## A GREAT SENSATION IN OHIO

Supposed Murderer of President McKinley  
Arrested—List of Victims  
Four Wives, Five Children, a  
Sister, and Four Other Persons.

DARWIN, O., Oct. 7.—Mrs. J. A. Wither, a widow, residing in this city, has been arrested by the police on the investigation of the murder and to hold a prisoner at the central station pending an investigation into very serious charges.

The last supposed victim was her sister, Mrs. Anna Pugh, who died a week ago under mysterious circumstances. An autopsy performed at the request of Mrs. Wither's mother, who came here from Detroit, is said to have disclosed the presence of arsenic and copperas poisoning in the stomach.

Following closely upon the death of her first husband, came, according to police department data, the death of two children. The second husband died suddenly several years after the marriage, and three children of this marriage died in rapid succession. Her last husband, J. A. Wither, died last April. In each instance death was somewhat sudden, and the cases were all strangely alike.

The prisoner is forty-seven years of age and formerly lived in Middletown, Ohio. She has two sons in the Philippines, and a sister, it is stated, in a New York asylum. No connection with the supposed crime has been disclosed. Drugs which were found in the house occupied by Mrs. Wither, are in possession of the police and will be examined.

### Festivals Closed With Anarchists.

LONDON, Oct. 7.—The speech of H. H. Kelly, of New York, at the anarchist meeting held yesterday in the Tottenham Court Road, London, in which he denounced the late President McKinley's political career, has led to a revival of the demand for the extirpation of anarchists. The Pall Mall Gazette this afternoon compares anarchism with Fenianism and maintains that the only difference between the sentiments of anarchists and the war of outrage advocated by such men as former Congressman Finerty is merely one of diverse means to the same end, and urges that the police of the two Anglo-Saxon nations be empowered to take concerted action to hunt down the social enemy, whether anarchist or Fenian, and that both governments raise their right of asylum.

By a coincidence, the Times this morning prints a long article from Washington, protesting against the license allowed the Irish in America in plotting against Great Britain. Commenting upon this, the St. James' Gazette thinks British heads are not altogether clean, and that no law will be enforced in Kelly, and other foreigners whose cult in number received immediate notice to quit.

## DOOMED TO THE GALLOWS

James G. Green Will Surely Be Hanged—Governor Rogers Declares Emphatically That He Will Not Stay the Process of Justice.

OLYMPIA, Wash., Oct. 7.—James G. Green, who is under sentence of death for the murder of E. C. Benjamin, in Skamania county, last March, need not have any hopes on a commutation of his sentence by Governor Rogers. The governor made that clear this afternoon when he informed the Oregonian correspondent that he wouldn't interfere in the carrying out of the execution of the prisoner. Efforts have been made to induce the governor to save Green from the gallows. Two weeks ago two ministers, members of the Methodist Episcopal Conference, held in this city, called on the governor and asked him to petition for executive clemency would be of any avail. The governor was emphatic in stating that he wouldn't interfere.

In the past it has been the custom, where the trial judge and prosecuting attorney asked for a commutation, for the governor to grant it, but in the case of Green the governor said today that even if the judge who tried Green and the attorney who prosecuted him were to join in a petition for clemency, it would not be granted. "It was a willful murder, and there were no extenuating circumstances, and I will not under any circumstances interfere," said the governor.

### Anti-Anarchist Bill Passed.

NEW YORK, Oct. 7.—Senator David B. Hill, in an article published in Leslie's Weekly, says that the bill in 1894 of proposed legislation to provide for the execution of those who had already entered this country. Senator Hill was chairman of the committee on committee and was strongly in favor of such a law. The bill passed the senate, but failed to pass the house of representatives. Senator Hill says that it was because the majority of the members of the house were opposed to the granting of principles of the law, but that the bill was late in the session and that it

was a rush of business and a single objection prevented the measure from coming up for a vote. There was a hitch between the house and the senate as to whether the anarchists should be examined by consular agents or treasury agents abroad. However, he declares that such legislation must be passed by congress in the near future. He predicts that the next congress will take up the matter.

### Fastest Maiden Voyage.

PLYMOUTH, Oct. 7.—The North German Lloyd steamship Kron Prinz Wilhelm arrived here at 5 o'clock this morning from New York (Oct. 1st), having made the fastest maiden voyage on record. The record is five days, nine hours and forty-eight minutes from Sandy Hook lightship. Her last day's run was 540 miles. The record time from New York to Plymouth is held by the Deutschland of the Hamburg American line, namely five days, seven hours and thirty-eight minutes, made in September, 1900.

### Potatoes After Wheat.

PRINCETON, Oct. 7.—A new method of summer following land has been tried by several farmers near this place this year with splendid results. Potatoes were raised on the land, and the cultivation was proved beneficial to the soil and a most profitable crop is now being harvested.

The land needs a rest from grain growing, and the production of root crops seems to bring the desired results, and the land is kept free from weeds and is left in excellent condition for seeding.

One 30-acre patch of potatoes is now being harvested. On this land about 2000 sacks of 100 pounds each will be secured. At present prices these potatoes are worth \$5000 in cash, and will find ready buyers at that figure. A. A. McDaniel is the lucky farmer who tried the experiment on this large scale, and he is happy over the result.

### CHANCES TO BUY A HOME.

A body of 400 acres of land near Astoria will be sold in tracts of 100 acres or more in this purchase. More than half of this land is fine wheat land, rich black loam. It is well watered, there being some thirty or forty springs on the tract and small running streams about most of it. The land is situated from four to eight miles from the end of the railroad at Astoria. Any one of the land will be sold, either by cash or by time, and the best terms. For particulars apply to the land office of A. A. McDaniel.

### Women and Jewels.

Jewels, candy, barrow, etc.—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a costly gem, than let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Ross's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dried mucus from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedy at Blakeley's drug store. Get Green's Special Almanac.

Mr. Wilson, of the Campbell & Wilson Millinery Parlors, has engaged the services of Miss Margaret Torpier, a first-class trimmer, a former employee of Miller, of Portland, and is therefore prepared to meet the demands of the late trade, as well as the modern. Our styles are equal to the best, and our prices are as low as the lowest. His

### NOTICE.

Effective this date, a charge of \$1 per day will be made for delay in care for all cases held under bond, in lieu of attending by physician or consultant, in cases of injury, death from time that car is set for loading or unloading. JAMES HULLMAN, Agent O. R. & N. Co.
