MAKERS OF BAD COINS

Two Alleged Counterfeiters Arrested Near Huntington—Said to Have Made and Passed Bogus Gold and Silver Coins.

BAKER CITY, Aug. 28.—Deputy United States Marshal, A. A. Roberts, arrested E. R. Coon and Bud Butts, at a ranch on Snake River, eighteen miles below Huntington yesterday, on a charge of manufacturing counterfeit silver 50-cent pieces and five dollar gold coins. The prisoners and the entire counterfeiting outfit were brought to this city this morning.

Counterfeit coins of the denominations mentioned have been in circulation here for some time, and the officers have been following every possible clue until they located the coin factory. They are said to be the most dangerous bogus coins placed in circulation for several years.

Coon posed as a gold and silversmith, with headquarters at Huntington. He had letter-heads to that effect, which he used in ordering supplies. The outfit is very complete. The dies are made of metal and are nearly perfect. The base metal used in the coins was the only means of detection.

The silver coins were made mostly of lead and glass, and were too light, and did not have the right ring. The officers think Coon will plead guilty, but they are not so certain about Butts. They are to have their preliminary hearing before United States Commissioner Moore this afternoon.

Abandoned By Parents.

PORTLAND, Aug. 28.—Three abandoned children were brought to the Boys' and Girls' Aid Society from Prineville, Crook county, by Deputy Sheriff Brown. Two of the waifs are girls, aged 11 and 9 years, respectively, while the third, a boy, their brother, is but 4 years old.

The history of the children is sad, for they were deserted by both father and mother in the mountains of Crook county. First the father ran away and was never heard from again; then the mother disappeared, deliberately leaving the little ones to their fate. Two older sisters, aged 18 and 16, tried to take care of them, but as these two could scarcely eke out an existence for themselves, they finally had to appeal to the county board for assistance. In this extremity the county commissioners promptly ordered the small papers given to the care of the Boys' and Girls' Aid Society.

Plow Trust Will Squeeze Farmers.

CHICAGO, Aug. 28.—Plow manufacturers of the United States, a large number of whom have been in conference at the Auditorium, have decided upon an advance of 10 per cent in the price of plows and plow repair during the coming year. The present strike of the steel-workers is given as one cause. The manufacturers claim that the cost of production in every way is much greater at present than it was a year ago. Besides, it is claimed higher wages are being paid to the men employed in the works. The increase in price will go into effect when the sales for next year are commenced, in October.

Money For Whitman College.

WALLA WALLA, Aug. 28.—A letter from Frederic Marvin, Washington press agent to the Pan-American Exposition, announces that Dr. D. K. Pearson, of Chicago, whom Marvin met at the exposition, is going to add much money to his already liberal endowment of Whitman College. Dr. Pearson said: "We will build in Walla Walla the largest and finest school in the Pacific Northwest." Dr. Pearson has already given the institution \$145,000. With pressing need for a girl's dormitory, a new campus, and a gymnasium, the money will be doubly welcome.

Old Soldier's Experience.

M. M. Austin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c at G. C. Blakeley's drug store.

Body of an Infant Found.

SALEM, Aug. 27.—The body of an infant was found floating in North Mill Creek this morning by several boys who were playing in the vicinity. The body appears to be that of a child just born, and the marks on the head indicate that death resulted from hard pressure or a blow from some blunt instrument. The child was wrapped in a large piece of soft, white flannel, and curled up in a pasteboard shoe-box. The box was not entirely water-soaked when found, so the officers feel certain that the body had but recently been placed in the water. The manner in which a cloth was wrapped around the body indicates that a physician attended the mother when the child was born, and the fact that the flannel was of fine quality and expensive leads the sheriff to believe that the parents of the child are well-to-do.

The remains were taken to Rigdon & Clough's undertaking parlors. An investigation today disclosed the identity of the parents of the child. The father says the babe died a natural death and Coroner Lane has decided not to hold an inquest. This determination on his part does not receive general approval, and it is possible that full investigation may yet be had.

Commuting a Sentence.

SALEM, Aug. 28.—Gov. T. T. Geer yesterday commuted a sentence of Benjamin Ownbey, serving seven years in the penitentiary for complicity in the robbery of the bank of Joseph, in Wallawa county, to expire at once. Ownbey had only a few more months to serve, which, together with his credit marks, would have made him a free man. This action was taken by the Governor upon the petition of the trial judge, the prosecuting witness and a large number of the leading citizens of Wallawa county. Ownbey who was implicated in the robbery of the bank, comes from a good family, and it is generally believed that complete reformation has been worked in his case, and that he will not again be implicated in any unlawful transactions.
