### Reflections of a Bachelor.

Good cooks make cheerful husbands. The best way for a man to get married is to try not to.

The rule which women have about secrets is always to keep those that are not worth telling.

When you speak of catching things men think of fish, colds and scoldings; women of husbands.

Men who have married sisters seem to have a great deal of genuine sympathy for each other.

A woman can always be happy without a man to rule her, but she can be happier with one to do it.

Generally the woman who knows how to cook dislikes to do it as much as the woman who doesn't know how likes to do it.

One thing that takes away a good deal of the pleasure for the women in camping out where you sleep on the ground is that there is no chance to look for a man under the bed.

What a woman can't understand is how a man will stay up every night for six weeks running all over town trying to make votes for a candidate he doesn't know, but get hopping mad if he has to run across the street to get some pargoric for his own baby. — New York Press.
