CHICAGO'S POST-OFFICE ROBBERED

Burglars Got Away With \$76,000 Worth of Stamps—Bored Great Hole in Steel Vault.

CHICAGO, Oct. 21.—One of the boldest and most successful postoffice robberies in the history of the United States was committed last night, when one of the three great vaults in the local postoffice was entered and from \$76,000 worth of stamps were stolen. The job resembles the Selby smelter robbery California, in that access to the vault was gained through a tunnel dug from the lake front at the side of the building to the bottom of the great steel case. An eighteen inch hole was then drilled into the vault. Entrance was then effected, and the robbers helped themselves to the valuable contents, loading the loot upon a wagon and getting away undiscovered. Scores of detectives have been placed on the case. They are working upon the theory that persons thoroughly acquainted with the building perpetrated the robbery. A number of post-office employes are under surveillance.

Ninety-seven holes had been drilled in one of the plates in the bottom of the vault and apertures two by three feet were made. The robbery was not discovered until this morning when the cashier opened the vault. He found a box over the hole. Upon the box were a number of finger marks, which the detectives believe will aid them in running down the criminals.

It is thought the work of drilling the holes began at least three days ago, and that the men perpetrated the job without discovery is considered a marvel. Hundreds of men worked on the floor in which the vaults are located, and policemen constantly patrol the inside and outside the building. A watchman was stationed twenty feet from the robber's place of exit. The amount of stamps stolen is found by count to be \$76,820.

Officials Condemn.

WASHINGTON, Oct. 21.—There has been no report since Saturday at the state department from London or Bulgaria touching Miss Stone's case. The officials are, however, by no means discouraged, and are well confident that they will succeed in saving her life, but whether by diplomacy or force is not clear. It is estimated that the friendship of the Russian government has much to do with the confidence of the officials here. That government has responded in the most cordial spirit to the appeal of the state department, which, unable itself, from geographical and political reasons to exert pressure upon the government of Bulgaria, has been pleased to avail itself of the powerful influence of Russia on that government. The Turkish government has, for its part, responded in the same spirit to the appeal of the United States, and altogether the two governments, Turkey and Bulgaria, probably have been put to a degree of expense equal to the amount of ransom demanded by Miss Stone's captors in the military operations they have already directed in her interests.

Not Causes Night Alarm.

"One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittendon, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble and no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. 50c and \$1.00. Total bottle free at G. C. Blakeley's drug store.

Old Sister's Experience.

M. M. Austin, a civil war veteran, of Winchester, Ind., writes: "My wife was sick a long time in spite of good doctor's treatment, but was wholly cured by Dr. King's New Life Pills, which worked wonders for her health." They always do. Try them. Only 25c at G. C. Blakeley's drug store.

THE EXECUTION OF CZOLGOSZ

Will Probably Occur Early in the Morning of October 28th.

ALBANY, N. Y., Oct. 21.—Warden Meade, of Auburn Prison, spent several hours today in conference with Superintendent of State Prisons Cornelius V. Collins, arranging the details for carrying out the sentence of death imposed on Leon F. Czolgosz, the murderer of President McKinley. They went carefully over 1200 requests which have been received for invitations to the execution. There will be but twenty-six witnesses admitted, the law limiting the number. The prison physician will be assisted in the conduct of the autopsy by Dr. Charles F. MacDonald, ex-president of the state commission in lunacy, and one of the greatest experts on insanity in the country. There will also be a number of other physicians in attendance.

Superintendent of State Prisons Collins is silent as to whom he will invite, but it is learned that the sheriff of Erie county, within whose jurisdiction the crime was committed, will receive an invitation. Because of the small attendance that can be had under the statute, there will be but a limited number of representatives of the press present. The details of the execution have been practically completed, and while the prison authorities guard with great secrecy all facts, it is thought the execution will take place before 6 o'clock on the morning of October 28th, or if everything cannot be made ready on that day, at a similar hour on the 29th. The work of selecting the jury to sign the death warrant of the murderer has been completed but their names are withheld from publication. They will not be known until the morning of the execution.

Great Discovery by Russian Inventor.

Dr. PERKINS, Oct. 5.—A member of the faculty of Moscow Imperial Technical School recently discovered that a microphone attached to an electric lamp by wires will transmit sounds through the medium of another electric lamp. Repeated experiments were made in which the two lamps were separated

by a thick wall. The inventor read in a low voice a lecture on his discovery and his words, spoken into the microphone, were comfortably audible in the next room. With characteristic carelessness the Russian newspapers failed to state whether the lamps were burning, but it is probable that this is to be assumed.

Your Face

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulate the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. C. Green's reliable remedies at Blakeley's drug store. Get Green's Special Almanac.
