such time when it can be ascertained what is at the disposal of the city for a permanent landing. On the motion of Councilman F. W. Wilson the council unanimously voted to reconsider the vote by which it was proposed to compel The Dalles, Portland & Astoria Navigation Company to pay one dollar a month for the use of that part of the river front now used by the company for wharfage and warehouse purposes, and by another motion the whole matter was referred to the judiciary committee where it will, in all likelihood, sleep the sleep that knows no waking. *Requiescat in pace.*

Pan-American Souvenir Stamps.

The new Pan-American souvenir postage stamps that we get a glimpse of once in a while, have not reached the Dalles office as yet, and may not for several weeks. The stamps are very beautiful and the pictures on them are intended to symbolize American progress, especially as it relates to the five principal means of transportation now in use.

On the ten-cent stamps there is a picture of a fast ocean greyhound, the spray dashing from her bows as she plows the sea in an attempt to reduce the record. The eight-cent stamps bear a photographic reproduction of a canal scene on Sault de Ste Marie, showing a lock in the act of letting a barge and a steamer through from higher into lower water. A picture of the suspension bridge across the Niagara river adorns the five-cent stamps. The great falls is shown in the distance, the view being taken from below the bridge and near the center of the stream. The four-cent stamps are decorated with an automobile. The two-cent stamp most generally in use, pictures a modern locomotive pulling an express train and shows how the United States mail is hauled from sea to sea. Another method of mobility and navigation is shown on the one-cent stamps, which are decorated with a cut of a lake steamer, such as are used on the great lakes.

WAYSIDE CLEANINGS.

Hood River will celebrate on the Fourth.

Rain is very much needed in the Antelope country.

New shipment of Stransky enameled ware just received by Mays & Crowe.

Horses out on the Antelope range are said to be largely afflicted with mange.

Invitations are out for an afternoon at the home of Mrs. T. Baldwin, May 15th.

The celebrated Columbia Rock beer is now on tap at all the saloons in The Dalles.

Carey Jenkins graduated last week from the North Pacific Dental College at Portland.

The Dalles will celebrate on the Fourth. Put that down as an absolute certainty.

Mrs. Thomas Hudson charmingly entertained the Twentieth Century Whist Club Thursday evening.

Baseball game between the Portland and The Dalles nines tomorrow afternoon at the old fair grounds.

P. L. Kretzer and his son, Louis, are up in the Pendleton country with their boring machine prospecting for oil.

Mrs. Joseph Peters, in her usual delightful manner, entertained the ladies of St. Paul's Guild Thursday afternoon.

Let it not be forgotten that Professor Sandvig has decided to give another of his popular dances at the Baldwin tonight.

The Dalles and its wives and sweethearts and everybody else will attend the matinee at the new race track next Thursday.

Judge Bradshaw has a summer's job before him in the Bruner murder trial. The Antelope Republican says as many as fifty witnesses have been subpoenaed.

C. D. Moore, of White Salmon, has an order from Manager Bowers, of the Hotel Portland, to supply strawberries for President McKinley and party when they reach Portland.

Captain Ferrier, who has been in charge here of the Salvation Army work, was suddenly summoned to Baker City and left for that place last night. Cap-

tain Ward has been placed in charge of the work as Captain Ferrier's successor.

The Diamond flouring mills are closed down while being overhauled and furnished throughout with the latest and most approved machinery. A carload of the machinery arrived here yesterday.

Rev. W. C. Smith, of Dufur, who has been assisting in a protracted meeting at Cascade Locks, passed through town today on his way to Three Mile, where he will preach tomorrow, morning and evening.

The people of this town would like to know where J. P. McNerny got that mare that he calls "Katie Pease." Is "Katie" any relative of Mac's famous trotter that had such a prodigious surplunge of raw material in his off fore leg?

The Dalles Scouring Mills are now running fifteen to sixteen hours a day. About the middle of next week the force will be increased to two shifts and run night and day for at least a month, and after that as long as wool can be procured.

THE CHRONICLE is authorized to say that as soon as next Thursday's matinee is over the Gentlemen's Driving Association will take up the consideration of methods, ways and means for a big Fourth of July celebration and push the affair to an issue.

The Free Methodists will hold a camping meeting in a tent on the F. P. Mays lot, corner of Fourth and Washington streets, commencing Wednesday, May 15th. The meetings will be in charge of Rev. G. R. Stamp, district elder, who will be assisted by other ministers from abroad.

Jud Fish prophesied there will be more fun at the matinee of the Gentlemen's Driving Association next Thursday than was ever seen at a similar affair since the ride of John Gilpin, "who went farther than he intended and came safe home again." Everybody should be there, and, as a matter of fact, we believe everybody will be there.

Klickitat county crop report, May 7th: Blockhouse—Plowing practically done; crab apples, plums and cherries in full bloom; apples leaved out. Lyle—Grain in good condition; rye is heading; corn planted in progress; fruit and garden truck doing nicely. Scott—Peaches and plums have been hurt by the late frost; apples, pears and cherries all right, with prospect of large yield.

The Dufur Dispatch says that Charles Hix, the Kingsley boy who was nearly roasted to death last fall by falling into an open fire during a fainting spell, as he was recovering from a severe sickness, has so far recovered from his injuries as to be able to be up and around the house, and that all danger of a relapse is passed. Dr. Dodds, the attending physician, has grafted some 300 pieces of skin on the burned portion of the boy's body and arm.

Hardly a day passes without a new strike being made in the district, and each day it becomes more evident that

we have the richest camp in the state. The right kind of developed work is now being done to encourage capitalists to come in and invest, and when this is brought about the district and the city of Ashwood will advance at an amazing rate until a large city, surrounded by rich producing mines, will take the place of our little city and partly developed resources.—Prospector.

The editor of the Heppner Gazette reminds Receiver Otis Patterson that if he could now take a long-distance look from The Dalles to Heppner he might see an able-bodied band of Plymouth Rox industriously scratching up his clover lawn and laughing at the chicken ordinance. One of them is an old rooster hatched out by Obadiah Welch on Thorn krick in '78."

Died, May 10th instant, Margaret Estella, eldest daughter of Mr. and Mrs. A. E. Lake, of this city, aged 15 years and nearly 10 months. The funeral will take place from the family residence tomorrow afternoon at 5:30 o'clock and the remains will be interred in the Odd Fellows' cemetery. The parents have the profound sympathy of this community in their sad bereavement.

The "absent treatment" fraud has received a set-back at Nevada, Missouri. For a long time the "Weltmer Institute of Magnetic Healing" has been giving "absent treatment" to thousands of poor deluded dupes. The so-called "institute" was run by Stephen A. Weltmer and Joseph A. Keely. They were making more money than Andrew Carnegie when the postoffice department stopped their mail. They were fined \$1500 each by Judge Phillips in the United States court.

A force of some twenty-five men, including engineers and surveyors, are now at work below town surveying what will be practically a new railroad track between The Dalles and what is known as tunnel No. 3, the first tunnel below this point. The new line will follow the river much more closely than the old and the present huge curves will be eliminated as far as possible. It is said that the grading work will commence immediately after high water, and that a force of from a thousand to fifteen hundred men will be employed.

The Crook county murderer, Bruner, is evidently making a hard fight for his life. Judge McGinn, of Portland, and two of the ablest lawyers of Prineville have been engaged to defend him and witnesses are being summoned from all parts of the compass. Four witnesses have been summoned from this county. Marion Thompson, Jerry Cochran and William Walker, of the Dufur neighborhood, left that place for Prineville this morning, and Mrs. E. M. Bruner, who works on the Whipple ranch below Boyd, will leave for the same place on tomorrow's train.

At a special meeting of the city council held Thursday night the White Collar line of steamers was granted a temporary right to a landing on the beach until
