GENERAL HARRISON LAID TO REST

Big Concourse of Mourners—President McKinley and Many Other Notable Men in Attendance—Services at the Grave and Church Simple in the Extreme.

INDIANAPOLIS, March 17.—In the center of a hollow square composed of fully 15,000 of his fellow-citizens, the remains of Benjamin Harrison were this afternoon interred in the family lot in Crown Hill cemetery. Close by the grave were the members of his family, President McKinley and other visitors of distinction, and the more intimate friends of General Harrison. Back a distance of 50 yards, behind ropes guarded zealously by a large force of police, stood with uncovered heads the great multitude, who knew him not so well as did they who stood beside the freshly upturned earth, but who honored and admired him fully as much. It is doubtful if any public man—at least in this generation—was borne to his last resting place among so many manifestations of respect. There was no exception anywhere to the expression that the Nation had lost one of its ablest men, and the greatest man of his generation in his own state.

The weather, like that of yesterday, was unsurpassable, with bright sunlight, the warm breath of spring in every breeze, and yet in the air a touch of winter that brought the blood to the cheek and a sparkle to the eye.

The services at the church and grave were simple in the extreme, and in most excellent taste. Like the proceedings yesterday, there was an utter absence of friction in everything that was done. All was well ordered and well performed.

Seven Years in Bed.
"Will wonders ever cease?" inquire the friends of Mrs. L. Pease, of Lawrence, Kan. They knew she had been unable to leave her bed in seven years on account of kidney and liver trouble, nervous prostration and general debility; but, "Three bottles of Electric Bitters enabled me to walk," she writes, "and in three months I felt like a new person." Women suffering from Headache, Back-

ache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells will find it a priceless blessing. Try it. Satisfaction is guaranteed. G. C. Blakeley, the druggist. Only 50c.

Population of Germany.
WASHINGTON, March 16.—The census office has received through the state department a consular report on the population of the German Empire and its changes during the past century. The population is now about 56,000,000 or larger than that of any country in Europe except Russia, which has in Europe alone over 100,000 subjects.

Since 1871 when the modern German Empire was organized, the population of Germany has increased about 35 per cent, a growth extremely rapid for an old country and for one sending out large and steady streams of emigrants. The Germans feel a natural pride in the rapid growth in their population, says the report, compared with that of their rival across the Rhine. In 1845 France had 36,000,000 inhabitants and Germany 34,000,000. Now France has about 38,000,000, or only two-thirds the number of Germany.

A Raging, Roaring Flood.
Washed down a telegraph line which Chas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by G. C. Blakeley, the druggist. Price 50c.

Partial Acceptance.
HAVANA, March 16.—It is stated that in a majority of the individual reports of the members of the constitutional convention's committee it will be recommended that the United States be given the island of Pines and allowed to establish sanitary measures under the direction and control of the Washington government, but the other provisions outlined in the Platt amendment will not be agreed to. The report of the committee will be an extensive document, giving reasons in detail why the amendment cannot be accepted. It is expected the report will be submitted next Tuesday or Wednesday.

The Deal Falls Through.

NEW YORK, March, 16.—A special to the Times from Washington says:

The arrangement by which the sultan of Turkey was to pay his debts to the United States under cover of the purchase of a cruiser from the Cramps has fallen through. The Cramps have not begun work on the Turkish cruiser, and will not do so. The prime cause of the failure of the device so ingeniously contrived by the sultan was the shrewd move of Germany, recorded in European dispatches last December. Germany was determined that if the American claims were paid hers should be paid as well. It was impossible to assume that the American claims would be paid, for the sultan had so cleverly contrived the payment that he would be able to reply to the Germans that he was merely buying a warship, and was not paying any debt. Germany therefore flanked the sultan by making her demand, for the payment of an indemnity, but for the payment of a bill owed the Krupp concern for armor before she bought any more war material. This move of Germany, it is now learned has been completely successful. The sultan was able to pretend that he was not going to pay the American indemnity, but he could not pretend that he was not negotiating with the Cramps for a ship. The negotiations with the Cramps therefore had to fail.

Get Out of China.
BERLIN, March 16.—The most striking feature during Friday's and today's debate in the Reichstag was the unanimously manifested feeling of weariness over the "China adventure." It was a regular chorus of "let us get out from China." The socialist speakers said: "Get out at any price."

The Radical left and Center said: "Get out as soon as honor permits." Even the conservatives said as much, though all parties recognized the fact that the 123,000,000 marks demanded as a third installment of the expenses must be voted. Indeed, the entire nation is thoroughly tired of China, even the government and the reigning Princes, as the toast of the heir to the Bavarian throne at the Munich festivities showed, when he said: "We all desire a speedy and successful end of the China war."

Union of Employers and Employees.
LONDON, March 16.—John Burns, M. P., Thomas Burt, M. P., and other labor leaders, are conferring in regard to the feasibility of the proposed federation of the employers and employees unions, to be known as the National Federation of Masters' Associations and Trades Unions, the object being to "educate the minds of employers and employees concerning the grave responsibilities which rest with them in respect to the expansion of British trade, to device means to meet foreign competition, to send joint deputations of capital and labor abroad to inquire into the conditions of other countries and to provide a federation where employers and employees may meet on the same plane."

Stepped Into Live Coals.
"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by G. C. Blakeley, the druggist. 25c.

STOCKHOLDERS' MEETING.
Notice is hereby given that there will be a meeting of The Dalles, Portland & Astoria Navigation Company, at the company's office in The Dalles, on Saturday, April 6, 1901, at 2 o'clock p. m., for the purpose of electing seven directors and transacting such other business as may properly come before said meeting.
