Indemnity Committee Decides That Amount Shall Be \$273,000,000—Report Presented Today by M. Pichon.

PARIS, May 1.—The foreign office received a dispatch from Peking announcing that M. Pichon, French minister, presented today the report of the committee on indemnity. The amount China is to pay has been fixed at 1,365,000,000 francs (\$273,000,000). How it is proposed that the indemnity be distributed among the powers is not set forth, but as the dispatch does not mention The Hague it is thought the ministers are hopeful of being able to settle the proportion by each power by discussion at Peking.

PARIS, May 1.—Official advices received here from Peking say the ministers are divided into two parties in the discussion to decide how China is to raise the indemnity. France, Germany, Russia and Japan agreed in favor of raising the customs duties, which can be relied upon to produce a great part of the requisite sum, and the imposition of a duty on junk, which will constitute a tax on international navigation and taking over of some of the likin (provincial transit duties). On the other hand the United States and Great Britain decline to agree to an increase of the customs duties, but they do not appear to have presented a counter proposition. The fact that the United States and Great Britain have joined hands on this question has caused surprise here. It was hoped that the United States would stand with France and Russia. The result will be greatly to protract the negotiations.

Pan-American Exposition is Now Opened

BUFFALO, May 1.—The gates of the Pan-American exposition were thrown open to the public at 8:30 o'clock this morning. The initial day of the six months term of the big show was ushered in amid the banging of hammers, shrieking of saws and rattling of work carts. But there was much to interest the throngs. The program arranged comprised some informal exercises at the government building at noon, a salute of 45 aerial bombs and the general unfurling of 200 flags. Band concerts will be given afternoon and evening. All the exhibit buildings are open and a few places on the Midway are ready for business. Everything is expected to be ready on May 20, when the formal dedication will be held.

DRAWING TO CLOSE

Evidence That Filipino Rebellion Will Soon End—Ireland Holds Conference With Root.

NEW YORK, May 1.—Evidence that the Philippine trouble is rapidly drawing to a close, says a special to the Tribune from Washington, is found in the fact that Archbishop Ireland has been in Washington for two or three days, and has held several conferences with Secretary Root. From the beginning of the negotiations looking to a settlement of the church question, Archbishop Ireland has been the representative in this country of the Vatican. The distinguished prelate has succeeded in keeping himself from the public view in his present visit to Washington, and this circumstance adds strength to the belief at the capital that he has come to confer with the authorities regarding the treatment to be accorded to the millions of church property of which the friars have been dispossessed by the insurrectionists.

In the last month Judge Taft has sent to Secretary Root many confidential communications on this subject. It is presumed that they contain recommendations which the secretary is now studying carefully so that he may assist the Taft Commission in formulating a policy to be pursued toward the church interests. Archbishop Ireland also is supposed to be prepared to deal finally with the question for the church, and it is therefore thought that he and Secretary Root can soon arrive at a decision satisfactory to all interests involved. Their decision will probably be communicated at an early date to Judge Taft for his guidance.

Will the Test Our Monroe Doctrine?

NEW YORK, May 1.—A dispatch to the Herald from Trinidad says: "Information has reached here that the German cruiser Vinetta recently completed surveys of the Island of Margarita. Officers of the ship spent ten weeks making charts and soundings. The officers say a fine harbor has been discovered with every advantage for a coaling station. German merchants in Venezuela will try to buy the harbor and also hundreds of acres near by, ostensibly as a private investment, but really to make a Ger-

man naval coaling station. A secret deal with President Castro, of Venezuela is reported by which for money he may permit it. This furnishes additional reason why President Castro wanted Minister Loomis withdrawn."

Protection of Trusts.

WASHINGTON, April 26.—There is an impression that Representative Babcock, of Wisconsin, is going to have a good following in his party when the next congress shall meet, and he shall resume his attack upon the protected manufactures of gigantic trusts. However successful Babcock may be in the house, it seems to be a foregone conclusion that the senate will hold up so radically change any tariff law drawn on the lines proposed by Mr. Babcock that there will be really no tariff remedies for trusts. The large majority in the senate is made up of men who are inclined to support the old party policy.

Venezuela Apologizes.

NEW YORK, April 30.—A dispatch to the Herald from Caracas, Venezuela, says: "The incident relative to the arrest of Ignacio H. Baiz, United States consular agent at Barcelona, was closed today. Consular Goldsmith, at Lagayra, sent to Mr. Russell, the American Charge d'Affaires here, a letter from the Venezuelan government expressing regret for the occurrences and explaining that it was a case of mistaken identity. The situation of affairs here is now quiet."

He Is Dead and Buried, Yet Alive.

WALLA WALLA, May 1.—Mortimer Montpetit has returned to Walla Walla from his former home in Ohio, to find that he was buried some time ago, after being fatally burned in a fire. These alleged facts are matters on record in the office of the county auditor at Walla Walla. Montpetit disappeared about two years ago and a body found in the ruins of a burned building was identified as his. It was buried by a lodge to which he belonged and a marble headstone placed on the grave. Montpetit has removed the tombstone and has applied to the superior court to have the record of his death stricken from the auditor's books.
