CANDIDATES GALORE.

Anyone with a gun who is in search of the festive politician should hie away to Pendleton, says the La Grande Chronicle. There he is to be found in all his glory and in countless numbers. Given any honorable or lucrative office, and you have but to search Umatilla county for your aspirant. That town has profited well by Western Oregon's trick of stealing everything in the political grab bag, and may better the instruction. Its candidates are: Item, two governors; item, a couple of senators; item, a congressman; item, another congressman; item, a secretary of state; item, a state treas urer; item, an attorney general; and after these anybody for anything that's left. There's Bill Furnish who is hot after the governorship. Failing in that he would be willing to sit in the upper house of congress for six years. Judge Lowell is will ing to take either of these honors if he can get it, provided it isn't first offered to Furnish. Tom Taylor believes that the lower house is a sufficiently "honorable" body and is willing to show Moody what he didn't do. R. Alexander is eager to handle the state's money and hear it jingle in the vaults, Judge Fee wants to sacrifice himself upon the altar of the attorney-generalship, and on the other side of the fence Col. Raley cancelled by the county court in thirty and Tom Hailey sit valiantly with days from this date unless called by the their lightning rods up.

The Chinese inhabitants of the United States are decreasing, but the Japanese residents are increasing. There is no special objection to the Japanese, says the Globe-Democrat, though if they were to reach as high figures as the Chinese had ten years ago there might be some talk of putting up the bars against them. The Japanese are superior in most respects to the Chinese. They conform more nearly than the Chinese to American ideas of civilization. There are 24,000 Japanese in the United States, as compared with 89,-000 Chinese. As the former are growing, however, while the latter are shrinking, the chances are that by 1910 the numbers of the two races may be pretty nearly even. At present the Chinaman is not a menace, but the exclusion law should, at its expiration next May, be extended for another ten years.

Glasglow, Scotland, will try an experiment to lessen the drunkenness. which has brought the town into disgrace, by giving a monopoly of Seaside and return. Tickets good going the liquor business to a private from Portland over the White Collar corporation, which promises to hand line, O. R. & N. Co., V. T. tain agricultural sections of the West has its compensations, and some democrats are predicting that because of Heisler, has this day been dissolved by the crop shortage they will carry, in the next elections, some Western tinued by Heisler & Son, who will colstates that usually go republican.

The theory that the standard of education in this country is altogether too high is helped by the announcement that the Harvard curriculum contains 405 courses, which the average student can not master in less than 300 years.

island of St. Helena number 4700, that is. and 3900 of the number are Scandinavians. The outside assistance received by the Boers has been a large item in their fighting strength.

Bryan denies that he is interested in the democratic divorce suit or that he is connected with the third party.-Boston Advertiser.

A turbine wheel company promises

to construct a ship capable of crossing the Atlantic in three days and a half. As the Deutschland is doing it in five days and a half the feat is by no means impossible.

In dry regions there is a great deal of talk about meeting the drought problem by irrigation. There is only one drawback to irrigation. and that is the absence of water.
