DEATHS FROM THE HOT WAVE

Seventy Persons Perished of Heat in New York and Brooklyn Between Midnight and 11 a. m.

CHICAGO, July 2.—Temperatures at 7 a. m., were reported as follows: New York, 88; Boston, 82; Philadelphia, 92; Washington, 86; Chicago, 78; Cincinnati, 78; St. Louis, 82.

NEW YORK, July 2.—At 11 o'clock the police department lists showed from midnight to that time a total of 52 deaths from the heat had been reported in Greater New York. Nearly all the dead were adults. The prostrations were so numerous that it was impossible to keep a complete record of them. The weather bureau thermometer was at the 95 mark at 10 a. m., six degrees higher than at 10 o'clock yesterday. There was no breeze. To add to the suffering, the humidity was 59 per cent as compared with 48 per cent yesterday.

In Brooklyn thirty sudden deaths were reported to the coroner's office between midnight and 9 a. m., and of these seventeen were directly due to the heat. So many horses have been killed or disabled by the heat that deliveries of provisions and ice were much retarded today, thus adding to the discomfort and suffering. In the interior cities of this state the heat was generally but little abated.

At Buffalo the temperature was 76 degrees at 9 a. m.

PITTSBURG, Pa., July 2.—Twelve deaths and sixty prostrations from the heat were reported between midnight last night and 11 o'clock this morning, making the number of fatalities for 24 hours, 40.

While last night was not as close as the previous night, thousands of persons in the tenement districts slept in hallways or on the stone steps, brick pavements and even in the street.

Many poor mothers sat up all night watching their slumbering children that harm might not come to them as they lay on the pavements.

At 8 o'clock this morning the mercury stood at 78, and at 11 o'clock it had risen to 86. The indications are for thunderstorms and lower temperature tomorrow.

Nearly every mill and furnace not already affected by the strike is crippled from the great number of heat prostrations of employees and many mills have been forced to entirely suspend operations.

Fifty-two men were prostrated by the heat in the finishing mills No. 28 and 32 and open hearth mill No. 3, of the Homestead Steel Works during the night. This morning the mills shut down.

Forced to Leave Country.

NEW YORK, July 2.—The World says: As a result of the many threats against his life by anarchists, an indefinite leave of absence has been granted Giovanni Branchi, the Italian consul-general in this city. It is said that he has gone back to Italy, where he will remain until the Paterson "reds" are less active. For weeks before he left the consul employed a body guard, and kept his place of residence a secret. His personal mail was received at the Lotus Club, but he was seldom seen there, and sent a messenger daily to get his letters.

The Italian consulate is left in charge of the vice-consul, and is carefully guarded. All visitors are closely inspected and questioned as to their business in an outer office. Only those who satisfy the inquisitor that their business is of a legitimate character are admitted to the presence of the acting consul. He, too, it is alleged, has recently changed his residence, keeping his present abode secret.

It was the activity of Consul Branchi in exposing the plot to kill King Humbert that turned on him the hatred of the anarchists.

Circulation Shows Gain.

WASHINGTON, July 2.—The monthly circulation statement issued by the controller of the currency shows that at the close of the fiscal year, June 29, 1901, the total circulation of bank notes was \$353,742,187, an increase for the year of \$44,101,744, and an increase for the month of \$7,159,587.

The circulation, based on United States bonds, was \$323,809,684, an increase for the year of \$49,775,134, and an increase for the month of \$352,507.

The circulation secured by lawful money amounted to \$29,851,505, a decrease for the year of \$5,673,380, and an increase for the month of \$1,807,130.

The amount of United States registered bonds on deposit to secure circulation notes was \$326,219,230, and to secure public deposits, \$103,810,450.

Catarrh Cannot Be Cured.

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. BABY'S BODY IN A TRUNK

Custom Officer of Skagway Made Ghastly Find—Simple Explanation.

SEATTLE, July 2.—It is curious what funny things travelers try to smuggle. Though in this case it was not funny, but a ghastly thing, and there was no duty on it—a human body, without a soul.

Three women recently arrived at Skagway from Dawson, having left the Klondike capital on a small steamer some days before. Each of the women had a child with her. One of the women, after having arrived at Skagway, readily consented to having her trunks searched by the customs officer, until he reached one particular one, when she suddenly raised an objection, and did not seem to want it looked over.

"There's nothing in it," she said, "but baby clothes and so on."

The officer naturally started in to make a thorough investigation of the trunk, when suddenly he came upon a baby's body, lying packed in soft clothes, its hands calmly clasped in death. Startled beyond measure at the discovery, the customs officer asked for the woman's story, "What is this?" queried the officer. The woman looked at him for a moment, and tears filled her eyes, yet she uttered not a word. Knowing that there had been a sad bereavement in her family, the officer quietly awaited the woman's reply.

When she recovered she produced the certificate of a Dawson doctor and told the circumstances of the death. The officer had no more to say, so the woman took the steamer, with her trunk and her darling, who had departed this life, and started on a long journey for the purpose of placing it in a lot where she had laid other little ones, many miles away from the land of its nativity.

Two reasons prompted her to smuggle the baby. One was that she wished to have her baby with her, and the other was that she could not meet the charge which all roads made for a corpse in a coffin.

Fatally Wounded.

CHICAGO, July 2.—While attempting to recover an umbrella and purse belonging to a young woman who was a stran-

ger to him, William J. Harris was shot and fatally wounded last night by Michael Varios, a Greek. As his victim fell to the floor Varios dropped his revolver and fled, pursued by a number of men who had seen the shooting. He has not been captured.

The affray occurred in an ice cream parlor in which Varios is a waiter. Half an hour before the shooting Varios had quarreled with a woman and her escort who had entered the place. A fight followed between the men during which Varios was struck over the head with an umbrella by the woman. She then ran out the door, leaving the umbrella and her purse behind. Just outside the door she met Harris who inquired the cause of her excitement. She told him and he offered to return and secure the umbrella and the purse. Entering the store he demanded the return of the woman's property. Varios told him to step to the rear of the store and he would hand him the articles. The Greek then walked behind a counter and drawing a revolver from a drawer, deliberately fired it three times at Harris.

Two bullets entered the breast and one the abdomen. Harris is a machinist from Pittsburg.
