

MR. SCOTT'S CANDIDACY.

The East Oregonian wishes to say to The Dalles Chronicle that it is sincere in its advocacy of the election of H. W. Scott, of the Portland Oregonian, to succeed Joseph Simon in the United States senate from Oregon, and will support him for the position against any man in Oregon, democrat or republican, on the ground that Mr. Scott is the fittest man for the office, standing head and shoulders above any other man in the state as a representative of "the Oregon country" in the upper house of congress.

The Dalles Chronicle does accept this open declaration, and is as much surprised as delighted at the East Oregonian's candor and good sense. The election of Mr. Scott to the United States senate would do honor to the state and would in a measure help wipe out the burning disgrace of Simon's election. Harvey Scott, in the judgment of THE CHRONICLE, towers head and shoulders above any man that could be named in Oregon for United States senator, with only one, or possibly two exceptions.

LET THE POLITICIANS BEWARE. The wool growers of Southeastern Oregon are in dead earnest on the subject of leasing the public domain. So are the ranchers and small stockmen, and their opposition to the scheme is justifiable and right. The leasing of the public domain means the ruin of the very class of people who are doing more than any others to develop the natural resources of a country that in the hands of great cattle syndicates would remain a practical wilderness for all time.

Resolved, That should the proposed law pass we will never hereafter, in the discharge of our duties as citizens, allow any opportunity to pass without showing our disapproval and condemnation of the men and the political party that may be responsible for its passage; that we earnestly urge the people of each election precinct in Lake county to meet at the earliest day possible, that they may take such action as may be deemed best, in opposition to the proposed policy of leasing the public lands, and to bring the entire population into harmonious action 'against leasing.' We suggest that, when there shall be two other associations of like purpose organized, each association shall appoint one member of a county executive committee, which committee shall meet and devise some plan by which the united voice of the people may be taken, so that their opposition to this movement of leasing the public

lands may be made known to the American congress in the clearest and most effective manner."

Just as long as the statement remains uncontradicted that Admiral Schieb's flagship received seventy per cent of the hits made by the Spaniards, and had thirty-six per cent of the return fire to her credit, just so long the people of the United States will give admiral Schieb the credit of the victory over the Spanish squadron at Santiago, in spite of the decision of all the naval inquiry boards in the universe.

Brain Food Nonsense. Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia.
