

Her Husband's Story

"My name is E. J. Sprong, and my address is 16 Bondman Block, Troy, N. Y. I want to tell how thankful I am that my wife's health has been restored to her. About a year ago she caught a dreadful cold, which settled in her bronchial tubes and lungs. She certainly had bronchitis, and I think consumption, too, and we despaired of her life. She had a tightness and soreness in the chest, and it was difficult for her to breathe. There were darting, sharp, dull and heavy pains, with constant coughing and expectorating. Each day she was worse than the day before. I was advised to get Acker's English Remedy, and did so, but my wife only shook her head and said: 'Another dollar thrown away.' She took the Remedy, however, and said the effect was magical. In less than an hour there was a remarkable change. She got better at once, and in a short time she was entirely well and strong again. The cure was permanent and there has been no relapse. I don't know what Acker's English Remedy is made of, but I am sure it contains something that fortifies the system against future attacks. My wife is in better general health now than ever, and you can't imagine how happy she is for her recovery. She tells everybody about Acker's English Remedy, and so do I. I believe it to be our duty to the public to help every sufferer who has throat and lung troubles. My neighbors say it is a sure specific for croup, and has saved the lives of hundreds of little ones around in this vicinity alone."

Wool to Be Sold at Public Auction.

S. A. Heilner, one of the largest wool-dealers in Eastern Oregon, is arranging for a meeting, in the near future, of wool-growers and owners, at which it will be decided to offer Baker county wool for sale at public auction to the highest bidder, all bids to be sealed and subject to rejection, says the Baker Democrat. The wool market is in a very unsatisfactory condition and prices are lower than growers feel they ought to receive. Buyers come along one at a time and are always bears on the market. The wool-buying houses of the country have a very stiff understanding on prices, and it is almost impossible for sellers to get anything like a fair show.

The plan of selling wool by sealed bids was tried for the first time a few days ago at Rawlins, Wyo., and was very successful. Fifteen or twenty of the largest houses in New York, Boston and Philadelphia, were represented at the sale and three or four large clips were disposed of at higher prices than had been the ruling. Those who engineered the deal are highly elated, and stated that this method of selling wool compelled the buyers to meet at one time in the open market and compete for the clips or not get the goods, and resulted in at least a slight advance in the market prices. It is thought that such a sale, well advertised, for Baker City, will be largely attended and will bring good results.

Mr. Heilner has set Monday, July 1st, as the date of the first sealed bid sale of wool in Baker City, and in the meantime the new clip will all be in and the growers and dealers will have completed their organization.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion and biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's prize almanac. Clarke & Falk's.

Will Study in China.

New York, May 15.—The American Museum of Natural History will soon begin ethnological investigations in China which are expected to extend over a period of three years. Collections will be made showing how the people there live and what they do, and the expedition will also endeavor to determine the extent of Chinese influence on the culture of Eastern Asia. The money for investigation has been given by a friend of the museum, who does not wish his name to be known.

Dr. Berthold Laurer, who will be in charge of the expedition, will start for China in June. Dr. Boas, of the department of ethnology, expects that the relations of this nation with the Chinese will be facilitated by the better knowledge of China which will result from the expedition.
