Ice Cream and Ice Cream Soda
At Andrew Keller's.

TREASURER'S NOTICE.

All Wasco County warrants registered prior to October 17, 1898, will be paid on presentation at my office. Interest ceases after August 13, 1901.

JOHN F. HAMPSHIRE,
County Treasurer.

WAYSIDE GLEANINGS.

Forecast—For tonight and Thursday, probably fair. Maximum today, 86.
Prof. Homer de Morrison announces that Saturday, Aug. 24th, will terminate his present stay in this city.

Fred Fisher, of this city, is at present in Salem training his handsome 4-year-old, Edmond S., on the state fair track, having entered him in the trotting races.

Yesterday at The Dalles Hospital Ed. Burchford underwent a successful operation for varicose veins in the leg. Dr. Ferguson informs us that he is getting along splendidly.

Are you looking for a loan on your real property? If you are it will pay you to call and see Hudson & Brownhill. We have money to loan at a reasonable rate of interest on real property only.

Work has begun in earnest on the substitution of the Wasco Warehouse Milling Company, on Laughlin street, the lumber, for which the carpenters have been waiting, arriving a few days since.

About a week ago Mrs. G. W. Hutchinson came down from Celilo to receive medical assistance, and today, at the suggestion of her physician, she was taken to Good Samaritan Hospital in Portland, leaving on the morning train.

Hudson & Brownhill have a few houses for rent—rooms from four up—price \$8 a month and up. These properties are in good locations and parties desiring good homes for the winter can't do better than to call on the above gentlemen at their office on Washington street, or see J. H. Jackson who will gladly show you the property.

We understand but few of our young ladies are seen on the streets today, as the soliciting committee for queen of the carnival is calling upon them at their homes. It was thought best by those in charge for the committee to make out a list of those desirable for the position of queen and calling personally on the young ladies ascertain if they are willing to enter the contest. In this manner much of the annoyance caused last year, not only to the committee, but to those

who objected to having their names entered, will be avoided.

In the Rex property at Susanville, owned by Dalles people, a six-inch streak of galena in the five foot vein of mill ore is being developed. An average sample sent to Colorado-Philadelphia Reduction Co., showed lead 54 per cent, silver 84 oz., gold .08 oz., total value of ore \$96. Colorado smelters pay a premium of 30 per cent lead ore. The company is working two shifts, putting down a winze and drifting. Values are increasing rapidly with depth.

Some time since John C. Parent was taken from this city to the soldiers' home at Roseburg, and last Tuesday attempted suicide by cutting his throat with a razor, nearly severing his wind pipe. Mr. Parent has been a great sufferer for years with no hope of recovery, and it is not to be wondered that he grows despondent. It will be remembered that he attempted suicide some two years ago at his home in the pines near this city. It is said he will again recover.

Hon. M. A. Moody returned last night from Portland, where he accompanied F. H. Newell of the U. S. geological survey, the latter gentleman leaving that place today for Mt. Hood, where he will take observations of the watershed that he may report his conclusions to congress next winter. Mr. Newell will return to The Dalles tomorrow night, on his way to Baker City, where he will stop for more investigation. Mr. Newell thinks there is a great future in store for Eastern Oregon when the natural supply of water is conserved.

The Dalles has a talented musician in her midst in the person of Miss Mamie Helen Flinn, who with her parents recently moved to this city to make her home here and who will commence her work as a teacher of instrumental music and elocution September 1st. Miss Flinn received her musical education under Edward Hesselberg D. Essenelli, in the Denver College of Music. She also studied elocution under John Wetzell of the school of oratory in the same city; and, as those who have heard her will testify, she is an artist in both.

Twenty engines larger than have been will shortly be in operation on the O. R. & N. on the division between Umatilla and Huntington. About half a dozen have already been taken to La Grande, where their station will be, and that number would have been increased still more but for a wreck on the Short Line which smashed two. The new engines are among the finest in the West. The mountain grades have rendered them a necessity if heavy loads are to be hauled. Weighing considerably over a hundred tons each, they carry thirty tons of water and fifteen tons of coal. Six are for passenger service and the balance for freight.

It was the intention of THE CHRONICLE to publish a list of the committees appointed by the executive committee of

the carnival and street fair; but owing to the unfinished condition of the list, as well as of other matters brought up at last night's meeting, we are compelled to defer giving an account of business transacted until tomorrow's issue, when we hope to give our readers some idea of the work the committee is doing and of what may be expected of this year's fair. The matter of the location, whether the grounds will be on Third or Fourth streets, is being discussed pro and con and will be decided tonight. However, it is about certain the old location will be chosen.

THE CHRONICLE has been waiting in vain for at least a sample of poetry, inspired by the "sad sea waves" and coming from the skillful hand and fertile brain of its editor, who now summereth where the waves dash and roar, and we wondered much as to the cause of his silence. However, after reading the following from a letter received this morning we at once concluded that any inspirations which he may have had, were nipped in the bud by the chilling frosts of his summer resort. Mr. Gourlay says: "The day, or rather the night following the day of your 102-inch shade record in The Dalles and 88 at midnight in Pendleton, namely Thursday night, ice froze on still water at Ocean Park. I did not see the ice, it is true, and take the fact on information that ought to be reliable; but I do know it was cold enough for ice, as I found lying in bed with three folds of blankets and an extra heavy comforter over me."

From the numerous complaints which are daily made concerning the behavior of some of the boys in our city between the ages of 10 and 16 it would seem The Dalles must be a training school for the future of these lads in the jails and penitentiary of our state. The latest comes from residents along Mill creek, between the Ninth street bridge and the residence of Wm. Hoering, where the boys collect and commit all sorts of depredations, principally breaking down fences and stealing fruit and melons. Besides this they are in the habit of bathing in the creek, which would not be objected to if the boys behaved in a proper manner. On the contrary it is impossible for the people in that vicinity to go into their orchards near where the rascals are without hearing the vilest oaths and most obscene language. To say the residents in that locality are becoming very tired of such proceedings does not express it, and they have determined to put a stop to it. A few of the boys they know and the rest will soon be apprehended, not only by them, but our officers as well.

ORDINANCES REPEALED

The City Council Voted So At Last Night's Meeting.

At a council meeting held last night Councilmen French, Kelly and Wilson were absent. The meeting was a short one and little business transacted.

The question as to the repealing of the ordinances granting franchises to the various transportation companies for the use of the land along the river front was brought up. As the former ordinance was drawn up by Judge Bennett, a motion was made by Councilman Liebe that final action on the question of repeal be deferred until his return about the first of September. A vote being taken, Councilman Liebe stood for deferment, while Lemke, Shackelford, Wakefield and Toomey voted nay.

A motion to repeal the ordinances was then carried.

The question arising as to whether the city had the right to grant the franchise given to the D. P. & A. N. Co. to use the land so long as it remained an independent company, precipitated the repealing of the ordinances. It seemed reasonable to Mr. Liebe that as Judge Bennett drew up the ordinance it would be advisable to consult him as to its legality. The D. P. & A. N. Co., have, at the same time, gone to much expense at their landing at the foot of Court street, with the liberty given them by the franchise. It will, therefore be the duty, and no doubt the pleasure, of the city to do the square thing in the matter.

The application of Dr. Siddall for the use of the streets adjoining his lot during the building of his residences on Fourth street, was referred to the committee on streets and public property.

Engineer Brown's report that the engine house was in need of repairs was also referred to the committee on streets and public property.

PERSONAL MENTION.

Mrs. C. McGowan was in the city yesterday from Deschutes.

Thos. Gavin, of Pease & Mays' Shamko store, is in town today.

H. Herbring returned last night from camp near Carson, Wash.

Master Ralph Eddon left on the afternoon train for a short vacation at Long Beach.

A. S. MacAllister was a passenger on the Shaver bound for Portland this morning.

Mrs. E. F. Sharp and children left on today's boat for a short visit with Mrs. Sharp's parents in Portland.

Leslie Clarke returned yesterday morning from a week's visit with the family of W. C. Alloway at Lyle.

Mrs. C. E. Wales, of Roodhouse, Ill., arrived in The Dalles yesterday and is visiting her sister, Mrs. John Gavin.

Mrs. J. E. Ellerson, who has been the guest of Mrs. Wm. Gleason, left on the noon train today for her home in Portland.

M. F. D. Morrison, M. A., a tourist from Jerusalem, Palestine, was in the city this morning, leaving on the east-bound train at noon.

B. H. Trumbull, commercial agent of the Illinois Central Railroad, with headquarters at Portland, is in the city today accompanied by his wife.

George Hitchcock, formerly of this city, but now of San Francisco, with his friend, Mr. Robertson, has been camping near Mt. Adams and returned today on their way to their California home.

Mr. H. P. Steers and family left today on the Bailly Gatzert for Portland, where they will reside some time to give Mr. and Mrs. Steers' oldest boy and girl the advantages of the business college in that city.

Messrs. L. E. Crowe and E. M. Williams, who attended the Elks' carnival at Tacoma on Elks' day, returned home last night. They report the carnival a decided success, and can not doubt give many valuable suggestions regarding our own carnival.

Former Dalles Girl Married.

The Roseburg Plaindealer has the following to say concerning the marriage of a former Dalles girl at that place:

The announcement of the marriage of Mr. Ed M. Renfro and Miss Mollie Norman last Saturday evening at 9:30 was a pleasant surprise to the many friends of the young couple who had carefully disclosed their intentions from even their most intimate acquaintances. The wedding took place at the home of the bride's parents, Mr. and Mrs. I. J. Norman, [Rev. W. A. Wood of the Christian church officiating, the witnesses being the relatives and a few favored friends of the contracting parties. Supper was served immediately after the wedding ceremony and the bride and groom departed on yesterday's local for Portland and Tacoma to spend their honeymoon and visit the Elks' carnival at the latter place. They will return in about ten days and will at once begin housekeeping in this city.

The bride is a very popular young lady whose talents and accomplishments and many admirable qualities have endeared her to a large circle of friends. The groom is equally popular, having been for several years a trusted employe of the Southern Pacific at this point. They have the best wishes of all their acquaintances, in which the Plaindealer heartily joins.

You will not have boils if you take Clarke & Falk's sure cure for boils.

A Pleasant Time.

Last evening Wasco Tribe, No. 16, I. O. R. M., had a very agreeable time at a banquet, which these Red Men term "corn and venison." A bountiful repast was served by that prince of caterers, Mr. F. W. L. Skibbe, of which all partook in a hearty manner. All toasts were drunk in sparkling water. The primitive red man knew not the taste of fermented liquor until the New England Puritan introduced rum among them. The Improved Order of Red Men imitate the virtues exhibited by the at-origines, but eschew their vices. Therefore temperance is among the teachings of the order, and is practiced by all true Red Men. Wasco Tribe is looking forward to an era of prosperity, and several palefaces have been sighted in the forest and will soon be adopted into the tribe. Work will be continuous now at the council fire, and in the next few

months it is expected the membership of the tribe will more than double.
ONE WHO WAS PRESENT.

If anything ails your hair, go and see Frazer; he's the headquarters for all hair remedies. Remember that he makes a specialty of these goods. **tf**
