SURRENDER OF THE INSURGENTS

Band of 500 is First to Give Up in Island of Samar—American Officers Believe It Will Take Years to Accomplish Economic Plan of Corbin.

MANILA, July 26.—General Hughes cables the news of the first surrender of insurgents in the Island of Samar, 500 men, with two field guns, 30 rifles and 70 bolos, giving themselves up to the United States authorities.

The opinion prevails among the United States officers that it will take years to accomplish the economic plan of General Corbin. The civil and educational authorities hold that a continuance of the protection of minor posts is necessary, aside from that afforded by the constabulary. It is generally expected that the concentration will be more gradual than is anticipated in Washington.

The first meeting of the Legislative Chamber held today was largely attended. Commissioner Wright, speaking of the charter of Manila, said the same reasons that controlled in making Washington the Federal city obtained in Manila, and Washington, he declared, was the best government city in the world. Representatives of the Spanish Chamber of Commerce vehemently opposed the charter, asserting that it was inconsistent with the principles of the freest government on earth to deny the right of suffrage to the residents of the metropolis, while granting it to those of other localities. They also declare that the proposed system of government for Manila was far less liberal than that offered by the United States authorities, who proposed to make the representatives of the district in Manila elective by the people.

Ex-Major Shields, of the Thirty-third Infantry, U. S. V., has been appointed purchasing agent, vice Lieutenant Massey, deceased.

To Change Inaugural Date.

NEW YORK, July 27.—Official steps looking to a systematic agitation for a change of the date for the holding of the presidential inauguration has been taken, says a special from Washington to the World. Resolutions adopted at the last inaugural committee meeting were laid before the district commissioners with a request for appropriate action.

It is understood the commissioners are in favor of a date later than March 4, and will bring the matter to the attention of congress and the governors of the several states and territories. The plan proposed by the inaugural committee is that a national committee be appointed, composed of the governors of the states and territories, 15 additional citizens of the country at large and a representation of foremost residents of Washington. This committee is to select the date and procure by congressional enactment the change desired.

Tunes to Choate.

LONDON, July 29.—United States Ambassador Choate has left London for Holland, says the Daily Express, not for a holiday but, so rumor states, at the invitation of Mr. Kruger, who desires him to act as mediator in bringing about a settlement. It would naturally be supposed that a settlement could not take place without the irrepresible Dr. Leyds, but if Mr. Choate has gone to Holland, Mr. Leyds has left the country for Brussels, starting Saturday.

No importance is attached to this rumor by the Daily Express, for this paper refers to it editorially in a facetious vein as a "South African gooseberry."

The Shamrock Starts.
Gorrock, July 27.—Shamrock II, accompanied by the Erin, sailed at 10:20 o'clock for New York. Great enthusiasm was displayed as the challenger departed. The yacht cut a strange figure with her stunted spars and scanty canvas as she lay ready to start. At 10 o'clock Sir Thomas Lipton and Mr. Watson, the yacht's designer, boarded her, and a few moments later the challenger's moorings were slipped, her head sails broken out and Shamrock II started on her voyage across the Atlantic. Thousands of people gathered for miles along the shore and on the pier at Gorrock and greeted the yacht's departure, with a great outburst of cheering, again and again renewed, until the challenger with her racing flag at the masthead, and the Erin, with the Stars and Stripes flying at her foremast, were out of hearing distance. Sir Thomas Lipton remained aboard the challenger until she was off Cumbranes, when he returned on a tug. Before leaving he addressed the challenger's crew, thanking them for what they had done already and wishing them good speed on the voyage and success to their task.

Northern Kansas Redeemed.
ATCHISON, Kan., July 28.—The drought in Northern Kansas, which has lasted without interruption since April 15, was broken last night and this morning. The Missouri Pacific has received reports from all stations, which extend 300 miles westward from the Missouri River and northward into Nebraska, and all except two or three report a downpour of from two to three inches, and all except four of an inch to two inches. The rain was a steady, drizzling one, and continued, in most places, for three or four hours. The parched earth absorbed the moisture as fast as it fell. While the recent rains have covered Central and Southeastern Kansas, they have not touched the Northern counties up to within the last 24 hours.
