**Spokane Church Row Aired.**  
**WALLA WALLA, Wash., Sept. 6.**—The Methodist conference now in session here was the scene of a lively tilt yesterday, when the opening guns of the war between the two factions of the First Methodist church of Spokane were fired. Charges and counter charges resulted, and a committee to take evidence and report was finally appointed, the discussion in this way having drifted from the conference to the committee room. Today the committee is taking testimony behind closed doors, and an effort will be made to keep the details of the case from the public from this time.

Rev. Henry Brown, presiding elder of the Spokane district, is the man on trial. He is accused of having shielded Rev. P. A. Cool, pastor of the Spokane church, some time ago, in having refused to file charges against the pastor, during the church trouble at Spokane. This brought the whole matter up, and a warm discussion followed, taking up most of the day. At last a committee was appointed to take the matter up, and try the facts behind closed doors.

Rev. P. A. Cool, pastor of the First Methodist church of Spokane, with his friends, is here to make a strong fight, and the expelled members of the church and also on hand in full force. In all fourteen cases are to be tried, and it is now expected that the work will take up several days.

Later—After an all-night session the trial committee in the Methodist conference, found Dr. Brown, of Spokane, not guilty early this morning.

**American Woman Kidnapped.**  
**WASHINGTON, Sept. 6.**—The state department has received information from the United States legation at Constantinople confirming the press report of the capture of an American missionary by brigands. The dispatch from Minister Leishmann reports that brigands captured Miss Stone, an American missionary, who was traveling with a woman companion, in the Vilayet of Salonica. The department adds that the matter has received the immediate and earnest attention of Minister Leishmann.

**King Edward No Better.**  
**LONDON, Sept. 6.**—Though King Edward is consciously submitting to the light, water and massage "cure" at Homburg, the Candid Friend, a weekly paper, says the throat trouble from which he has suffered since and before his accession shows no improvement.

**Does It Pay to Buy Cheap?**  
 A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world, and sold by Clarke & Falk. Get Green's prize almanac.

Dyspepsia can be cured by using Acker's Dyspepsia Tablets. One little Tablet will give immediate relief or money refunded. Sold in handsome tin boxes at 25 cts. Blakeley the druggist.

Clark and Falk have just received a full line of fresh Velox papers and developers, the same as used by Mr. Lovick in his recent demonstration at our store.

## SCHOOL Books Free of Cost

The opening of school days are always of more or less expense to parents. It is either new clothes, or new books—or both; and where there is a large family to provide for, the cost is no trifle. Here is where we intend to benefit you.

It is needless to dwell on the fact that the boys' clothes we sell are of the satisfactory kind. If they weren't, we could not sell to the same people year in and year out. It takes honest goods to stand the strain.

Our boys' clothing this fall is the same brand we have handled heretofore—our assortment as large, and the prices just a little lower.

As a special inducement—we offer—until Sept. 12th—a **refund of ten per cent.** on any Boys' or Young Men's Suit, Overcoat or pair of Pants,—this amount redeemable in school books, for which an order will be given you on your book store.

For reference, we publish in the space opposite, a revised list of the books adopted by the board of directors for this coming term of school. Any copy listed can be had through this store of your local dealer—as a premium on purchases in our boys' clothing department. The value of the book depends, of course, on the amount of your purchases.

### Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion and biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's prize almanac. Clarke & Falk's.

## PRESIDENT'S LIFE IN A BALANCE

Wounds Not Necessarily Fatal—Late Report Says He Is No Worse.

**BUFFALO, Sept. 6.**—The president and party spent the morning in company with Mayor Deutler, and, with an army escort, visiting Niagara Falls and driving about that city. After luncheon, the power house was visited. From there the party returned to the exposition grounds, and was holding a reception at the Temple of Music when the shots were fired.

HAD THE REVOLVER CONCEALED.

At the reception a young man was pressing forward to shake hands with the president. His right hand was apparently done up in a handkerchief, but beneath the handkerchief a revolver was hidden. As he approached the president, he proffered his left hand, at the same time revealing the revolver in his right. With a quick move he fired two shots. A crowd gathered around the assassin, but were driven back by the exposition guards. Secret Service Detective Foster closed in on the assassin, and grabbing him, knocked him down with a powerful blow. The police then interfered, forcing Foster back, who finally calmed down. The police did not dare to remove the prisoner from the Temple of Music, as the crowd on the grounds were anxious to take his life. The doctors are now working over the president. When the president fell, he was caught by Secretary Cortelyou, and President Milburn of the exposition.

INTENSE EXCITEMENT.

As may easily be imagined, the excitement about the grounds and throughout the city was intense. Nothing like it has been witnessed since Lincoln was shot in 1865 or Garfield in 1881. Men remembering both events say the consternation was just like that that marked the masses when those former chief executives were shot down by the assassins who took their lives.

Theories flew from mouth to mouth. All sorts of explanations were offered, some being that the assassin was a member of the international society of anarchists, from whom of late so many

attempts at the lives of rulers have come.

This theory found acceptance with many. On the other hand, it was asserted that the man was merely a crazy fellow such as have frequently, during times of excitement, stirred by the tenseness of the moment, resorted to such bloody deeds to release their nervous tension.

At the time of the shooting, it was with the greatest difficulty that the crowd was kept from killing the man. If the guards had not stood like a serried column against the pressing mass, they would have secured possession of him, and he would have been torn into a thousand fragments.

HE SAID ONE WOUND PAINED HIM.

After an examination by the physicians, Secretary Cortelyou asked the president if the wounds were painful.

"This wound," raising a hand to the one in the chest, "hurts me severely," answered the president.

When the shooting occurred, the president was surrounded by the usual number of secret service men and detectives, but none particularly noticed the man who fired the shots.

The president was at once taken to the emergency hospital, where a bullet which lodged against the breast bone was removed. Later the president was reported as resting easily.

At 6 o'clock Dr. Roswell Parke, the well-known surgeon, arrived at the hospital, and after putting the president under an anesthetic, began probing for the ball in the abdomen, but in vain, and the wound was sewed up.

Dr. Rixey broke the news in a most gentle manner to Mrs. McKinley. He said she stood it bravely, though much affected. If it was possible to bring him to her she wanted it done. Dr. Rixey assured her that the president could be brought with safety from the Exposition grounds, and when he left Mr. Milburn's it was to complete all arrangements for the removal of the president. A big force of patrolmen was assigned to the Milburn residence.

PRECAUTIONS HAD BEEN TAKEN.

The authorities all along feared an attempt on the life of the president. It was announced yesterday that every precaution had been taken to safeguard him against any such attempt, and detectives and policemen were on all sides. President McKinley has always traveled about the country without more than usual guarding than is given to public officials, and regretted that in this instance it seemed necessary to resort to
