THE PROPHETIC BRYAN.

If Mr. Bryan finds time amid his labors to keep the democracy in harmony with populism to read about the Iron and Steel Institute meeting in London he must be awakened to mocking recollections, says the New York Tribune. Five years ago Mr. Bryan went up and down the country with the thunderous tones and assumed inspiration of a heaven born prophet telling the people that the adherence to the gold standard would make the United States the slave of Great Britain. He and his party did their best to arouse a spirit of fanaticism by representing the opponents of free silver coinage as the secret agents of England, which was anxious to impoverish the United States by forcing upon it a ruinous financial system which would economically undo the work of the war of independence.

In spite of Mr. Bryan this enslaving gold standard was riveted upon our wrists, and since then we have been miserably struggling along in the British chains. We say miserably, for only last summer Mr. Bryan again came forward to proclaim our sad state under the gold standard and warn us against the certain destruction which would result from persistence in an error from the evil effects of which he, with the insight of a seer, could tell we were suffering. Even now he declares continued adherence to his sacred silver principles, and there is offered no suggestion of his having learned anything. He is, and was will be the prophet of evil, the voice crying that the British gold standard binds our workers in industrial slavery to Britain. Yet the English manufacturers are now gravely considering what they must do to save their iron and steel industries from complete eclipse by American competitors. They listened to expositions of the advantages of the great centralized and consolidated American plants, which troubled Mr. Bryan almost as much as the gold standard, and considered if they would not have to follow the same plan under penalty of becoming the slaves instead of the slave drivers of America so far as the iron and steel market is concerned.

We have this demoralizing gold standard here, which, according to Mr. Bryan, makes us dependent upon the English bankers; yet instead of having to borrow money from them at ruinous rates, we are beginning to set up for ourselves as the money centre of the world. When the British government wants money our people, impoverished though they be by the gold standard, have it to lead, and so make the British taxpayer tributary to the American investor. We likewise lend money in Germany, and altogether seem to be doing uncommonly well in competition with the Old World nations whose gold standard was meant for our enslavement. American human-

ity does not seem to have suffered much from that cross of gold. The brow of American labor is covered with the sweat of profitable industry, and bears no marks of the gold brokers' thorns. Mr. Bryan and his lurid rhetoric and dreadful prophecies look cheap enough in the light of experience.

The Dufur Dispatch strongly protests against the order of the county court, declaring taxes delinquent and requiring their immediate collection, affirming that it will work an "outrageous hardship" on the taxpayers of the county, as the order takes effect at a time when there is ordinarily little money in the farmers' hands, and since the taxes must be paid there is no course open for the most of the farmers but to bie themselves to a broker and borrow money at ten per cent interest and a bonus equal to five to ten per cent more. There is surely something in this protest and the county court might well extend the time till the crops are harvested, when a peremptory demand for immediate payment would be both justifiable and proper. A little mercy, meanwhile, would be equally just and proper.

TO DELINQUENT TAXPAYERS.
The county court has instructed the county clerk to place a warrant on the tax roll of 1900 commanding me to collect the taxes for said year by making sale, if necessary, of the property therein mentioned, and to return the roll inside of sixty days.

I am sworn to do my duty, and am also under bonds for its faithful performance; therefore have no alternative but to obey the mandate of the court, and will immediately proceed to make out a list of delinquents and advertise the property for sale.

FOR about thirteen years I have devoted more time to politics than to business. The result is that my business has suffered. For a time, at least, I propose to devote more time to business and less to politics, provided the other fellows will let me.

During these years some features have come into practice among business men that were not considered proper or necessary at that time. Among them is the scheme of profit-sharing or giving to some lucky customers a valuable present. I propose to do something in this line myself.

For each fifty cents paid to me for goods furnished I will give the customer a numbered coupon. On each Saturday at 9 p. m. I will give away two presents—one, a year's subscription to any \$1 periodical desired, and the other, one copy of some of the famous pictures neatly framed, the customer can also make a choice of these as there are a number to
