Another queer fact is this, the Chinaman, who was so badly pounded up, was not summoned only nourish a particular part of the as a witness."

A Salem dispatch says W. M. Barnett, of Wasco, has purchased 800 acres of school lands in Crook county, in a district southwest of Green's August Flower, the favorice Prineville commonly known as the "desert." The land cost Mr. Barnett \$1:25 an acre, and with water, which can be obtained in unlimited quantity at relatively reasonable expense, remedies at Blakeley's drug store. At his time of life the rest and quiet that is the due of a wellspent and active life is better far than any political honors that could be conferred upon him.

Political Pot Stirring.

The East Oregonian, intensely and al waye democratic, is taking a wonderful interest these days in the republican candidates at the coming state election. That paper's very latest information is both papers for \$2 a year. Subscriptions under this offer must be paid in adas follows, and we give it for what it is worth, premising the while that the East Oregonian knows a heap of things that ain't so. It says:

One of the most significant reports is that Wallace McCammant is a candidate for the republican nomination for congress from the Second district. Malcolm A. Moody, of The Dalles, now is the incumbent and stands for re-nomin-ation. Mr. Moody has been exerting himself to bring to bear the re-sources of the executive departments of the federal government in Eastern Oregon, and this perhaps has been the best act of his incumbency. He has caused investigation of the possibilities of irrigation and reforestration and the timgation and reforestration and the tim-bering and grassing of sand tracts along the Columbia river. This has atrength-ened him with his constituency beyond doubt. Mr. McCammant has been a republican campaigner since he attained manhood's estate, and has been a de-voted follower of Joseph Simon. He has been known as a candidate for some weeks, and yet a public announcement

Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspeysia. You must prepare for their appearance or prevent their coming by taking regular doses of medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. C. Green's reliable Green's Special Almanac.
