"The Irish Duke."

The historical play entitled "The Irish Duke" depicts scenes in Ireland about one hundred years ago. The artists are all amateurs, under the tutorship of Prof. Smith, who revised the play, which is brim full of wit and humor, as well as some scenes of refined and heavy tragedy, the words of which are ennobling and beautiful. It has been an immense success financially and artistically in all our neighboring towns and the papers speak of it in the highest manner. Prof. Smith deserves great credit in his untiring efforts in getting this famous drama, and should be rewarded with a large audience. The attractive poster, pen and ink work of the manager, advertising his play, reflects great credit on the artist.

Some people are inclined to be skeptical of the works of those whom they know familiarly, but sometimes they are pleasantly fooled. Persons who saw a rehenral of "The Irish Duke" last evening say that The Dalles has never at any time produced anything in this line that can approach it. It is something entirely different from the ordinary run of plays, and the manager has brought it fresh from its home in the low price offers. E nerald Isle.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size, Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

Of the product of this well-known brewery the United States Health Reports for June 28, 1900, says: "A more superior brew never entered the labratory of the United States Health reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand is composed of the best of malt and choicest of bops. Its tonic qualities are of the highest and it can be used with the greatest benefit and satisfaction by old and young. Its use can conscientiously be prescribed by the physicians with the cersainty that a better, purer or more wholesome beverage could not possibly be found.'
