FRIDAY - - - - MARCH 29, 1901

AN UNPARALLELED RECORD.

Exports from the United States continue to increase, and the fiscal year 1901 seems destined not only to break all records, but perhaps touch the billion and a half line. For the twelve months ending with February the total is \$1,490,194,985, and for the eight months of the fiscal year is \$1,015,185,374. Thus the record presented by the February statement of the treasury bureau of statistics at least suggests a billion and a half record for the fiscal year 1901, since the twelve months ending with February are less than \$10,000, 000 below that sum, and the eight months of the fiscal year are \$15,-000,000 above the proportion which eight months of the twelve included in the fiscal year would be called upon to furnish of a \$1,500,000,000 total.

No eight months' period in the history of American export trade shows so large a total of exports as the eight months ending with February, 1901. The total exports during that period are, as above indicated, \$1,015,185,374, against \$919,473,471 in the corresponding months of last year, and \$602,666,-873 in eight months of the fiscal year 1896, having thus increased more than 50 per cent in five years.

The favorable balance of trade, or Italian Rye Grass, excess of exports over imports, shows an even greater increase, being \$492,-224,904 for the eight months ending with February, against \$364,219,897 in the same months of the preceding fiscal year, and \$61,472,040 in eight months of the fiscal year 1896. No eight months' period in the history of this country's export trade has shown as large exports or as large an excess of exports over imports as that ending with February, 1901, and no twelve months' period ending with February shows exports so sfebom large or so large an excess of exports over imports as the twelve months'
