Trilby and Cole's Original Air-Tight Heaters

For Wood and Lighter Fuel.

The introduction of Cole's Original Air-Tight Heater has revolutionized the heating stove trade in all sections of the United States. Its wonderful economy in the use of fuel, and many other excellent qualities, strongly recommend it to all in need of a heating stove.

What Cole's Heater Will Do.

This stove will heat a room from zero to 80 degrees in five minutes.

It will heat your house evenly day and night.

It holds fire 36 hours without attention. You build only one fire each winter.

It burns chips, bark, leaves, paper and corn cobs, and gives excellent results with this fuel, which is ordinarily wasted.

The stove is light and easily moved and set up.

The combustion is perfect and ashes are removed only once in four weeks.

None of the heat is wasted and the stove will save one-half of your fuel bill.

It is clean, economical, convenient, safe and durable.

Every one of Cole's Original Air-Tight Heaters is guaranteed to stay air-tight as long as used. Where wood is used for fuel every family should have one or more of these stoves.

William Hendricks, a son of H. H. Hendricks, of Forest, while playing football at the east school in Salem on Saturday afternoon, met with a serious accident. In the melee he fell in such a

way as to break the right shoulder blade. The young man makes his home with his grandmother, Mrs. Giesy, in Salem.

A telegram was received yesterday stating that the last carload of machinery for the Wasco Warehouse Milling Company's plant had passed Council Bluffs and is expected here in a few days, when it will be set in place as hastily as possible.

It is not true that Theo. H. Liebe aims to attack the character of J. E. Adcox nor to injure the business of T. A. Van Norden. The truth is well known. If the truth hurts, then it is a pity. Theo. H. Liebe does an increased business simply because he is reliable, because he offers good goods at low prices, and because all work done at his place is guaranteed.

Fred Walther, who has charge of Mr. Schenck's residence during the absence of the family, informs us that someone made an attempt to enter the house on Sunday night. The latch of the window in the rear part of the house was forced and the shutters of the window between this apartment and the residence were pried open, but the would-be robber was not provided with proper tools to raise the sash, or else he was frightened away before accomplishing his purpose, since there are marks where he put in a pry under the window; but the fastenings were not broken.

Hugh Morshead, who was kicked in the stomach by a horse belonging to Dr. Dodds at Dufur last Sunday morning, died last night. The deceased was a native of Ireland and came to this country when he was quite young, and during his residence in this vicinity he has always been trusted and respected by those who knew him. Several years ago he married Miss Eva Menefee, sister of Prosecuting Attorney Menefee, and since that time they have made their home in Dufur. He was about 35 years of age and leaves several small children. Atty. Frank Menefee left for Dufur this morning to arrange for the funeral, the time for which has not as yet been set.

In a conflict yesterday between trainmen and some passengers, who were endeavoring to ride on a freight train between Portland and this place without paying fare, Walter Rose, one of the hoboes, was shot in the back by Conductor Laughlin. Rose had been thrown off the train by the conductor when about ten miles out from Portland, and a quarrel ensued in which a pistol was brought into play by the conductor, and although he asserts that he shot in the air, Rose fell with a bad wound in the back. He was sent to the Good Samaritan hospital and will most likely recover. The train crew came on to this city and have received instructions to report in Portland today.

A pleasant evening was spent at the Woodmen's social, at the Baldwin opera house last night, by the large crowd that thronged the hall to listen to the interesting program prepared for the

occasion. The music by the Mandolin club, as well as the duet by Messrs. Long and Krier were both well received, while everyone pronounced the singing by Miss Myrtle Michell as exceptionally beautiful. Hazel Waud also did extremely well in the two vocal selections which she rendered. The addresses by Dr. Hamilton Mead, George Byron and J. W. Simmons were short and to the point and were well received by the audience. In fact the entire social was a flattering success, and one that will place the Modern Woodmen in the front rank as entertainers.

The CHRONICLE reporter was accosted this morning by Manager Patterson, of last season's football team, who agrees with the progressive citizens of The Dalles that a splendid football team could be organized, in addition to the High School team, now in practice. However, one of the first requirements of such a team would be cash, and Mr. Patterson does not care to assume the entire responsibility as he did last season. If the live citizens of The Dalles will subscribe about \$250 to \$300 so that grounds can be fenced near to the business center of our little city, Mr. Patterson is very certain that a coach can be secured and a splendid team organized. He believes that the games will be entirely self-sustaining, paying expenses of coach and that of bringing teams here. Every little hamlet in the neighborhood has a football team, and THE CHRONICLE agrees with our wide-awake citizens and Manager Patterson that The Dalles should not go behind the splendid record of last season.

St. Mary's Academy Nutsuite.

Last evening the parents and friends of the young ladies who attend St. Mary's Academy in this city were given a treat in the way of a musical recital. Not only were those present delighted with the various numbers, but they were also given an opportunity to note the advancement of the young ladies under the able supervision of the sisters.

A selection by the pupils of the third and fourth grades from Mozart was the opening number, and owing to the difficult nature of the music and the splendid manner in which it was rendered, it reflected much credit on those taking part. The pupils of the second grade also rendered a very pretty selection, which was followed by one by Mary Howe, who plainly demonstrated that she is a talented young lady, while Mary Gosner rendered a very pretty vocal selection, "Recollections of School Days."

The pupils of the third grade rendered another selection, after which Maude Coleman delivered the beautiful vocal selection, "Slowly, Softly Music Should Flow," and the entertainment was closed by a well-rendered orchestral selection.

Yesterdays Cannon Blasts are called to Hood River to hold an inquest over the

remains of a man who was found dead under a tree, about one mile west of the town, with a bullet hole in his head. The remains proved to be that of J. E. Rourke, an old gentleman who came to Hood River from Wyoming about two years ago. In his right hand a 38-caliber revolver was tightly gripped, and as one of the chambers was empty it was plainly a case of suicide. The remains were discovered at about 1 o'clock Sunday by Miss Lizzie Backus, who immediately reported it to the neighbors.

It is thought by some that Rourke had considerable money, although none was found on his person, while others are of the opinion that he had nothing.

The jury impaneled by Coroner Butts yesterday gave the following verdict:

We, the undersigned jurors, impaneled by W. H. Butts, coroner of Wasco county, to inquire into the cause of the death of the body now before us, find his name to be J. E. Rourke, of Wyoming, and find from evidence that he is 63 years old and has been a resident here for about two years; and we further find that the cause of death was suicide by shooting himself in the head, as so found a 38-caliber revolver in his right hand, tightly gripped, and one barrel had been recently discharged, on or about the 1st of November, one mile west of Hood River.
