THE YALE SPIRIT.

There are many reasons why Yale University should celebrate with pride the two hundredth anniversary of its foundation, but one of them stands pre-eminent. What should East. give its admirers the greatest satisfaction as they survey its two centuries of notable achievement in "training young men for employment both in church and civil state" is the fact that it has always made the national cause its own; that it has never faltered in its allegiance to the flag; that it has invariably illustrated a true and manly ideal of American citizenship. The quality of its patriotism has been unquestioned, and it has never hesitated in times of national stress to and material, at the country's service.

days as now. The colony of Connecticut was founded in almost absolute independence of control by church or king; its form of government was among the earliest of written constitutions, and it steadily fought throughout the whole Colonial era every attempt of England to impose upon it an arbitrary rule. Of this spirit Yale was one of the was frequently stigmatized by loyalists as a veritable nest of sedition. of Nathan Hale, a graduate of the class of 1773; and that this sentiment was not confined to the undergraduknown enterprise of Naphtali Daggett, president from 1766 to 1777, who, when New Haven was invaded, shouldered a musket and marched at men played in the Civil war, the manner in which scores of undergraduates threw aside their books at telling. But perhaps the proudest fact of all is that in these latter days, when the spirit of whining has been abroad, when hundreds of intellectual exquisites cosily ensconced in many their utter inappreciation of a critical point in American history, the uniout loud and bold. One of the tenderest recollections of Yale men today must be that three years ago, when the noble statesmanship of William McKinley was not so generally recognized as now, the Yale tion of his character and career by Cure. Clarke & Falk's P. O. Pharmacy. giving him the degree of Doctor of Laws. And in view of all these facts it is especially fitting that a honor in person upon Theodore Roosevelt, another exemplar of patriotism and vigorous citizenship after the best Yale manner.

Is this the Yale spirit? If it is, three days of elequence, of illumination, of emblematic ceremonial and historic pageant are scarcely long enough. There is nothing squeamish or thin skinned in the quality of Yale Americanism; it is strong, young, self-assertive, unquestioning. Therefore let the university rejoice; and let the nation rejoice also!

The departure of the French fleet from Toulon, bound direct to the Dardanelles, and the consequent excitement in Turkey where the public defenses are being hurriedly thrown into effective shape, may prove the torch that shall set Europe ablaze, and bring to the forefront the deathless issue of Russian or English supremacy in the Indies. The Boer eltuation leaves Great Britain with at least one hand tied, and grim

fighter as she is, this is a handlosp that even she cannot hope to overcome. The "bear that walks like a man" may have deemed the moment propitious for the final settlement of the question that he has inherited along with the rest of the Romanoff glories, and is now using his French ally to "pull the chestnuts from the fire" that will be started in the far
