### MAY SHORTEN THE BOER WAR

Possible Effect of Death of President Kruger's Wife.

New York, July 23.—A dispatch to the Tribune from London says: The death of Mrs. Kruger may have some influence in shortening the war. Mr. Kruger himself has been reported to be exceedingly dependent over the military operations, and the correspondence between Reitz and Steyn has justified his discouragement. His domestic bereavement may cause him to lose heart for continuing a hopeless struggle. His Dutch physicians have been warning him for months against the consequences of excitement since his heart action is abnormally weak.

The story is brought by influential South Africans that General Botha was disposed to surrender, but did not consider himself at liberty to do so against the judgement of Mr. Kruger. General Botha has a family to provide for and is without resources. Afrianders assert that he is dependent upon allowances which Mr. Kruger has agreed to make for him if he continues the struggle as long as possible. There is no possible method of verifying these explanations, but this account comes from Afrianders who ought to know what they are talking about.

The newspapers refer in tones of sympathy to the death of Mrs. Kruger. It is expected that the British Army in South Africa will pay to her death honors that her former position would have demanded.

#### Real Run of Salmon on.

ASTORIA, July 23.—The cry of a prospective dull winter in this city has been dissipated by the big run of salmon that is now on. For the past few days it has taken every effort to handle the fish delivered, and from all appearances the run will last some time. It increased gradually for the last two weeks, until Saturday. Sunday was even better, but it remained for last night to convince the most skeptical that a real run was in progress. This was supposed to be the year when the value of artificial propagation of salmon would receive a severe test, as the 25,000,000 young salmon which were turned out from the hatcheries should return this year as matured fish. That they are doing so seems unquestioned, as those caught are, with a few exceptions, a new fish for July, though during the last few days a few of the regular July run are beginning to show up. This morning the delivery of salmon taxed the canneries and cold-storage plants to their utmost, largely because of the scarcity of men even partially familiar with the work.

## A 3-Day Sale of Boys' Waists and Blouses

Next Thursday, Friday and Saturday

We will offer parents a chance to make their boys comfortable at a very small price.

The little fellows notice the heat quite as much as we do—and will in many instances be better boys for being comfortably clad.

At these very liberal reductions we should have no trouble in disposing of our entire line in the three days of this sale. And such Waists! None but what are absolutely perfect—condition, style, fit and quality.

Blouse Waists worth 38c and 42c will be, each **25c.**

Waists and Blouses worth 50c, 68c, 75c and 88c will be, each **38c.**

Waists and Blouses worth \$1.25 will be, each **75c.**

**Of Percales and Lawns** Plain or figured, white or colored; some trimmed with self-ruffles, others with ruffles of embroidery; some with bands of same material in contrasting colors; some with large sailor collar, others with small laundered collar and cuffs. All are strictly up-to-date.

#### May Harness Streams to Trains.

NEW YORK, July 23.—The Canadian Pacific Railroad may, in the near future, abandon the use of steam engines on the high mountain grades in the Rockies and have recourse to electric power. The question will be submitted to the next meeting of the board of directors, says the Montreal correspondent of the Times. It is well known that for some time past the company has had electricians at work studying the practicability of utilizing the energy contained in the vast water powers of the Rockies as a means of supplying electric power to haul trains up the steep grades. At present a number of engines have to be kept at these points to assist in hauling the trains. The greatest difficulty the electricians have been trying to overcome is the transmitting of the power over a distance. Superintendent Timmerman, in the employ of the road at Toronto, firmly believes, however, that the scheme can be carried through successfully, and that owing to the unlimited electric power available, it will take the place of steam power all through the Rocky Mountains.

#### Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion and biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's prize almanac Clarke & Falk's.

#### Seven Hundred Teachers Sail.

SAN FRANCISCO, July 23.—The transport Thomas sailed this afternoon for Manila via Honolulu, with 700 teachers who are going to accept positions in the schools in the Philippines.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following a grippé. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. Clarke & Falk's P. O. Pharmacy.

#### Fishes of Hawaiian Islands.

STANFORD UNIVERSITY, Cal., July 23.—President David Starr Jordan has returned from his trip to the Hawaiian Islands, where he has been for the past two months, conducting a thorough and detailed study of the fisheries and the fishes of the islands under the direction of the United States fish commission. About 240 species of fish have thus far been collected and classified; 50 of which are new to science. A complete report of the laws and customs of the islanders relative to fishing is being made by J. N. Cobb, the statistician of the party. This information, together with the results of the scientific work by Dr. Jordan, will be embodied in an extensive report to the government.

#### War Nearing an End.

NEW YORK, July 23.—Mr. Balfour has just stated there will be no supplementary estimates and from this it is inferred that the government does not intend to ask parliament to make any further provision for the war, says the London correspondent of the Tribune. The military authorities, it is understood are satisfied that the war is nearing its end, and that the sum already voted by parliament will be sufficient to meet the military expenditure.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good healthy appetite. Clarke & Falk's P. O. Pharmacy.

#### Boers Give up Hope of Intervention.

CAPE TOWN, July 23.—It is reported that General Delarey has informed the Klerksdorp Commando that there is no longer any chance of European intervention, and that they must fight the war out to the bitter end entirely on their own account.

#### Food Changed to Poison.

Patreying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles.
