At the close of the season the company will turn the scouring mill into a warehouse for the winter.

If you don't know how to swim have no dealings with the Columbia river so far as being "in it" is concerned.

Mr. Lovick will be at our store Monday afternoon and evening and will demonstrate Velox paper to the public.

Mr. Henry DeMoss and Miss Julia Hall, members of the DeMoss Lyric Bards, were married about two weeks ago at DeMoss Springs, Sherman county.

Complaints have been made to this office concerning the condition of the bridge over Mill Creek at the Urquhart place, claiming that it is in a dangerous condition and should be repaired.

Among the passengers on the Bailey Gatzert yesterday was Roscoe Oaks, who three months ago had the misfortune to have his leg broken. This was a trial trip and in a few days he will resume his regular trips for the firm he represents.

Our warehouses look rather deserted these days as far as wool clips are concerned, that article being pretty well disposed of this year. At the Wasco warehouse today we found about three clips left, and they informed us grading and baling would be finished by Friday of this week.

Mrs. Fred Fisher had a pleasant surprise yesterday when her nephew, Rev. A. Higgins, of Nova Scotia, arrived in the city. Mr. Higgins has been attending the Epworth League convention at San Francisco and is now visiting his relatives on this coast.

Word was received this morning by the agent of the D. P. & A. N. Co. that an old employe of the company, Victor Peterson, a deck hand on the Regulator, was missing from the boat this morning. When last seen he went to his berth at 12:15. It is thought he must have in some way fallen overboard during the night.

Smallpox seems to be still lurking about seeking whom it may devour. Yesterday a case was reported at Hood river. A man by the name of Knox entered a physician's office there for medical assistance when it was discovered he had a well defined case of smallpox. He was removed to the pest house a mile and a half from the town.

While the Elks of the cities about us are making great preparations to attend the Elks carnival in Tacoma, from the 14th to the 22d of this month, we have heard nothing as to whether that order in The Dalles will be represented or not. It will be a splendid opportunity to visit the sound cities, as the rates have been put down to the minimum and from all indications it is to be a brilliant affair.

In looking over our exchanges we notice that the article published by THE CHRONICLE some time since, in which we said that The Dalles had given up its street fair and carnival, is still going the rounds. Now we are ready to take that back and acknowledge we were more scared than hurt, although it did look black for a time. We are going to have our fair and it will be "no slouch." We can assure our neighbors of that. A meeting will be held some time this week to make definite arrangements.

As aforesaid in these columns, insist on your friends in the East addressing your letters to The Dalles and not to Dalles. There are seventeen places in the United

States named Dallas, so you may see how the difficulty arises when The is omitted. Only a few days since a gentleman went into the postoffice and in conversation with the postmaster said he thought The had been eliminated from the names of all cities. It has not from our city, so be sure your correspondents govern themselves accordingly.

Yesterday on the trip up the river from Portland the two boats, the Regulator and Bailey Gatzert, left the dock at precisely the same hour, 7 o'clock, so naturally a quiet little race took place, though not acknowledged on either side. Both made the same landings, but the Regulator reached the dock three quarters of an hour in advance, making the run in seven hours. The Gatzert is a good boat, but it is difficult to beat the Regulator, which seems somehow to have the right of way. Seven hours is considered excellent time.

Our churches were well attended yesterday considering the number of people who are out of the city, and the number who allow the smallest degree of heat to absent them from services. Rev. W. B. Clifton is having a vacation by preaching once a day; Rev. U. F. Hawk having been absent two Sundays, holds regular services; Rev. Wm. Brenner is visiting in Michigan and the Lutherans are not having services this month, while Rev. D. V. Poling, who has been preaching once a day, announced that if the warm weather continues there will be no services during the remainder of the month at the Congregational church.

The Grant's Ferry and Warehouse Company has just filed articles of incorporation with County Auditor James W. Butler. This new company or corporation intend to do a general storage and forwarding and ferry business at the old stand at Grants ferry. We also understand that this takes in the Wasco Warehouse Milling Company's property at Grant's ferry, the property of Phillips & Aldrich, and the ferry business. This is a movement in the right direction, as it will give our farmers an independent warehouse business at the river, they will still continue to buy as before; and, too, they are unquestionably going to encounter strong competition from Portland buyers—as this is a year they want wheat. Trustees of the corporation are B. F. Laughlin, R. O. Tobin, Frank Aldrich and E. O. McCoy. The new warehouse of the corporation will be 60 feet by 100 feet, and will hold 40,000 sacks of wheat.—Agriculturalist.

Forest Fires Near Fossil.

Timber fires have been raging nearly a week on Butte creek and Thirty-Mile a few miles from Fossil. The Butte creek fire was started by Tom Grant, who was burning a log, and let the fire get beyond his control. Grant lost 1000 posts and a quantity of cordwood. The Rafferty hay crop and monster barn belonging to the B. C. L. S. & L. Co., were saved only by the hardest kind of work on the part of the saw mill hands, who saved the grain notwithstanding part of the fence around it was burned. The saw mill was shut down for several days while the men fought the fire, which is now reported as being under control. Deputy Game and Forestry Warden Henry Heidtman of Fossil, went out Wednesday morning to supervise the fire-fighting.

The fire raging in the Thirty-mile timber is reported to have been started by a party of campers, and Warden Heidtman is investigating with a view to the prosecution of the offenders, if culpable. Everything in the woods just now is as tinder, and carelessness with fire under present conditions practically amounts to a crime.

A large timber fire is also reported to be raging near Alder creek.—Journal.

EARL NEGUS DROWNED.

Another Victim is Engulfed by the Waters of the Columbia.

Just as The Dalles was congratulating herself that she was escaping this season without a case of death by drowning, yesterday about 3:30 o'clock in the afternoon a boy came running into the city saying that Earl Negus had been drowned in the slough just below the Wasco Warehouse.

It seems that about 3 o'clock Earl had gone up with two other boys who were going in swimming. Not intending to go into deep water himself, as he knew nothing about swimming, he was wading about in the shallow water, splashing it on the other boys as they came up, and laughingly playing in the water as is customary with boys on such occasions. At that place, unknown to him, is a hole eight feet square and twenty deep, which suddenly breaks off from the shallow water. Into this, soon after they got into the water, Earl stepped. Seeing him sink, Elmer White, who was then on the beach, started after him, when the other companion cried to him to stop or Earl would grab him and both be drowned. As soon as possible a board was secured and put out to him, but too late, for he rose and, waving his hands, sank for the last time, seemingly unable to grasp the proffered aid.

The boys at once came down and informed Coroner Butte, who after having men dive for the body, secured grappling hooks, and at 5 o'clock they were successful in finding him near where he sank, and the remains were brought to the undertaking parlors of Wm. Michell.

Earl Negus was 20 years old and came to The Dalles about a year and a half ago, making his home with the family of J. A. White at the garrison, who are deeply attached to him. Since his arrival here he has been employed by The Dalles Lumbering Company. He was a faithful member of the Salvation Army, and for some time has been drummer for them, seldom missing a meeting.

Telephone messages have been sent to his father, A. E. Negus, who is working near Pendleton, and his mother at Maywood, Neb., but no word has been received. It has, therefore, been decided to bury the remains here, and the funeral will take place from the Salvation Army headquarters tomorrow morning at 9 o'clock.
