NO LONGER FRIENDLY

England's Ardor For the United States Has Cooled—Lansdowne is Inclined to Snub Us—Passes Over Canal Question As of No Importance.

NEW YORK, March 7.—American rumors that the British foreign office has suggested a basis for drafting a new isthmian canal treaty cannot be confirmed in London, says a Tribune dispatch from that city.

The English press has not shown any interest in the canal question and consequently Lord Lansdowne has considered it safe to pass it over as a matter of no importance, and thereby remind the American government that it ought to find out what it wants before asking any foreign power to grant a gratuitous concession in a spirit of neighborly accommodation. Lord Lansdowne is not in an amiable state of mind, as has been shown by his attack upon Lord Wolseley, but he is capable of gauging English sentiment correctly on foreign questions.

There was real enthusiasm in England in favor of America during the Spanish war, but it has cooled off. This partly is because the American opinion was divided during the Boer war, but mainly because the imperial movement has received a great impulse from the loyalty displayed by the colonies and because, also, the German emperor has proved a trustworthy and useful ally in heading off European intervention. The plain truth is that German support is considered more helpful than American good feeling, hence there is no disposition to make unnecessary concessions to the United States either on the canal questions or the Maybrick case, which has again been brought up by the prisoner's friends.

House Washington Lived In.

NEW YORK, March 7.—The Jumel mansion and grounds in Harlem which were occupied by General Washington as headquarters will come into the possession of the city as a public show place of Revolutionary relics through the action of the Board of Public Improvements.

Walter S. Logan appeared before the board as the representative of the Sons of the Revolution, and M. A. Hall appeared as the representative of the Society of Historical Places of Interest. The mansion was built in 1770 by Roger Morris, a colonel in the British army. General Washington used the mansion as headquarters during the summer of 1777. Stephen Jumel bought the property in 1880, and his widow, Mme Jumel, who married Aaron Burr, occupied the property at the time of her death in 1865.

The house is in a fair state of preservation. The cost of the property to the city will be \$200,000.

Real Old-School Elopement.

NORTH YAKIMA, Wash., March 7.—A characteristic young Lochinvar has been discovered in Yakima county. His name is John S. Tracy, and he has succeeded in carrying away his bride in spite of locks and bars. His steed was the swiftest on the road. Pretty Bertha Versoy mounted the horse, and at the hour of midnight sped away to a justice of the peace, where the marriage ceremony was performed before her irate parents could reach the rendezvous and interpose legal objections. Since the ceremony has been said the parents are reconciled, and a warm reception awaits the lovers.

The contracting parties were considered too young to marry, and parental objections were interposed. They secured the license, but the girl was locked behind heavy doors and not permitted even to peep from the ill-lighted window on the face of her youthful lover. An escape was planned. The fleetest horse in the county was engaged for the occasion. Arrangements had been made with a justice four miles away to be in waiting as the clock should toll the hour of midnight. Promptly at the given signal the girl bounded from the window and was caught by her lover, and the steed galloped away to the city. The wedding was performed in a few seconds and the couple pronounced man and wife as the objectors reached the courtroom.

The young man is a farmer boy, and this is his first love. His bride is a blushing young girl of 17 summers. Her parents are ready to welcome her home again and forgive the new son-in-law for his rash act in stealing their daughter.

Remember that you don't have to be bald; you can keep your hair by using Coconut Cream Hair Tonic. To be had at Frazer's barber shop.

PACIFICATION OF PHILIPPINES

Most Encouraging Report From Judge Taft—Purpose of the President and People of the United States Was Received With Enthusiasm.

WASHINGTON, March 6.—Secretary of War Root has received a cablegram from Judge Taft, president of the Philippine commission, dated Manila, March 3rd: "Since January 1st, 1128 firearms were captured and 1368 surrendered. Both were due to the co-operation of natives. Since November, 5000 bolomen surrendered in Ilocos, 1000 in Albay and Camarines; 60,000 residents of Panay have taken the oath of allegiance. Offers of attack are now of the rarest occurrence. Delgado, the insurgent leader of Panay, with 350 men and rifles, and Cimon Techon, with 200, in Bulacan, have surrendered. Lacuna, Mascado, Pablo, Sandico and other leaders have made overtures to surrender, but ask immunity from prosecution for alleged complicity in assassination, which was not conceded, and has delayed consummation. The federal party, the avowed and direct outgrowth of the election, has spread with wonderful rapidity in all parts of the archipelago, and is active and urgent in advocacy of peace and presenting the advantages of civil liberty under American sovereignty. It is being assisted by surrenders in Panay.

"The commission has within the last three weeks organized five provincial governments, Pampanga, Pangasinan, Tarlac, Bulacan and Bataan. The last two are Tagalog provinces. It attended each provincial capital in a body; was met by prominent people and councillors and personal men of the town, explained the provisions of the general provincial act and special bill for the particular province and invited discussion by natives present of both bills. The conventions thus held were very satisfactory. Amendments were suggested and considered, a special bill enacted and appointments followed. The explanation of the purpose of the president and people of the United States to secure civil liberty was received with enthusiasm. Anxiety for provincial government is everywhere apparent, and satisfaction with the form adopted is manifest."

The Best Plaster.
