep obligations to the friendly supporters. It is through respect for this cordial sympathy that the following explanation is made:

For the last few years it has been customary to give a school entertainment at the close of school, using the proceeds to replenish or add to the school library. The need of books is just as great this year and the desire for them among pupils greater. To meet this need it was thought necessary to have the annual school entertainment this year as usual. Because of the accumulation of work at the end of the term upon pupils and teachers, when both are wearied from the year's labor, it seemed best not to fix the date of the entertainment at the close of the term, but to hold it earlier; and at the same time not to require much extra work from the pupils. This will explain the school social last Friday evening, also the entertainment that is to follow. The fund raised last Friday evening, a little over \$20, is to be used for the Court Street school library, started a short time ago.

Until this year there has been but one main school library, kept at the high school building. But the inconvenience arising from pupils coming there for books, and the need of books more elementary in nature, led to the desire of establishing libraries in the other buildings better suited to the wants of pupils of intermediate and primary grades. Such a library is started in the Court Street school, and it is hoped that one may be established in Academy Park school in the near future.

For the coming entertainment the school has engaged the services of Miss Grace A. Holmes, of the Holmes School of Oratory, a graduate of the Emerson School of Oratory, Boston, as reader, and Miss Gambell, of Portland, a student of the Italian school, as vocalist, to assist.

The entertainment will be first-class in every respect. It will be at the Vogt opera house Saturday evening, February 23.

This entertainment and the one last Friday evening take the place of the regular entertainment at the close of the term, and are all for this year. The school hopes from its friends the same earnest interest in this as in all its former efforts.
