**PINE NEEDLES AT BUFFALO**

An Exhibit From Grant's Pass That Attracts Much Attention.

GRANT'S PASS, June 8.—A telegram received today from a representative at Buffalo states that aside from creating a sensation with her excellent mineral exhibit, Grant's Pass pine needles are receiving an unusual amount of attention. A carload of needles were shipped several weeks ago by the Grant's Pass Pine Needle Company, and the exhibit is now open to the sightseers at Buffalo. The exhibit consists chiefly of pine needle wool, also "tobacco" and "cigars" made of the same material.

As the name implies, pine needle wool is the product of the needles of the Oregon and sugar pine, which are the natural timber growth of the mountains of Southern Oregon. It is manufactured no where else in the United States, although the wool can be made from pines growing in some parts of Europe. To make the wool the needles are gathered and brought to the factory where they are boiled in large vats, then worked through machinery by a process which takes out the fibrous growth from the inside of the needles. This fiber when dried makes a fine quality of wool and can be used for many of the purposes for which the sheep's fleece is adapted. Its principal use, however, is in the stuffing of mattresses, although the manufacturers claim that in a few years they will be able to manufacture a coarse cloth from the wool of the pine needle.

In the making of mattresses there is nothing that can beat it. It never packs or gets hard, and owing to the medicinal qualities to be found in the needle these mattresses make an ideal bed for nervous people. The balsamic properties, never lost in the pine needle wool mattress, causes the sleeper to enjoy a rest he can get from no other bed.

In color the wool is a dark brown, and very coarse. To work the needles into wool necessitates the use of the finest machinery, so fine or uncommon, in fact, that the first machine had to be imported from Europe.

The pine needle industry is becoming a most important factor in Grant's Pass, around which the sugar pines are to be found in abundance. With a growing demand for the needle wool mattresses, the gathering and working of the needles is to become a great source of profit to those who engage in it.

**Historic State Coach.**

NEW YORK, June 8.—George Washington's state coach has been presented by Augustus Frey to the Ladies' Association of the Union, the New York vice-president of the association being Mrs. Townsend. The coach, according to the history given by Mr. Frey, was used by General and Mrs. Washington on a journey which they made from Mount Vernon to Savannah and return. It was purchased at the Philadelphia Centennial in 1876 by Benjamin Richardson, a brother of the Richardson who won notoriety by building his "epitome house" in Lexington avenue, this city. Richardson drove in the coach through the streets of Philadelphia. At his death it became the property of relatives, and later passed into the possession of Mr. Frey.

**Mrs. Botha in England.**

LONDON, June 8.—Mrs. Louis Botha, wife of the Boer commandant-general, arrived in Southampton this morning on the British steamer Dunreagan Castle from South Africa. She refused to grant an interview, but a son of ex Secretary of State Fischer, who accompanied her, informed a representative of the Associated Press that Mrs. Botha was going straight to London and later would proceed to Holland and Belgium, but that the date of her departure for the continent had not been fixed. Mr. Fischer was unable to confirm or deny the report that Mrs. Botha had come to Europe upon a peace mission. He was released on parole in order that he might accompany her.

**Does It Pay to Buy Cheap?**

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world, and sold by Clarke & Falk. Get Green's prize almanac.

**Boer Laagers Surprised.**

CAPE TOWN, June 8.—The British surprised two Boer laagers at different points in Cape Colony Thursday night and captured forty-two prisoners and a quantity of ammunition and supplies. In a railroad wreck near Pretoria, June 7th, nine soldiers were killed and many injured.

**Strikes A Rich Find.**

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by G. C. Blakeley, the druggist.
