# The Dalles Daily Chronicle. FRIDAY . . . MARCH 8, 1901 stanch friends of a foreign bounty of paint and artist's brushes.

## THE SHIPPING BILL.

The argument in favor of the ship subsidy bill in congress is presented very fully and fairly by the San Francisco Call in the following :

Aggressive Bryanites and timid republicans in congress have joined to prevent action on the bill to restore our merchant marine. No argument worthy of the name has been made against that measure in the senate or the opposition press. A great deal of mouthing has been done by parties who are without knowledge of the features or intentions of the bill.

It is intended to extend to deep water ships the same equalizing policy of protection which has so ummensely developed our lake and coast shipping. The latter is exclusively American. No ship flying a foreign flag is permitted in the coastwise trade. Therefore the 25 per cent higher cost of building and 35 per cent higher cost of running an American ship are not felt in that trade, since the cheaper built and cheaper run foreign ships are not permitted to enter it and compete with ours.

On deep water, however, we have to meet that cheap competition, and our competitors have the ships and we have not, so they get the trade and we pay them about \$160,000,000 people.

Senator Hanna has been called on to make a statement, outside the analysis of the measure it is seen what produces such wonderful results in under this offer must be paid in adthat its advantages are open to any free. American ship that is in first-class condition; It does not exclusively favor any type of ship or route; slow ships may under it compete with fast ships, and single ships with lines of ships; compensation is based on size of ship and distance sailed, with knots. For every American built must build a new tonnage equal to register equal new tonnage must be built in the United States for its March, 1901. owner within ten years. Foreign built ships admitted to American register receive but half the compensation given to American citizen water. As foreign ship owners now carry this measure, which will make us independent of them in a few years. prevent it. For their American allies an excuse equally innocent cannot be given. tend to believe that our merchant marine may be revived by free ships-that is to say, by permitting built foreign ships, put them under and the pain is gone. Sold by Clarke & the American flag and register and compete for deep water trade. This is a vain scheme. The cost of running an American ship due to our higher wage scale is 35 per cent more than the cost of running a foreign ship. That shuts us out of the competition unless we reduce the pay of American sailors to the foreign standard, or equalize the cost of operating ships by the plan proposed in this bill.

So Americans who attack this bill because it pays a bounty are the system which has effectually driven us off the seas, as we could have Clarke & Falk's sure cure for boils. been swept therefrom by the great

against our unarmed merchantmen.
