WAR ALMOST FORGOTTEN

Peace Reigns in the Southern Philippines —Trade is Being Developed and the People Prepared for Civil Government.

VICTORIA, B. C., May 15.—According to advices from the Orient, per steamer Empress of India, the Philippine commission has accomplished a great amount of important work. In the southern islands, where the insurrection is almost forgotten, trade is being developed and the people prepared for civil government. Even the conservative Moros of Salu Mindanao are finding out that the Americans are good customers, and communication has been established in places where outside intercourse was impossible under Spanish rule. As the commission visited the various American garrisons in the Mohammedan country, the sultan's Dattos and sub-Dattos are described as coming long distances to meet the representatives of American civil rule. Several of the pagan tribes living about the volcano of Mount Apo came to give testimony before the commissioners. In describing their relations with the army, they almost invariably stated that they had never known more peaceful times, and all they desired was the continuance of present conditions. The commissioners were scheduled to return to Manila about May 7th, after which it is planned to organize the provinces of Northern Luzon. It is stated that about the beginning of July a central civil government will be established in Manila, with Judge Taft as governor, and a legislative council composed of Americans and Filipinos.

Was Sick and Discouraged.

NEW YORK, May 15.—In poor health discouraged because of the misery prevailing in the city, especially among the children to whom she had devoted years of her life, Mrs. Edith Thomas, a gifted writer and friend of the poor, sent a bullet through her heart in the West Side branch of the University settlement last night.

Among the books written by Mrs. Thomas were "Your Money or Your Life," "Cross Kris" and "A Modern Rosalind." Mrs. Thomas has sought for years to advance the children of the poor. She has worked among the crowded tenement districts for nearly 10 years.

MCKINLEY GIVES UP NORTHWEST TRIP

Illness of the President's Wife Causes Abandonment of Plans—Her Condition is Considered Serious.

SAN FRANCISCO, May 15.—At 10 o'clock this morning Secretary Cortelyou informed the Associated Press that Mrs. McKinley's serious illness compels the president to abandon his projected visit to other states, to which he had looked forward with so much pleasure. As soon as Mrs. McKinley's health will permit he will return to Washington by the most direct route.

Secretary Cortelyou also issued the following bulletin as to Mrs. McKinley's condition:

"There has been but little change in Mrs. McKinley's condition since last night. She has gained in some respects and lost in others."

The president will remain quietly at Mr. Scott's residence today, and will not take part in any of the exercises programmed for him.

It is learned that Mrs. McKinley's condition is considered serious by the physicians attending her. Drs. Rixey and Hirschfelder were in consultation this morning, and another physician will be called in this afternoon.

Killed Many Sheep.

LEWISTON, Idaho, May 14.—From a gentleman who has just arrived from the Salmon river mining district further particulars of the war between the sheep and cattle men are learned. This gentleman says the story, as told on the range, is that Clarence Thompson, who was herding a band of 3000 mutton sheep belonging to Jackson & Thompson, on Monday last, while driving some cattle away from the sheep, became angry and shot a cow. A warrant for his arrest was sworn out and was served by a constable the next evening, just after he had bedded the sheep for the night. The constable refused to allow him to remain with the sheep, and he was taken to Grangeville and word sent to Jackson to send a herder for the band. When Mr. Jackson arrived in the morning he found the sheep widely scattered, while six hundred were lying about on the bedding

place dead, shot and cut to death, and among the sheep that were running about were several hundred wounded. Of these latter 75 died. The camp was burned and apparently the sheep had been as widely scattered as possible.

No Unfavorable Change Indicated.

SAN FRANCISCO, May 16.—At 1 o'clock this (Thursday) morning nothing had occurred at the Scott residence to indicate to the watchers outside that there was any unfavorable change in Mrs. McKinley's condition. Only dim lights were burning, and everything was very quiet. One of the nurses was relieved at 12:30 a. m.

Leased Astoria Road.

PORTLAND, Or., May 15.—The Oregonian tomorrow will say:

The statement is made, upon what appears to be good authority, that the Astoria & Columbia River Railroad has been leased to the Southern Pacific for 99 years. From the best information obtainable, the lease was made about a year ago to C. P. Huntington, and becomes the property of the Harriman syndicate, which now controls the Southern Pacific. It is now apparent that Huntington held the news back until he could make some other moves to secure his position in the Nehalem country.

A. B. Hammond, president of the Astoria road, denies the story.
