

# Are You Mixed... on the Suit and Overcoat Question?

It's pretty hard to know what to do, isn't it, when every clothier in town has "the best at the lowest price" and all "give satisfaction," and all beat the tailor to pieces, and save you a half to a third—and all that. It comes down to the question of faith in somebody. **Hart, Schaffner & Marx** tailor-made clothing, made expressly for PEASE & MAYS, will answer the question. Stylish, durable and best for the money.

All warrants for premiums awarded at the late district fair are now in the hands of J. C. Hostetter, cashier of French & Co.'s bank, where the owners can obtain them upon application to Mr. Hostetter.

Z. F. Moody has instituted proceedings in the circuit court for the recovery of \$3,452.98, with interest and attorney's fees, from F. E. Jones, of Sherar's Bridge. The bulk of the claim is on promissory notes.

We understand that Ed Fish has closed a bargain with E. F. Laughlin for the ground lately occupied by the Porter livery stable. The rumor of some time ago that Mr. Porter had bought the prop-

erty didn't turn out to be true. The property has 100 feet front on Second street and runs back 120 feet on Laughlin street.

The east side, to a depth of forty feet, of the implement department of Mays & Crowe's big brick store is being fitted up with partitions and counters and shelving for the occupancy of the Hub clothing store by the first of the month.

C. W. Haight, of this city, has purchased 3,200 head of sheep from W. J. Lauder, of Bakeoven, which he will winter on the range near the head of Cow canyon. The price per head has not been given out, but the deal involves the sum of over \$7000.

The democratic candidate for governor of Iowa says if Bryan does not quit the state he will be defeated. How have the times changed! Two or three years ago every democratic stump in the country was clamoring for Bryan to mount it and orate. Now there is hardly a stump left that democrats haven't grabbed up.

Senator Simon, who recently went to Washington to tell the president that in the matter of federal appointment the little senator's name was Mud, having accomplished his purpose, has returned home. And while Joe was boo-hoing into the presidential ear, Senator Mitchell procured an order for a government transport to load at Portland.

Senator Tillman, of South Carolina, says of the Booker Washington incident: "The action of the president in entertaining that nigger will necessitate our killing a thousand negroes in the South before they will learn to keep their places again." Is it possible that this uncultured brute represents the sentiment of the people of the South?

The paragraph in yesterday's CHRONICLE, taken from the Stramania Pioneer, which said that Harry Clough, of this city, had bought a stock ranch on the Little White Salmon and was going to settle down to the peace and comfort of a pastoral life was at least premature. Mr. Clough laughs at the idea and says he wants no pastoral life in his'n.

While E. F. Wickham, of Dutch Flat, was washing a hog yesterday for the mango the middle finger of his right hand unfortunately slipped into the hog's mouth and one of the brute's teeth went clear through the finger, inflicting a very painful wound that compelled Mr. Wickham to come to town this

morning to have it dressed by a physician. The hand was slightly swelled from blood poisoning, but no serious results are anticipated.

A late Washington dispatch says: "Woolgrowers in California and Oregon, and in fact all of the western states, have obtained an important diplomatic victory by succeeding in inducing the administration to abandon the reciprocity treaty with Argentine republic, which proposed a reduction in the tariff on wool coming from that country of twenty per cent per pound."

Charles Hendershott, a tramp stranger, was arraigned before United States Commissioner Huleon this morning on the charge of selling whiskey to Indians, the complaining witness being Deputy Sheriff Wood. He was bound over to the United States grand jury in the sum of \$200 and was taken to Portland this afternoon by Deputy United States Marshal Probstel.

Senator Mitchell has succeeded in having orders issued to send the transport Grant to Portland to take the Twenty-eighth Infantry to Manila, provided there is sufficient water for the ship to go up the Columbia. The vessel when loaded draws twenty-five feet of water. Should she be able to make the round trip without accident or delay the event will surely break the hearts of two or three Astoria editors.

A new case of diphtheria was reported to the city authorities this morning, that of a child of W. S. Woolsey, who resides in the Military Addition, near the end of the flume. The house was promptly quarantined. This is the first new case for nearly two weeks. The old cases are all well and only await the limit of the law for raising the quarantine. The flag was taken down from J. B. Golt's house yesterday. The quarantine will be raised on the remaining five old cases in a few days.

J. B. Brown, a former resident of the Kingsley country, spent last night in the city the guest of the Umatilla House. Mr. Brown is largely interested in farming in the neighborhood of Grass Valley, Sherman county, but he justly complains that No. 1 wheat is only worth 41 cents at Bourbon, his nearest shipping point, while the same class of wheat brings ten cents more in The Dalles. If it were at all convenient or even possible for Grass Valley farmers to haul their wheat to The Dalles, the Columbia Southern wouldn't get an ounce of it at present rates. By the way, what became of Judge Bennett's project of two years ago to build a railroad up the Deschutes to tap Crook county and go on to Klamath county? It would be asked to hlt that the judge was then a candidate for state senator; but the project did a torrid 'just the same.

A called meeting of the local barbers was held last night at the O. K. barber shop. All the barbers in the city were present save those of two shops. Mr. Conover was called to the chair, and

T. J. Lynch, by request, stated that the object of the meeting was to organize a local barbers' Union in connection with the International Union. A resolution prevailed to so organize and the following officers were elected: President, T. J. Lynch; vice-president, M. M. Long; corresponding secretary, O. A. Proudfoot; recording secretary, J. R. Rees; treasurer, Chas. Fraser; guide, L. L. Van Nortwick. It was resolved that in future, until further notice, all union shops in the city shall open at 7:30 a. m. and close at 8 p. m., except Saturdays. The meeting adjourned subject to the call of the secretary when the new charter shall have been received.

Light at The Dalles.

"The people of The Dalles are jubilant over the coming change there from a dark to a light town," said Charles Walker at the wharf of the White Collar line to a Telegram reporter.

"The Dalles has been dark too long," continued Mr. Walker, but now it is making a great forward stride. The Wasco Warehouse & Milling Company, an organization comprising many of our old pioneer stand-bys, such as Dan French and W. Lord, has contracted to light the city after November 1st, and the construction work on the plant is being rushed to completion under the personal supervision of George W. Simons and C. F. Swigert, of the Pacific Bridge Company, Portland. They are developing the power from White river, that rushes into the rapid Deschutes river near Sherar's bridge.

"The plant is built very substantially, and equals anything of its kind in California, which state, it is acknowledged, leads the world in electrical transmission.

"The line from The Dalles to White river has thirty miles of poles set in the most substantial manner, which are capable of holding up ninety miles of the heaviest copper wire.

"Great care has to be exercised in the work on account of the high potential voltage, about 22,500, which is the first line of its kind in Oregon. Some pieces of the machinery weigh eight or ten tons and have been hauled by wagon thirty-five miles to the head works.

"The plant will cost \$40,000 and will be a good thing for The Dalles. It will not only illuminate the town, but will also furnish power for all manufacturing purposes, including a new 1000-barrel-a-day flouring mill. It will bring The Dalles to the front."
