

THE OUTING CUSTOM.

The outing season is here. It is a season awaited with keen and pleasant anticipation in this fair, wild Western land, where numerous influences keep alive gypsy spirit.

Our people are a pioneer people. The first settlers, and many who followed them for more than a quarter of a century, came "the plains across." Months were consumed in the overland journey and the love of camp life and bivouac which time and civilization cannot wholly efface.

In this section the annual outing can be attempted with more safety than in the Eastern states and the Mississippi valley. Here we have almost perfect freedom from violent storms of thunder and lightning, and we escape the frequent drenching rain storms which deluge the older states with little warning.

This annual communication with nature must eventually exert a profound influence upon the character of this section. It will make them more robust and active, keener of sight and more fleet in action, than the house-dwellers in less favored sections.

Apparently Debs is not radical enough to suit some of the social democrats of the present day. Yet he was practically the founder of their party. He made many strong speeches and wrote many eloquent tracts in favor of social democracy.

In some parts of Missouri the rains are the heaviest experienced for eighteen months. The drought is completely broken in various sections and the whole state is looking for like favors.

Blow to Atoms. The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure Constipation and Sick Headache.

If you want to retain your hair you have to keep your scalp clean. Soap will make your hair harsh, dry and crispy. Now we have two of the very best preparations for cleansing the scalp—Egg and Pine Tar Shampoo. It will leave your hair soft and glossy. Price, 25 and 50 cents a bottle, at Frazer's barber shop, The Dalles.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh.
