## CAPSIZING OF A TRANSPORT

The Ingalls, While in the Erie Basin Dry-dock, Overtaken, Killing One Man.

NEW YORK, June 14.—While the United States Transport Ingalls was in the dry-dock at the Erie Basin, this afternoon, she slipped from the blocks and capsized. One man is known to have been killed, and many are injured. There were about 240 carpenters, machinists, and others at work on the vessel and the dock at the time. Besides the mechanics and other workmen who crowded the vessel and dock, about thirty Italian laborers are supposed to have been in the hold. While the workmen were trying to escape, the dock itself over balanced by the weight of the ship, turned on the side and sank in fifty feet of water. Martin Andersen, a painter, was killed outright. Others were dragged out of the water, badly injured or half drowned. Added to the horrors of tonight was the uncertainty of the fate of the men in the vessel's hold. Some managed to leap into the water as the vessel was sinking, but it is feared the majority were less fortunate.

### In American Hands.

WASHINGTON, June 14.—The war department gave out statistics today showing the extent of the disintegration of the Filipino insurrection. The compilation of reports covers the period up to April 17, 1901. Up to January 1, 1901, the number of insurgents captured or surrendered was 21,497, together with 5048, 56 field pieces, over 3000 shells and balls, 576,600 rounds of ammunition, and 19 tons of powder. From January 1st to April 17th, the number of captured included 247 officers, 2459 men; the number surrendered was 820 officers, 6492 men, making a total of 1067 officers, 8591 men; or a grand total up to that date of 31,315 insurgents. To this is to be added 1558 rifles captured, 4400 surrendered, a total of 6298 rifles; 45,000 rounds of ammunition, 408 bolos and 24 pieces of cannon.

### The British Proposition.

PEKIN, June 14.—Dispatches from Peking today say the foreign ministers are considering fresh proposals from Rockhill, affecting the Chinese concessions and looking to the payment of the indemnity. The propositions concern minor matters and may or may not be accepted, but until they are disposed of the ministers will not pronounce a decision as to the manner in which China is to pay the Powers, though it is evidently settled that the British proposal will be accepted, all hope of the acceptance of the United States' suggestion to submit the matter to arbitration at The Hague seeming to have disappeared.

### Carnival of Crime and Accidents.

JACKSONVILLE, Fla., June 14.—A murder similar to those of Jack the Ripper was brought to light here last night when the nude, lifeless body of Susan Battle was discovered under a house in the suburbs. She had been killed by blows on the head and knife thrusts. The nude body had been strongly tied in a compact mass, the knees almost touching the chin, put in a grain sack and placed under the house. The police are looking for Willie Munden.

### Officers Elected.

PORTLAND, Or., June 14.—The Oregon Pioneer Association today elected the following officers:

Judge J. H. D. Gray, of Clatsop county, president; J. C. Moreland, of Multnomah county, vice-president; George H. Himes, secretary; Silas B. Smith, of Clackamas county, corresponding secretary; Chas. E. Ladd, treasurer; George T. Myers, Wm. Galloway and W. Carey Johnson, directors.

### DISSOLUTION OF PARTNERSHIP.

The partnership heretofore existing between John Howe and M. Curran, under the style of Howe & Curran, has been dissolved. M. Curran will continue the business at the old stand and pay all debts of the late firm, and collect all accounts due said firm. Dated June 12, 1901.

M. CURRAN.

## MUST ESTABLISH A GOOD GOVERNMENT

Our Army Will Not Leave Island Until All Requirements of Platt Law Are Complied With.

NEW YORK, June 14.—A special to the Tribune from Washington says: The acceptance of the Platt amendment without qualification by the Cuban constitutional convention will form one of the principal topics of conversation at the cabinet meeting Saturday.

Now that the Platt amendment has become part of the organic laws of Cuba, interest naturally is aroused as to where the president will be authorized to withdraw the United States troops and turn the island completely over to the Cubans. The Cabinet probably will address itself to this phase of the question at Saturday's meeting. However, as there is no division of opinion among cabinet members on this point, the discussion is not likely to be prolonged.

There is no doubt at all in the mind of anybody who has given the subject much thought that the president is not authorized to withdraw the troops immediately. On the contrary, he cannot do this until all the requirements of the Platt law have been complied with. Acceptance of that law is only the beginning of the requisite compliance on the part of the Cubans. Not until they have a fully organized, equipped and stable government will the Cubans be permitted to conduct the affairs of the island. How soon this will be depends entirely on the political leaders in Cuba, and largely on the constitutional convention. The convention must first formulate an electoral law. It is thought that several weeks, and perhaps months, will be consumed in this work, as the candidates for president and other offices to be filled in the first election will each try to have the law so framed as to give advantage to individuals.

Even if the constitutional convention should speedily formulate and promulgate the electoral law, the election could not be held until Autumn. After the election, considerable time will be required to organize the various departments of the government. After this work is completed, the United States

government will then for the first time have a government in Cuba to deal with, and not until then can all the requirements of the Platt law be complied with.

It is evident, therefore, that this government will not entirely release control of Cuba for several months, perhaps a year or more, and until a complete release is made the president cannot withdraw the United States military forces from the island and proclaim to the world the birth of the new republic.

### Train Struck a Carriage.

FLINT, Mich., June 14.—The Pere Marquette passenger train, due here at 9 o'clock today, struck a double carriage at the Hamilton-avenue crossing, in the suburb of Oak Park, and instantly killed four persons.

Several factory buildings adjoin the track at Hamilton avenue and prevent a clear view of the tracks. Major Buckingham drove directly in front of the engine, which was traveling at a high speed. The pilot of the engine was broken by the force of the collision, and the bodies of two of the ladies, terribly mangled, were found on it. Engineer Wiggins says he had sounded the whistle for the crossing, and the first he knew of the carriage was when his engine struck it.

### Ready to Give Up.

MANILA, June 14.—Cailles, the insurgent leader in Laguna province, has become more humble, and now intimates his willingness to surrender 100 guns to General Sumner tomorrow at Santa Cruz, and to give up the remainder in three days.

Colonel Balanos with five officers and forty-one rifles has surrendered at Lips, Batangas province.

The recent battle with the insurgents at Lips, in which Lieutenant Springer was killed and Captain Wilhelm and Lieutenant Lee were mortally wounded, was begun by the Americans. The disproportionate number of officers hit is said to be chargeable to the fact that there were several deserters from the Americans with the rebels.

The island of Panay is being ravaged by rinderpest, and great havoc has been caused by the disease.
