

# Do You Cough?

"I guess I used to be like everybody else. When I caught cold, I just let it alone, thinking it would cure itself in a few days. I remember the coughing and spitting of mucus sometimes lasted several weeks but after a while the trouble would subside. I did not know how to cure it until I saw a bottle of Acker's English Balm. I got a bottle, and you never saw the like of the way it acted. Before the bottle was gone I was well. My throat felt as strong and well as could be. Since then I have had no more trouble. I think Acker's English Balm so strengthens the delicate lining of the throat that it easily resists the changes in temperature, and builds up the constitution as well."

## A Potato Paradise.

NORTH YAKIMA, Sept. 1.—The shipment of Yakima fruit and melons, now being made, break all records. Northern Pacific Agent G. A. Graham said today that the company is handling twice the amount of fruit by express that went out last year. Every day westbound train No. 2 makes upwards of two cars of fruit. Monday the load reached a little more than 100,000 pounds, 30 tons of which went to Seattle, and the rest to Tacoma and other Sound cities. So great has become the traffic that the railroad company has seriously considered putting on an express train to carry Yakima products to the Sound. Should the business continue to increase as it has done in the last two years, that would be the only feasible way of handling it.

Persons in a position to know state that the returns which Yakima farmers receive for their fruit amount to \$1,200 or \$1,500 a day. This does not take eastern shipments by fast freight into account. Transportation charges probably amount to one third or one-half of the value of the fruit.
