MAY BE THE BLACK POPE

American to Succeed Father Martin Possible That Head of Jesuits Will Be Removed.

NEW YORK, March 25.—The Herald says: Among the possibilities suggested by reports from Rome is that of an American becoming "the Black Pope." There are according to an old saying, three Popes in Rome—"the White Pope," who sits in the chair of St. Peter; "the Red Pope," who is the Cardinal Perfect of the Propaganda; and "the Black Pope," who is the general of the Jesuits. Cardinal Gibbons' name has often been mentioned for the first named office. That of Father Rudolph F. Meyer, also an American, is also spoken of in connection with the last of the trio. According to the reports in reference, Leo XIII has determined to remove Father Martin, general of the Society of Jesus, on the grounds that the recent popular demonstrations against the order of France, Austria, Spain and Portugal, are due to mismanagement, for which Father Martin is held responsible by his holiness.

Members of the Society of Jesus in this city are inclined to doubt the accuracy of this report. They believe, however, that in view of Father Martin's bad state of health an assistant may be appointed with every likelihood of succeeding him eventually.

"If any action had already been taken by the holy father," said the Rev. Father J. J. Wynne, S. J., last night, "it would have been reported to us by cable by our representative in Rome, Father Meyer. Nothing on the subject, however, has been received. On the other hand, there is a possibility that a vicar has or may be appointed as assistant to Father Martin, who will take charge of his work. The general has been in bad health for a year or more, suffering seriously, I fear, from Bright's disease. Though he is comparatively a young man, about 54 years of age, and has several assistants and advisers who have charge of different sections of the world under his direction, Rev. Father Meyer, representing this country, his work is very onerous. Under the circumstances I think it probable that the holy father has given him an assistant."

Cuba to Reject Amendment.

NEW YORK, March 25.—A dispatch to the Tribune from Havana says: Congressman Brantley has had a conference with Senor Nunez. He learned that the convention relations committee's report, to be made Monday, will state that the Platt amendment is vague and indefinite, that it does not define the area of land wanted for coaling stations or state where they are to be located.

The intervention clause is likewise indefinite, the committee will further say. If the convention should accept this clause the United States could intervene on any pretext, even if a stable government existed. It was not satisfactory because the United States could raise a point and the president could send troops to Cuba without the action of congress on the plea of enforcing an act of congress.

Mr. Chamberlain will begin the work of raising the wreck of the Maine Monday.

England And the Tariff.

LONDON, March 25.—In the commons today, Chancellor Hicks-Beach was asked whether, in view of the organization of the steel trust in America, the British government proposed to impose duties on foreign steel. He answered: "Wait for the budget. The question is answered there."

It is rumored that England is about to abandon its free trade principles in several directions, notably as to sugar and steel, and post a registry on wheat. Lord Cranborne announced that Russia had agreed to accept the result of an inquiry into the Tien Tsin disputes.

Hurricane in South Seas.

VICTORIA, B. C., March 25.—The mail from Suva brings details of a great hurricane which recently wrought much havoc in the South Pacific. The storm, which swept over New Caledonia, and

especially on the East Coast, was the worst in years. Two large sailing vessels and a steamer were lost. The steamer Hero was driven on the rocks at Kouaoua, and together with several barges loaded with nickel, she foundered. The bark Emile Galline was swept to disaster on the coast at Tihoo, and the new four-masted ship Ville du Harve, partly loaded with nickel ore, was stranded at Nonnea, where she soon broke up. The loss of life, it is feared, was large.

Tonga and Fiji also suffered, the former island the most. At Nukulofa, among the small craft wrecked was the King's yacht. The master lost his life in the attempt to save. A good many coast vessels were wrecked on the Fiji and other damage done. The island of Matuku was swept by a tidal wave and over 100 houses were blown down or swept away by the incoming waters. Many lives are reported lost.

Swept by a Cyclone.

BERMINGHAM, Ala., March 25.—A cyclone which swept over Jones valley, in which Birmingham is located, between 9 and 10 o'clock this morning, resulted in immense damage to property and considerable loss of life. The number of dead is not yet definitely known, but up to noon today it was estimated at 25, of these at least seven being killed at Iron-dale, about fifteen in the city of Birmingham and the others in suburban towns.

New Appointment for H. B. Miller.

WASHINGTON, March 25.—The president has appointed Henry B. Miller, of Oregon, to be consul of the United States at Niu Chwang, China.

(Mr. Miller was originally appointed consul at Chungking, China. Recent disturbances made it impossible for him to reach that point, which is doubtless the reason he was given another post.)

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 25c. Sold by G. C. Blakeley, the druggist.

How to Cure Croup.

Mr. R. Gray, who lives near Amenia, Dutchess county, N. Y., says: "Chamberlain's Cough Remedy is the best medicine I have ever used. It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the Cough Remedy kept at hand ready for instant use as soon as these symptoms appear. For sale by Blakeley, the druggist.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. One application gives relief. For sale by Blakeley, the druggist.

OFFER IS REJECTED

Pennsylvania Town Will Not Accept Carnegie Library—Workingmen Ask Justice, Not Charity.

NEW YORK, March 25.—A special to the World from Newcastle, Pa., says: Owing to the attitude of the labor unions the city council will, in all probability, reject the \$50,000 offer of Andrew Carnegie for a public library for this place. Following the action of the trades assembly, division 89, Amalgamated Association of Street-Railway Employees, has adopted a resolution protesting against the acceptance of the gift. A committee to whom the matter had been referred at a previous meeting, reported the following:

"That such donations are inimical to that independence American manhood is assumed to possess (on general principles), and especially so in this case when such flagrant injustice, even to murder, has been done to those whose toll is represented in every dollar of the money thus tendered.

"To erect such a library here, and by its silent or its partisan outspoken influence, induce our children to look upon it as a logical, necessary and unavoidable method of obtaining certain benefits, tends to destroy in their minds any idea of National justice or human rights, and make of them willing supplicants at the mere of this system of corporate greed which deals out a part of the sum in charity it originally appropriated from the producers to whom it alone rightfully belongs, which sum, if they had fully received, would have enabled them to have owned a library instead of now being, as are all others who are similarly robbed, the objects of charity. It would be something like a semblance of justice if these donations were made to the widows and orphans of Homestead. We deem them as worthy of remembrance as the Maine.

"A city will enrich enormously a few men and then be itself an object of charity. We, therefore, condemn this library move as an insult to him it is said it will benefit most, the workingman; he does not want charity, but justice."

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and to-day she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infalible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by G. C. Blakeley, the druggist. Trial bottles free.
