

HARD WORK COUNTS.

Brains count for nothing without industry, says the Bulletin. How many men with good minds and excellent educations are working for ordinary salaries...

The lawyer who arrives at his office about 10 o'clock and departs before 5, who closes his door at noon on Saturdays and who gives himself long vacations, need not be amazed if his practice is not so large as that of the plodder...

In every business the same rule holds. The clerk who studies every detail of the business, who does not shirk responsibilities, who gives the best that is in him to his work...

The sultan is having bad luck lately. He has had to pay a little bill due to the United States, and now he has found it wise to accede to some demands which France has formulated...

It is estimated that Oregon and Washington may produce upwards of 40,000,000 bushels of wheat this year, which is a very respectable amount for less than a million people...

It is estimated that Europe will need 270,000,000 bushels of wheat this year. By the way, if the United States could not fill this gap the people of the old world might be in a serious state of mind.

MISCELLANEOUS ITEMS.

The first balloon ascent took place in 1783. In 1871 there were 1,268 'buses in London. There are now 3,200. Ireland has 100 members in the house of commons, while Scotland, with a larger population, has only 12.

England has a yearly surplus of births over deaths of 300,000. Scotland, 10,000; Ireland, of 27,000. The shipping trade along the Central American coast is to a large extent in German hands.

English imports of bacon and ham have grown from 26,000 to 600,000 hundredweight in the last 20 years. For mountain-building camels are very inefficient and seldom used in Alaska and other mountainous regions.

The figures, which came into the calendar on January 1, 1899, will show more 100 years from that date than any other date in 1899.

For 1899 the enumerators reported 2,000,000 babies in 1890, there were 2,100,000 in 1895, 2,200,000 in 1900. The number of babies in 1890 is 200 in excess of that of 1880, and 2,000 less than in 1885.

A photographer of Zurich has invented an apparatus with which he asserts he has taken photographs of immortally calm objects at great distances. He claims recently to have made photographs at a distance of 100 miles.
