MOST GETS ONE YEAR IN PRISON

Fire Eater Sentenced to Penitentiary for Publishing Seditious Article the Day After McKinley Was Shot.

New York, Oct. 14.—Johann Most, the anarchist, was sentenced to one year in the penitentiary today in the court of special sessions for publishing in his paper, The Freiheit, a seditious article on the day following the shooting of the late President McKinley.

Adopted by the Church.

SAN FRANCISCO, Oct. 14.—The Episcopal deputies this morning passed the resolution offered on Saturday appointing a commission on the relation of labor and capital. The marriage-divorce debate was resumed. Several speeches were made for and against the proposed canon, the strongest being made by Dr. McKim of Washington, D. C., who said the proposed canon is based upon an interpretation of the Scriptures entirely different from that accepted for a century by the Anglican church. While the church should do something to check divorce, no man has shown how the proposed canon will prevent or restrict the evil or preserve the purity of the home.

The debate closed at noon, R. A. Lewis, chairman of the committee, speaking in rebuttal. Sitting as a committee of the whole, the house of deputies adopted the canon prohibiting remarriage of divorced parties, by a vote of 182 yeas to 158 noes, as passed by the house of bishops with minor amendments made by the deputies.

Homer Davenport's Lecture.

ALBANY, Oct. 13.—Homer Davenport, the celebrated cartoonist, of New York, lectured in this city last evening. His talk was of a reminiscent character, accompanied by cartoons of the prominent men he has met, among them being that of Mark Hanna, Gladstone, Tom Reed, Senator Spooner, Tom Platt and Croker. A Portland story was that of earning two tickets to hear Clara Morris present "Camille" by assisting in posting bills on the streets of Portland just before he became known as an artist. He told his father of his good fortune and the old gentleman remarked that he was glad of it, for he had heard Miss Morris before the rebellion and he knew she was good. At a big Maine monument meeting in Washington, Davenport preceded Clara Morris and he told this story to her great discomfiture. Davenport was introduced by former Silverton schoolmate, Mayor Davis, and there were several former neighbors and admirers in the audience.

Only Way to Save Her.

CONSTANTINOPLE, Oct. 14.—It transpires that the Turkish commander had completed plans to surround Miss Stone's captors at noon last Saturday. Spencer Eddy, secretary of the United States legation, received further advice that further activity would result in the death of Miss Stone, and at 3 o'clock Saturday morning he proceeded to the residence of the Minister of Foreign Affairs, Tewfik Rasha, and demanded the immediate retirement of the Turkish troops. This was carried out, and the Bulgarian forces following suit. Mr. Eddy's action has the unanimous approval of the members of the diplomatic corps, who are convinced that efforts to liberate Miss Stone will infallibly result in her murder.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boecher's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Blakeley's drug store. Get Green's Special Almanac. 1

BELIEVES BOTHA IS CAUGHT

London Standard Has It Figured Out that Boera Cannot Escape.

New York, Oct. 14.—In explanation of the statements of some of the London dailies concerning the war in South Africa, the London correspondent of the Tribune cables as follows:

"The Standard thinks that the British troops have a good chance of capturing General Botha. Very little is known here in regard to the movements of the Boer commandant-general since the failure of his attempt on the Natal frontier. His wagons, with an escort, under Grobelaar, have been detached and sent eastward. Botha with his main body marched in the same direction for some time, only to find that his retreat was being cut off by one of the British columns, which was apparently moving parallel with him. He then marched due north to within a few miles of Piet Retief, where he is believed to have halted in a difficult and perilous position. He cannot break back toward Zululand or the Natal frontier without throwing himself right into the arms of his pursuers. If he goes north he will touch Swaziland, and will get into trouble with the warlike natives. He may possibly drift away toward the west and find a temporary refuge in the passes of the Elandsberg. On the whole, the Standard considers that the Transvaal army is in a tight corner. The Daily News, on the other hand, takes the view that General Botha has gotten clear away."

A Buried Forest.

PORT TOWNSEND, Oct. 13.—According to a letter received here today from a miner in the Kongarok district, near Nome, evidences have been unearthed which indicate that in remote ages that section was tropical. At the mouth of Turner Creek a buried forest has been traced a distance of a mile and a half. Trees more than 100 feet long have been uncovered, and many are in an excellent state of preservation. When the forest was first discovered, it was thought to be coal, but further investigation revealed that it was timber. The wood resembles California redwood, and many

of the trees are exceedingly large. In the buried forest were found elephant tusks, deer and elk horns and mammoth tusks of considerable size, which strengthens the belief that the country now covered with ice and snow was once a tropical or semi-tropical region and was covered with a luxuriant growth of vegetation. Amidst the buried forest a soda spring has been found with an immense flow of water, and, according to the writer of the letter, animals for miles around go there for water. He says the water is pleasant to the taste and possesses excellent medical properties.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 68 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and All Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at G. C. Blakeley's drug store. 2

Effort Has Failed.

NEW YORK, Oct. 14.—The Constantinople correspondent of the World cables the following additional points of interest concerning the attempts to rescue Miss Stone:

"The first negotiations with the brigands who kidnaped Miss Stone, the American missionary, and are now holding her for \$110,000 ransom, have fallen through owing to an attempt by the Bulgarian police to trap the outlaws. It is believed, however, that Miss Stone and her companion, Mrs. Telika, are being well treated."

"I had long suffered from indigestion," writes G. A. LeDels, Cedar City, Mo. "Like others I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure indigestion had made him a total wreck. Clarke & Falk's P. O. Pharmacy."
