**COLD, HARD FACTS.**

Geo. Hazzard, the irrepressible, par excellence democrat of our sister state on the north, has been telling the Walla Walla Union some cold, hard facts. To a reporter of that Journal Mr. Hazzard recently said:

"It is strange that the great democratic party has been led against two of the greatest events of the 19th century. The three greatest political events of the 19th century—in fact since the government was organized—were all democratic, yet our party of false leaders was led against two of them!

"They were the acquisition of Louisiana in 1801 under Jefferson, the freedom of the negroes under Abraham Lincoln in 1865, and the breaking of the power of Spain in the western hemisphere in 1898, under Wm. McKinley. And without Jefferson none of these would have occurred, because he wrote the declaration for Abraham Lincoln and he purchased Louisiana for Wm. McKinley. Yet under the false leadership of Vallandigham in 1864 we set ourselves up as opposed to universal liberty, and under the equally false leadership of Bryan in 1900 we wanted to surrender the legitimate and valuable fruits of our war with Spain.

"Now, looking backward, it seems incomprehensible that we would oppose the freedom of the negroes, and in a short time it will be equally incomprehensible that we acted as we did in 1900.

"Cleveland was right on one question in the White House, and one only—the money question. What a chance he had in 1887 to force the money issue to the front, unify the currency laws and make possible beyond question under a democratic administration a single gold standard. No, he would force a general revision of the tariff and produce a panic, and no revision of the tariff ever has been undertaken except it produced a panic. The way to reduce the tariff is to do it horizontally, as Bill Morrison proposed, or by piecemeal, as will be done under Hill. Then Grover had to pull down the American flag from Hawaii before he got around to the money question, by which time he could do nothing with his party."

Terrence V. Powderly, once known as the head of the Knights of Labor, when that organization was the leading exponent of the cause of the workingman, is now commissioner of immigration. He has made a recommendation to the next congress that an increase of \$2 per head be added to the immigrant tax for the purpose of protecting the immigrants. The fund thus raised would amount to more than \$1,000,000 annually, and would be used in examining the immigrant before leaving his native shores instead of in this country as

to his right to land in America. It would also provide a fund for caring for the immigrants in our various ports while awaiting inspection. The great benefit from this proposed law would be to the immigrant himself, for it would leave him at his home if refused admission with at least the price of his passage in his possession instead of making him a returned passenger without money and without friends. The law should be amended as Mr. Powderly suggests.

"Do we want Cuba?" asks somebody. No, we don't want Cuba. We have at this time about all the foreigners we can assimilate. Better wait for a hundred or two years till we have civilized some of those we have already admitted to American citizenship. Then we could try our hand on Cuba.

The government has more than \$500,000,000 in gold in its treasury vault. The esteemed Colonel Bryan will now proceed to gnaw another file.

**F**OR about thirteen years I have devoted more time to politics than to business. The result is that my business has suffered. For a time, at least, I propose to devote more time to business and less to politics, provided the other fellows will let me.

During these years some features have come into practice among business men that were not considered proper or necessary at that time. Among them is the scheme of profit-sharing or giving to some lucky customers a valuable present. I propose to do something in this line myself.

For each fifty cents paid to me for goods furnished I will give the customer a numbered coupon. On each Saturday at 9 p. m. I will give away two presents—one, a year's subscription to any \$1 periodical desired, and the other, one copy of some of the famous pictures neatly framed, the customer can also make a choice of these as there are a number to be given away before supply is exhausted. In addition, every month I will give several valuable presents. On June 5th the presents will be a fine Bible, a Webster's International Dictionary, one year's subscription to a \$4 periodical and one Boys' Baseball Set. The presents to be given away on July 6th will be announced later.

I hope to confine myself in these presents to articles in my own line so that I will not interfere with sale of goods in other lines. In addition I will give a dividend each month to the person who has purchased the most goods from me. On June 5th this will be \$5.00. You do not have to purchase fifty cents worth at one time to get a dividend check, as I issue certificates of sale for less amounts which can be exchanged for dividend check when they amount to fifty cents. If clerk does not give you checks or certificates when you make a purchase, ask for them.
