

Rolling Mill Consumption

Seven out of every ten men who work in rolling mills, iron foundries and glass factories die of consumption. You know how early in life these men pass away. The usual symptom is a lagging, persistent cough—sometimes short and hacking, sometimes hard and dry. The patient grows weaker and thinner day by day. Death eventually conquers. The trouble comes from intense heat and the constant inhaling of the fine particles of dust and iron that fill the air. These particles, under a microscope, show jagged, sharp edges, which tear and mutilate the delicate lining of the throat and lungs. Perpetual sores are thus formed, and here it is that the germ of consumption finds a place to feed and multiply. Acker's English Remedy was discovered in England, and is the only cure in the world for Rolling Mill Consumption. It heals up the sores, strengthens the mucous membranes of the breathing organs, permanently rids the cough, builds up the constitution and imparts vigor to the whole system. It must either cure or it costs you nothing. One bottle does wonders. Try it. What it has done for many others it will also do for you and your loved ones.

Sold at 25c, 50c, and \$1 a bottle throughout the United States and Canada; and in England at 1s, 2s, 3s, 4s, 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee. W. H. HOOKER & CO., Proprietors, New York.

Make Gold Mines Pay.

New York, June 13.—A dispatch to the World from London says: The British government has decided to levy \$250,000,000 on the Transvaal gold mines to pay half the cost of the war.

Sir David Barbour, former finance minister for India, who was commissioned to report upon the taxable capacity of these mines, advised Colonial Secretary Chamberlain to levy \$175,000,000, but Mr. Chamberlain, after consultation with Lord Milner, increased the maximum in the amount stated. Barbour's report is awaited here with the keenest interest in political and financial circles.

This recommendation, when it becomes known here, is certain to cause consternation among the Kaffir stockholders, who fancied that the idea of taxing the mines, which are mostly owned in England, had been abandoned. As these very gold mines were the real, underlying cause of the war, many have maintained that their British owners should be made to bear a large share, at least, of its heavy burden.
